THE REGENCY AUCTION 51

FEATURING THE DALE FRIEND COLLECTION PART 1

APRIL 28 • RENAISSANCE SCHAUMBURG HOTEL • SCHAUMBURG, IL

Welcome to Regency Auction 51!

We are proud and honored to offer, what will be one of our most memorable auctions to date! Many consignors, not least of which include our friend, the late Dale Friend, and the Glorious Patterns collector, a longtime client of both Legend Auctions and Legend Numismatics. Both collections have been split into two parts, the first from each being offered here.

Starting off this evening's offerings is The Dale Friend Collection, featuring an amazing cabinet of early dollars and assorted coins from other series. Following the Friend Collection are type coins through dollars from numerous consignors. Included in the sale is one of our most extensive offerings of toned dollars, since the Roadrunner Collection. All are from several collectors, not a single source. However, in the end they came together as if a single collector had assembled the entire group. Other consignments of high-grade Morgan dollars including semi-Key date issues in GEM, will delight any advanced Registry Set collector.

Following our selection of dollars comes the Unique pattern J-349, the 1863 \$10 struck in gold from the Bob Simpson Collection, and then Part 1 of the Glorious Patterns Collection. This cabinet of rarities was assembled by a dedicated collector over the course of the last two decades. Buying only the best he could afford and focusing on different types, this collection has many different, and popular issues. All of which are very rare issues and are greatly undervalued in the marketplace. Following the patterns, the sale concludes with a wide assortment of gold, from the first U.S. mint at Philadelphia to the classic issues of the 20th century. Needless to say, Gems abound, and the quality is top notch!

Following our Regency Auction, on Sunday, May 1, our first ever Regency Online Session will close. These are coins that, while highly collectible, were not generally appropriate for placement in a live Regency Auction. Rather than reject them, as we may have done in the past, we have created an online only session that corresponds with our boutique Regency Auction program and will allow us to serve our consignors and bidders better.

At Legend Rare Coin Auctions, we are always accepting quality consignments. Whether you have just a single rarity, a few duplicates from a recently upgraded set, or a world class cabinet, our dedicated team of professionals will create a plan that fits your specific consignment. We are always accepting consignments, and right now our July, September, November, and December Regency Auctions are open for consignments. Contact Jessica Berkman, Greg Cohen, or any of our numismatic auction professionals to discuss your holdings. We are accepting consignments here at the Central States show at our table, or at all upcoming shows. You can also contact us by phone or email to discuss your holdings. Don't forget if your consignment value warrants it, we will travel to you!

From everyone on the Legend Rare Coin Auction team, we wish you the best of luck in bidding in Regency Auction 51. There are many world class coins that await placement in your collection!

Warm Regards,
Julie Abrams

TERMS AND CONDITIONS

This is a public auction, conducted in accordance with these Terms and Conditions of Sale, by Legend Rare Coin Auctions (hereinafter referred to as "LRCA"). By bidding on any lot offered by LRCA, the bidder indicates acceptance of the following Terms and Conditions of Sale. Bidders are to comply with the Terms and Conditions of Sale, posted on LegendAuctions.com, at the time of the auction in which they are participating.

BUYER'S PREMIUM

A 17.5% buyer's premium will be added to all successful bids, and is payable by the winning bidder as part of the total purchase cost.

SALES TAX

All sales are subject to applicable state and local taxes. Any lots that are picked up and/or delivered in the state of The Regency Auction are subject to applicable state and local taxes.

PAYMENT

All merchandise must be paid for within TEN (10) days of the date of sale. We reserve the right to cancel any unpaid order after that time and to ban the bidder from future sales. Credit cards (Visa, MasterCard and Discover) are accepted for auction payments up to \$2,500.00 per invoice. Invoices and/or balances over \$2,500.00 must be paid via personal or certified check, money order, or wired funds. Personal checks, money orders and cashier's checks may be held for up to 10 business days in order to allow time for them to clear appropriate banking channels. Please email info@legendauctions.com for bank-wiring instructions and/or to provide numismatic references.

E-CHECK PAYMENTS

E-check payments now available. Please email form to info@legendauctions.com

INTERNATIONAL BUYERS

Foreign buyers, unknown to us, are required to deposit 25% of their anticipated expenditures before bidding. Please contact us in advance of bidding for bank wiring instructions.

EXTENDED PAYMENT TERMS

For all items \$15,000.00 and over, LRCA is now offering Extended Payment Terms. Please advise us at least 48 hours before bidding or purchasing the item in question. Pre-approval is required.

RETURN POLICY

All lots are sold "as is." Lots graded by PCGS, NGC or other third-party grading services, or any lot viewed by the buyer or anyone on buyer's behalf prior to the auction, may not be returned. This is not an approval sale. All sales of lots to the highest bidder are final. Bidders are strongly advised and encouraged to research any lots upon which they plan to bid, and to determine bids, based upon their own evaluation. Bidders assume all risks concerning and related to the grade, quality, appearance, condition, history and origin of any lot. Bidders acknowledge that coin grading is not an exact science, that it can be subjective and inconsistent and that it is possible that two parties might assess or grade the same coin differently. LRCA makes every effort to accurately describe all items offered in its sales. All items will be available for preview prior to the auction.

SHIPPING

Shipping costs will be billed separately and are non-refundable. Items will usually ship within 5-10 business days after payment has been received and/or funds have cleared. Coins will be shipped via Fed Ex or USPS or transported via armored carrier.

The shipping charge includes fees for our third-party insurance coverage, as well as any costs incurred through the USPS or Federal Express. Any shipments made via armored carrier (Brinks, Dunbar, etc.) will be calculated and assessed at the time of shipment.

INTERNATIONAL SHIPPING

It is not possible for LRCA to ship to some countries. Please email questions to info@legendauctions.com. Payment for all international orders is required in US funds. Please contact julie@legendauctions.com for bank wiring instructions. Customs requirements for each country are the responsibility of the buyer. All packages shipped outside of the United

States will include the required customs declaration and full value of the invoice.

BIDS VIA TELEPHONE

An absentee bidder may also participate live, during the auction, via telephone. Requests for phone bidding must be received at least three days prior to the auction date. Please fill out our phone bidding request form online or call 732-935-1168 to request a call from one of our representatives during the live auction. LRCA cannot guarantee phone lines, but will make every effort to accommodate those who wish to participate via this method.

RIGHTS & RESPONSIBILITIES

The auctioneer will determine the highest bidder. The auctioneer, alone, has the right to reopen the bidding for an item, if deemed necessary. LRCA and its representatives reserve the right to remove any attendees who impede the preview and/or the auction. Title to all merchandise shall pass to the winning bidder after receipt of good funds by LRCA. Bidders will be held responsible for their bids, including those bids placed incorrectly. PLEASE VERIFY BIDS BEFORE SUBMITTING THEM. In order to have a bid removed or corrected, bidder must contact LRCA prior to start of the auction. Bidder waives auctioneer's responsibility and holds LRCA harmless for failure to recognize, accept, receive or execute any lost or missing bids by internet, telephone, email, floor bid, fax, mail or other means. LRCA reserves the right to postpone or cancel an auction without notice. Lots may be withdrawn at LRCA's discretion, without prior notice. Lots may carry a reserve. A reserve is a price below which the auctioneer will not sell an item, or will re-purchase the item on behalf of the consignor or for LRCA. LRCA permits bids to be placed by the auctioneer, or an employee of the auctioneer, up to the pre-determined reserve set by the consignor. Legend Rare Coin Auctions' partner, Legend Numismatics, reserves the right to bid on items, for its own account and for the accounts of its clients.

DISCLAIMER AND WARRANTIES

No warranty of merchantability or fitness for a particular purpose is made or implied on any lot. No warranty, whether expressed or implied, is made with respect to any lot except for warranty of title, and in the case of title, auctioneer is selling only that right or title to the lot that the consignor may have as of the auction sale date. All lots are sold "as is" and with all faults. Purchaser hereby assumes all risks concerning and related to the grading, quality, description, condition, authenticity, and provenance of a lot.

- a. Coins and currency listed in this catalog graded by PCGS, NGC, or any other third party grading service or examined by the buyer prior to the auction sale may not be returned for any reason whatsoever by any buyer, except for claims related to authenticity.
- b. For non-certified coins that have not been examined by the Buyer prior to the Auction Sale: if it is determined in a review by LRCA that there is a material error in the catalog description of a non-certified coin or the LRCA no later than seventy-two (72) hours of delivery of the lots in question, and such lots are returned and received by LRCA, in their original, sealed containers, no later than fourteen (14) calendar days after delivery, in the same condition the lot(s) were delivered to the Buyer, time being of the essence.
- c. If an item or items are returned pursuant to the terms herein, they must be housed in their original, sealed and unopened container.
- d. Late remittance or removal of any item from its original container, or altering a coin constitutes just cause for revocation of all return privileges.
- e. Grading or condition of rare coins may have a material effect on the value of the item(s) purchased, and the opinion of others (including independent grading services) may differ with the independent grading services opinion or interpretation of LRCA. LRCA shall not be bound by any prior, or subsequent opinion, determination or certification by any independent grading service.
- f. Questions regarding the minting of a coin as a "proof" or as a "business strike" relate to the method of manufacture and not to authenticity.
- g. All oral and written statements made by LRCA and its employees or agents (including affiliated and related companies) are statements of opinion only, and are not warranties or representations of any kind, unless stated as a specific written warranty, and no employee or agent of LRCA has authority to vary or alter these Terms and Conditions of Auction Sale. LRCA reserves the right to vary or alter the Terms of Sale, either generally or with respect to specific persons or

circumstances, in its sole discretion. Any variation or alteration shall be effective only if in writing and signed by an officer of LRCA authorized to do so.

h. LRCA is acting as an auctioneer. Title to the lots purchased passes directly from the Consignor to the Buyer. Accordingly, LRCA is not making, and disclaims, any warranty of title.

i. Bidder acknowledges that the numismatic market is speculative, unregulated and volatile, and that coin prices may rise or fall over time. LRCA does not guarantee or represent that any customer buying for investment purposes will be able to sell for a profit in the future.

j. Bidder acknowledges and agrees that neither LRCA, nor its employees, affiliates, agents, third-party providers or consignors warrant that auctions will be unimpaired, uninterrupted or error free and accordingly shall not be liable for such events.

WAIVER AND RELEASE

Bidder, for himself, his heirs, agents, successors and assignees, generally and specifically waives and releases, and forever discharges LRCA, and its respective affiliates, parents, officers, directors, shareholders, agents, subsidiaries, employees, managers and members and each of them, and their respective successors and assignees from any and all claims, rights, demands and causes of actions and suits, of whatever kind or nature, including but not limited to claims based upon Auctioneer's negligence, whether in law or equity, tort or otherwise, whether known or unknown, suspected or unsuspected (a "Claim"), which Bidder may assert with respect to and/or arising out of, or in connection with any challenge to the title to or authenticity of any goods purchased, the sale itself, any lot bid upon or consigned, and/or the auction, except where such Claim is otherwise expressly authorized in these Terms of Sale. It is the intention of Bidder that this waiver and release shall be effective as a bar to each and every Claim that may arise hereunder or be related to the Auction Sale.

DISPUTES

If a dispute arises concerning ownership of a lot or concerning proceeds of any sale, LRCA reserves the right to commence a statutory inter-pleader proceeding at the expense of the Consignor and Buyer and any other applicable party, and in such event shall be entitled to its reasonable attorneys' fees and costs. LRCA reserves the right to cancel or postpone the Auction Sale or any session thereof for any reason whatsoever. No Bidder shall have any claim as a result thereof, including for incidental or consequential damages. Neither LRCA nor any affiliated or related company shall be responsible for incidental or consequential damages arising out of any failure of the Terms of Sale, the auction or the conduct thereof and in no event shall such liability exceed the purchase price, premium, or fees paid. Rights granted to Bidders under the within Terms and Conditions of Auction Sale are personal and apply only to the Bidder who initially purchases the lot(s) from LRCA. The rights may not be assigned or transferred to any other person or entity, whether by sale of the lot(s), operation of law or otherwise. Any attempt to assign or transfer any such rights shall be absolutely void and unenforceable. No third party may rely on any benefit or right conferred by these Terms and Conditions of Auction Sale.

Any dispute arising out of or related to these Terms of Sale, the Auction Sale or any lot, with the sole exception of actions by Legend Rare Coin Auctions to collect amounts owed to it and other damages, shall be submitted to binding arbitration pursuant to the commercial arbitration rules of the American Arbitration Association, with any arbitration hearing to occur in Monmouth County, New Jersey. Absent an agreement of the parties, the arbitrator shall limit discovery to that which is necessary to enable the hearing to proceed efficiently. The arbitrator shall not have the power to award punitive or consequential damages, nor alter, amend modify any of the terms of this Agreement. The award by the arbitrator, if any, may be entered in any court having jurisdiction thereof. Each party shall pay one-half the costs of the arbitration. Bidder acknowledges and agrees that the competent courts of the State of New Jersey shall have exclusive in personam jurisdiction, subject to the requirement to arbitrate, over any dispute(s) arising hereunder, regardless of any party's current or future residence or domicile. Bidder further agrees that venue of the arbitration proceeding shall be in Monmouth County, New Jersey; and any court proceeding shall be in the Monmouth County Superior Court, in the State of New Jersey, and in each case waive any claim of Forum Non Conveniens. Bidder agrees that any arbitration or legal action with respect to this Auction Sale is barred unless commenced within one (1) year of the date of this Auction Sale.

Auction participants expressly waive any right to trial by jury.

OUR ESTIMATES

The estimates you see published in this catalog are based on HAMMER. Keep in mind that a coin could be either low or high end for the grade, have stunning color or be dull, all of which radically affect a coin's value. Yes, there can be huge price differences within a grade, and we offer estimates as a guide so Collector's can have a better idea of value. One thing we will never do is offer low ball estimates in order to claim stronger sales.

These published estimates represent what Legend Rare Coin Auctions determines to be an approximate high wholesale value for the coin. The numbers are based upon current market values, similar trades, auction prices, published prices, and a consideration of the coin's quality. There is no guarantee that the estimated prices are minimums or are exactly what you can expect to get if you attempt to resell them wholesale.

We always advise you to view the coins you are interested in and calculate what you'll pay using as much information as possible. If you have any questions, please feel free to ask us. We are here to help you!

PRINCIPALS

Laura Sperber
Partner

Laura was raised in Highland Park, NJ. During high school, the coin bug hit her hard. Her trip to the 1976 NYC ANA left a lasting mark and huge desire for her to own and handle the greatest rarities. While attending Monmouth University, Laura attended coin shows more than classes. After college, she started LSS RCI, a wholesale coin company. In 1986, she realized the need for a "better" coin retailer and teamed up in 1986 with George Huang to form Legend Numismatics.

In 1996 Bruce Morelan became a partner and since then Legend has exclusively built or assisted in assembling this generation's greatest collections. In 2012 Laura saw the need for a smaller, boutique auction firm, and created Legend-Morphy with Dan Morphy, whom she split with in 2014. Today, Laura is also a leading consumer advocate for coins. The passion has never subsided, and she keeps a beautiful Proof Walker on her desk to this day.

Bruce Morelan
Partner

Bruce started collecting coins when he was only six years old and by the time he was in high school his dream was to be a coin dealer. But life intervened and instead, Bruce went into business. By chance, he became Legend Numismatics' financial backer in 1996. His great grandmother had given him three coins when he was young, one of which being a Trade Dollar, so he set out to build the finest Trade Dollar set. After a few years with ultra rarities, Bruce returned to his love of dollars and completed both a set of Gobrechts and a set of Seated Dollars.

After selling those sets, Bruce recently returned to dollars with a new Gobrecht set and a spectacular early dollar set capped by his dream coin, the Amon Carter 1794 Dollar. Not many collector's can say they have completed not only the finest 1794-1885 Dollar Sets and have over the years owned such coins as two 1913 Liberty Head Nickels, an 1894-S Dime, 1876-CC Twenty Cent piece, 1827 Original and Restrike Quarters, 1838-O Half Dollar, two 1885 Trade Dollars and four 1884 Trade Dollars!

Julie Abrams
Consultant

Julie Abrams started in numismatics in 1986 when she joined up with Bernard Rome and launched Teletrade, the first computerized auction company. As President of Teletrade, Julie helped expand the company, increasing the frequency of auctions and expanding annual sales to \$24 million within a few years. In 1999, GMAI, a publicly traded company, purchased Teletrade and Ms. Abrams became Executive Vice President of Sales for the parent company, as well as continuing her role as CEO for Teletrade.

In 2004 she joined Stacks-Bowers, she worked to develop an online bidding platform for the firm. She also marketed Stacks' programs to secure consignments from dealers and institutions such as banks, museums and universities.

Julie is a member of the American Numismatic Association, the Central States Numismatic Association and Florida United Numismatists.

THE DALE FRIEND COLLECTION PART I

Dale Friend

August 9, 1941 - September 27, 2021

Legend Rare Coin Auctions is honored to offer the Dale Friend Collection. We were greatly saddened to learn of his passing last year at the age of 80. Dale was an astute collector. He had many areas of interest over the decades he spent collecting coins. Over the years, he would divest of one area, just to go back and reacquire some of his old friends. Other areas, he spent decades pursuing. He and his wife Stacey were frequent attendees at numismatic conventions all over the country, where they made friends with many dealers and collectors. Thus, Dale really lived up to his surname. As far as his coins go, the name Dale Friend became synonymous with quality. Dale did not need to have the absolute finest known example (though in some cases he did or came close), but the coins had to be of a certain look that he enjoyed.

Dale was a longtime client of Legend Numismatics and Legend Rare Coin Auctions. Over the years his relationship bloomed into a friendship, his presence at our table or in the auctions always invited good conversation about a wide range of topics, not always numismatics.

Highlights of the Dale Friend Collection, Part 1 include:

Lot 2. 1C 1925-S PCGS MS65 RD CAC

Lot 4. 5C 1885 PCGS MS66 CAC

Lot 14. 50C 1892-O Micro O. PCGS MS67 CAC

Lot 19. \$1 1795 2 Leaves. PCGS AU58 CAC

Lot 21. \$1 1795 Silver Plug. PCGS AU55

Lot 26. \$1 1796 Large Date, Small Letters. PCGS MS62

Lot 30. \$1 1798 Small Eagle, 13 Stars. PCGS AU58 CAC

Lot 42. \$1 1800 AMERICA!. PCGS MS63

Lot 50. \$5 1809/8 PCGS MS64+ CAC

Lot 51. \$5 1827 PCGS AU58+ CAC

It is bittersweet for us at Legend Rare Coin Auctions. We are honored to sell Dale's treasured coins, but it is sad that we will no longer see him roaming the bourse floor. It is our hope, and the hope of Dale's family, that the winning bidders cherish these treasures the way that Dale did. If ever there was a legacy for a numismatist, let it be that...

A TRIBUTE TO DALE FRIEND

"There are passionate collectors then there was Dale. He was always obsessed with his coins. People did not know Legend did a lot of business with him. He was always a pleasure to deal with. We will miss him. "

Laura Sperber, founder of Legend Numismatics and Legend Rare Coin Auctions

"I had the pleasure of working with Dale for many years as he built his incredible collection. He was relentlessly enthusiastic, very knowledgeable, had a keen eye and never compromised on quality. He was also a lot of fun to speak with, regardless of the topic. And a genuinely sweet human being, always kind and thoughtful. I will miss him and our fun conversations, as will all who were lucky enough to know him. "

Julie Abrams, Consultant for Legend Rare Coin Auctions

Dale was an enthusiastic collector and great fun to work with. He studied each series carefully and acted decisively when a scarce variety appeared. His collection contains many difficult to find coins. Dale, and his wife Stacey, were fun to meet with at many coin shows."

Don Wills, former president of PCGS

"I had the pleasure of working with Dale for 25 years. His collecting interests were diverse, from Liberty Nickels to Proof Gold, but the constant was always fabulous quality and eye appeal."

Katy Duncan, owner, Pinnacle Rarities

"Dale Friend was a true student of numismatics and a passionate collector. He built a series of top tier collections including some of the finest sets of early bust and Barber half dollars. Dale was always willing to share his considerable expertise with other collectors. We always enjoyed his wry sense of humor and his tales about his coins. He is greatly missed by his fellow bust half dollar collectors. "

Dr. Charles Link, collector of early American coins.

"Dale was a collector's collector. He was a fast learner and was unbelievably generous with his knowledge. I'm proud to have called him a friend."

Doug Winter, owner Doug Winter Numismatics

"Dale was a friend and mentor. He had an amazing eye and his coins consistently had "the Friend look". He was always generous with his time and willing to share his knowledge. Very few collectors loved their coins as much as Dale did. We will miss him and remember him. I will be participating in the auction not only to secure some amazing coins, but so I have another memory of Dale!"

Howard Sharfman, longtime collector, The Chicago Collection of Early Half Dollars

"Dale was a collector's collector. His strategy was to focus on a few series of interest, learn all he could about those series, and buy the very best coins he could find in those series to build his collections.

Now to Dale, as is the case with many long-time students of numismatics, "buying the best" didn't always mean buying the highest grade or the most expensive of that particular issue. He was focused on beauty. He told me his goal was for every coin in his set to have a "Wow Factor". He reasoned that if he was blown away by the beauty of a coin, the next owner would be too, and they would be willing to pay a large premium to obtain it.

He loved gorgeous original toning and luster. While he had the heart of a collector, he also paid close attention to investment potential. He mentioned that, with the possible exception of real estate, his coin collection gave him the highest financial return of any of his investments.

Combining pleasure and profit -- what could be better?"

David Wnuck, owner, David Wnuck Numismatics.

LOT 1
1/2P 1796 MIDDLESEX- SPENCE'S
D&H-837. NGC MS65 BN

This is a very interesting "Conder Token" issue from Middlesex, England, that has a strong connection to American numismatics. Great Britain faced a coin shortage, especially copper coinage, in the 1790s, and private merchants produced halfpenny sized tokens, which were used in circulation, and carried a wide range of themes. One of the most popular themes were satires of Thomas Paine and the French Revolution's "Declaration of the Rights of Man."

The somewhat macabre portrayal of three men hanging from the gallows, with the legend: NOTED ADVOCATES FOR THE RIGHTS OF MEN on the obverse and the reverse inscription: A WAY TO PREVENT KNAVES GETTING A TRICK, symbolize the angry feelings the British had toward the Revolution across the Channel and the advocate for both American and French liberty Thomas Paine.

The Dale Friend specimen is a real GEM caliber example. Highly reflective copper surfaces beam boldly with a strong Prooflike flash. Rich blue, violet, and orange-gold are brought out when rotating in the light. The devices are sharply struck. This historic token has a great look, great story, and is highly desired by collectors of early American coppers, as well as world coin collectors.

PCGS 0, NGC 1. This highly desirable token fits into many different areas of numismatics and will see considerable bidding. Because of its high grade and beautiful visual allure, it will not just appeal to specialists. We expect our estimate will prove quite conservative when the hammer falls on this GEM!

PCGS# 576081 | EST: \$1,500+

NOTES

LOT 2

1C 1925-S PCGS MS65 RD CAC

An exceptional, **CONDITION CENSUS** example of this conditionally very challenging S-mint Wheat cent! Tied for **FINEST KNOWN** in the **RED** category, and this old green-tag GEM is boasts a highly desired CAC bean.

Remarkably well preserved, the surfaces are even and have a brilliant mint red coloration. Over the years, the fields have mellowed and taken on a hint of richer brick red accents that contrast with the original orange-red, adding much to the aesthetic appeal. This marvelous coin is also well struck with boldly defined details, not mushy such as the typical 25-S cent. Extremely rare in this grade with this eye appeal, and CAC approval, this impressive GEM has everything going for it!

PCGS 14, NGC 3, CAC 4. This is the former Dr. Duckor coin that sold in April 2020 for \$24,000. The current PCGS Price Guide value is \$22,000 and the CAC CPG value is listed at \$28,800. With **NONE FINER**, this coin is a **MUST OWN** for the top Lincoln cent Registry Sets. Do not let this opportunity pass you by.

PCGS# 2566 | EST: \$22,000+

LOT 3**3CS 1858 PCGS PR64 CAC**

A very pretty, totally original example of this low mintage, early Proof trime. We really love the series and this borderline GEM is very high end for the assigned grade.

Richly toned over highly reflective mirrored fields. The mirrors offer a bold depth of clarity under the mottled multicolored, lovely original patina. Sharply struck up with bold, crisp details, the eye appeal is that of a higher grade! We love the look of this coin, perfect for type or date purpose.

Only 100 Proofs were struck. PCGS 40, NGC 39, CAC 8. The most recent example to sell was a GOLD stickered PR64 that brought \$7,931 in our February 2021 Regency Auction. The current PCGS Price Guide value is listed at \$5,000 and the CAC CPG value is listed at \$4,890. This impressive type coin is worthy of a strong bid and will see fierce competition when it crosses the block. Bound for a neat type set or specialized cabinet of 3 cent silver Proofs.

PCGS# 3705 | EST: \$3,600+

LOT 4**5C 1885 PCGS MS66 CAC**

The 1885 Liberty nickel is the KEY circulation strike date in the series, and is quite scarce in such a lofty state of preservation.

This Premium Quality GEM has a sensational look! Bold cartwheel luster swirls boldly over semi-reflective fields and frosty, sharply struck devices. Faintly dusted with iridescent hues attesting to the originality and adding to the visual allure. Free of any serious contact marks. The eye appeal is incredible!

PCGS 35, NGC 13, CAC 10. This coin brought \$18,800 in the 2014 FUN auction. Since that time, a small group of PQ GEMS were graded, and the Population has jumped considerably. The current CAC CPG value is listed at \$12,000 and this beauty is worthy of a strong bid today. Bound for a fantastic collection.

PCGS# 3846 | EST: \$8,500+

LOT 5**5C 1891 PCGS MS66+ CAC**

Tied for second FINEST GRADED at PCGS, this is a borderline SUPERB GEM example of the date. Thick, frosty luster glows with a bold satiny sheen. Sharply struck up devices stand out boldly and the nickel-silver surfaces are smooth, sleek, and have a soft blush of the clearest golden hue, adding to the sensational visual allure.

PCGS 39, NGC 12, CAC 9. There are 8 in MS66+ and just four finer in MS67. The most recent MS66+ CAC sold for \$2,640 in the 2021 ANA auction and the current PCGS Price Guide value is listed at \$2,750. No PCGS MS67 CAC has sold in a decade, so this may well be the finest to appear on the market in the near term, bid accordingly!

PCGS# 3852 | EST: \$2,200+

LOT 6

Wonderful satin luster blooms on both sides of this softly toned PQ GEM. Sharply struck devices show off crisply defined details. The eye appeal is sensational!

PCGS 35, NGC 11, CAC 15. The most recent example to sell in auction brought \$1,680 in the 2021 ANA auction, and the month prior we sold one for \$2,350. The current Collectors Universe value is listed at \$2,750. VERY RARE any finer, this coin is perfect for the Registry Collector.

A very high end SUPERB GEM, the type of coin that personifies the type of coin Dale really liked. Bold and flashy mirrors beam brilliantly from all over. The devices are frosted and offer a bold contrast against the surrounding fields. Adding to the outstanding visual allure is a splash of rainbow toning at the obverse rim that really pops at certain angles, otherwise the surfaces have just a blush of a pale iridescence. The eye appeal is amazing.

PCGS 15, NGC 16, CAC 16. The most recent example we sold was back in September 2019, which brought \$6,756. The current PCGS Price Guide value is \$4,750. Just three are finer in the CAMEO designation, and this coin is very high end and worthy of a strong bid from the collector who demands the huge eye appeal and great quality!

5C 1901 PCGS PR67+ CAC

A virtually PRISTINE 1901 SUPERB PROOF nickel. Everything about this coin is top quality. Smooth, flawless surfaces show sharply struck devices and a satiny bloom throughout the devices. The fields are more lustrous than reflective, struck from a later state of the dies, where the mirror finish wore off. Classic iridescent pastel toning adds to the allure of this beauty.

PCGS 55, NGC 29, CAC 27. The most recent example to sell in auction brought \$2,468 in our December 2021 Regency Auction 49 and the current PCGS Price Guide value is listed at \$2,700. Only four are graded PR68 finer, and CAC examples have been selling for over \$10,000. This is a great opportunity for the collector. Good luck.

WOW! This is a very special GEM example of this common date. Sensational pastel toning, dramatic shades of gold, tangerine, rose, peach, and soft lilac blue are amplified by a bold, radiating luster. Housed in an old green tag holder, this coin has a huge eye appeal.

PCGS 614, NGC 311, CAC 37. Disregard your current Price Guides and ignore the recent APRs, this coin brought \$529 almost a decade ago, and in today's environment, this colorful beauty will bring a very strong bid indeed! Good luck.

**LOT 11****25C 1898-O PCGS MS65**

Ex Friend-Hayes, as noted on the insert.

This is a truly gorgeous GEM example of this conditionally VERY RARE New Orleans Barber quarter. While the original mintage was 1,868,000, these clearly disappeared into the cash registers, tellers' windows, and all manner of commercial channels in the deep south and mid west when they were released. This date is scarce even in mid-circulated grades and is downright RARE in any Mint State grade, GEMS extremely so. This gorgeous GEM ranks among the 15 highest graded at PCGS, and that no doubt includes duplications of submissions in the MS65 and MS66 range.

This is an early strike from freshly employed dies. The fields have a seductive, semi-Prooflike flash and the devices are sharply struck up. Both sides show a bold album toning pattern, deeper at the rims in shades of blue and dark red, before yielding to apricot-gold. There is a light "slide" mark on the cheek, which may be all that keeps this coin from a loftier grade and/or CAC approval. The eye appeal is SUPERB.

PCGS 7, NGC 3. This coin is very similar in look to the Chalkley-Silbermunzen Collection coin that sold for \$32,200 back in May 2008 and the Classic Collection coin sold in September 2009 for \$7,475. Today, the PCGS Price Guide value is listed at \$6,500 and we think this colorful GEM will realized more. Fresh to the market and boasting a wonderful pedigree, this GEM belongs in a great set of Barber quarters. Only 8 are graded finer.

What a SUPERB example! The Pogue Barber quarters really stood out as exemplars for the type, and this one is virtually PRISTINE and ranks among the FINEST KNOWN, with just a single MS67 graded higher at PCGS. Beautiful! Both sides have a vivacious luster that ranges from satiny to bold swirling cartwheels, enhancing the natural, totally original reddish-gold, cobalt, apricot-rose, lilac, and soft champagne-peach hues that yield to brilliant pearly silver centers. Every detail is crisply rendered, fully brought up by a precision blow from the dies. A somewhat lower mintage of 1,230,000 was whittled down further by circulation. Even in higher circulated grades the 05-O quarter is quite scarce; in this lofty state of preservation it is EXTREMELY RARE, even more so with such a stunning look!

PCGS 13, NGC 2, CAC 6. PCGS has graded 2 in this grade with just a single coin graded higher. The other coin is the Clapp-Eliasberg-Gardner-Premier Barber coin that we sold in May 2018 for \$11,750. This coin is more evenly and delicately toned, and realized just shy of a five figure price in March 2020, where it realized \$9,600. The current PCGS Price Guide value is listed at \$11,000. There is just a single MS67 graded by PCGS that last sold in October 2014 (that was ages ago!). This coin is worthy of the FINEST Barber quarter set and will see very strong bidding! Good luck!

One of the **FINEST KNOWN** examples of the final mintage of quarters at the New Orleans mint, happens to also have one of the great pedigrees of all time--Louis Eliasberg-D. Brent Pogue! **WOW!** The mintage of only 712,000 disappeared into circulation and the 09-O is the scarcest date from this mint in most grades.

This **SUPERB GEM** is essentially tied for second highest graded at PCGS with just a single MS67 finer. Both sides offer a symphony of dappled original toning in shades of pearlescent-silver, olive, pale blue, coppery-orange, and old time gold. The sharply struck devices and pristine fields are amplified by the underlying lustrous brilliance. The eye appeal is exceptional in every way.

Ex Louis E. Eliasberg, Sr. Collection, Bowers & Merena/Stack's, April 1997, lot 1600; John C. Hugon Collection, Heritage, January 2005, lot 4154; D. Brent Pogue Collection, Stack's Bowers, March 2020, lot 7125; Dale Friend Collection. While not noted in the Eliasberg catalog, it is likely that this coin was acquired by J.M. Clapp directly from the New Orleans mint in 1909; then from the Clapp Estate to Eliasberg, en bloc via Stack's in 1942.

PCGS 5, NGC 1, CAC 5. There are 3 graded MS66+ and just 1 finer. This is the only MS66+ to ever sell in auction, realizing \$24,000 in March 2020. The PCGS Price Guide value is listed at \$28,500. The MS67 has not sold as a PCGS coin and is likely impounded in a major Barber quarter collection not likely to appear anytime soon, but if it were, it would likely bring \$40,000+. This is a world class coin with a world class provenance that is will find its way into a **SUPERB** set.

LOT 14

50C 1892-O MICRO O. PCGS MS67 CAC

Legend Rare Coin Auctions is proud to offer this sensational SUPERB GEM example of this VERY RARE major variety. It is indeed a landmark offering, usually only available when important cabinets are offered. This variety was created when the wrong sized "O" punch was selected to create the dies, using the punch appropriate for a quarter, not the half dollar. This variety was recognized very early on, as in Augustus Heaton's treatise on Mint Marks, published in 1893, he noted: "There is one rare variety of this piece with an exceedingly small o, hardly larger than a period." Today, PCGS CoinFacts estimates that 85 examples survive in all grades, the vast majority of which are circulated. Despite its status as a first year of issue, few of the Mint State survivors overall were of this variety.

This is the second FINEST KNOWN of the few Mint State survivors that exist. Exceptionally high end, SUPERB GEM quality surfaces are PRISTINE and boldly lustrous. Soft pearly-silver toning in the centers blends with a light dusting of the clearest gold, that deepens at the rims. Roll the coin around in a light, and the lustrous fields give off a semi-Prooflike flash, which is especially brilliant and flashy on the reverse. The definition is crisp and the devices are sharply and smartly impressed, unusual for a Barber half, especially one from the New Orleans mint. The eye appeal is truly amazing for this issue.

This coin has quite the impressive provenance, one that matches its wonderful quality. Ex William Culter Atwater Collection, B. Max Mehl, June 1946, lot 581; James A. Stack Collection; Stack's sale of the James A. Stack Collection, March 1975, Lot 572; Queller Family Collection; Stack's sale of the Queller Collection of Half Dollars, October 2002, lot 723; ANR's William H. Since then, the market for top tier grade examples has gotten stronger and the current PCGS Price Guide lists a value of \$155,000 and the CAC CPG value is \$158,400. Only one coin, the former Eliasberg coin, graded MS68 is finer. If you need to upgrade your Registry Set do not let this opportunity pass you by! 50C 1896-O PCGS MS65 CAC

A frosty and spectacularly preserved GEM example of this popular early O-mint Barber half dollar. While not a "rare" date, its status as a Condition Rarity cannot be denied, precious few specimens survive in GEM or finer grades at either service. This coin ranks among the 10 HIGHEST graded 96-O halves at PCGS, a great coin for the top tier Registry Set collectors.

A thick, satiny vibrant and bold mint frost gleams wonderfully from the fields and devices on both sides. Generally well struck, the devices are nicely defined. A few scattered, extremely minor marks are all that keeps this GEM from an even loftier grade. Untoned and offering a strong velvety silver texture the eye appeal is exceptional.

PCGS 5, NGC 5, CAC 4. The last PCGS/CAC coin sold in a very weak market, back in January 2016. More recently a non-CAC MS65 NGC coin brought \$22,800 in the December 2020 sale of the Larry H. Miller Collection. This is the second Condition Census example we have hand the honor of selling in recent years, including the Eliasberg-Stellar-Greensboro-Formula 1 PCGS MS67 CAC, the sole finest known of the issue. We are proud to offer this GEM and we know it will occupy a place of prominence in a great set of Barber half dollars.

LOT 16

50C 1904-S PCGS MS65

A wonderful GEM example of this challenging date. Indeed this one is certainly one of the dozen **FINEST** PCGS GRADED examples. The surfaces are smooth and devoid of all but the most insignificant little ticks that can only be seen with the aid of a powerful loupe. As you rotate the pearly-lustrous surfaces in a light, the iridescent tangerine-rose gold on the obverse and powder blue on the reverse comes to life. Well struck the eye appeal is really nice.

Scarcer than you would think based on the mintage, the 1904-S is a major condition rarity in the Barber half dollar series. This date always attracts lots of attention in Mint State grades, especially as you climb the ladder. One theory we have read is that the major 1906 San Francisco earthquake and subsequent fires were responsible for large numbers of banks, homes, and businesses being destroyed, and along with them, perhaps large quantities of these half dollars.

PCGS 6, NGC 1. The last one sold in our September 2019 Regency Auction for \$29,375 and the current PCGS Price Guide value is listed at \$37,500. Only five examples are graded higher and on the RARE occasion they appear, at auction, they have brought double what this one will likely bring. Good luck.

Among the highest graded examples of this date, and it is not hard to see why. The surfaces are icy clean and sleek, with a bold reflection that beams from below a rich layer of toning. Both sides are awash in teals and oranges with bold gold and lilac-slate accents. There are a few light lines behind Liberty's head, well hidden by the wonderful, original toning. The eye appeal is quite pleasing and this date is VERY RARE finer.

Only 792 Proofs were struck. PCGS 11, NGC 17. How is this for RARE? None have sold since the 2007 ANA auction!!! The current PCGS Price Guide value is \$5,750. There are just three graded finer, making this an important opportunity for the collector.

An old friend, a coin we once offered in our May 2018 sale of the Dale Larsen Collection, where it was described as: "A beautifully toned GEM. The color is more subtle than on other coins in this collection, offering a delicate gold hue which blends with a soft pastel rose, aqua, and pewter/slate patina. The colors do come to have a bold iridescence that is really wonderfully brought out by a vivid, attractive satin sheen. Purchased years ago from David Hall Rare Coins, this marvelous coin is just shy of full SUPERB quality and the eye appeal is exceptionally high end!"

PCGS 909, NGC 256, CAC 152. A similarly toned example sold in December 2021 for \$5,280 and the current PCGS Price Guide value is listed at \$5,500. VERY RARE any finer with just a dozen graded MS67 at PCGS. Bound for a world class set of Walkers! We anticipate strong bidding here!

PCGS# 6613 | EST: \$4,500+

LOT 19**\$1 1795 2 LEAVES. PCGS AU58 CAC**

Ex Green and Newman Collections, as noted on the insert.

This is a VERY HIGH END example of this first silver dollar type, and a CONDITION CENSUS quality B-1, BB-21. Not listed in Dave Bowers' 2013 listing of "Notable Specimens" which include three in MS65; three in MS63; one in MS61; one in "MS60"; then it drops to two in AU53. This remarkable borderline Uncirculated coin has it all for the type or date collector of early dollars, and with its Green-Newman-Friend pedigree, it will be highly desired by the serious specialist.

Fully struck on the obverse and with just a hint of weakness on the eagle's breast, this high end AU58 has the look of a Mint State coin, and was graded as such on Newman's envelope. Any wear is limited to barely perceptible friction in the fields and the highest points of the design, hardly impacting the essentially full mint luster. The brilliance really comes out boldly when rotating the coin under a light. Years of storage in Eric Newman's collection imparted a lovely antique, old time patina that offers hints of very attractive orange and blue mixed in to the deep, russet-gold tone. Any mark is invisible to the naked eye and seen only with the aid of a strong glass, having virtually no impact on the outstanding eye appeal.

The impressive pedigree matches the impressive technical and aesthetic appeal of this "GEM AU" Flowing Hair dollar. Ex Col. E.H.R. Green Collection. Col. Green was the son of 19th century financier Hetty Green, the famed "Witch of Wall Street." In the early 20th century, Col. Green amassed one of the greatest cabinets of rare coins of all time. Much of the collection was sold by the Green Estate to the St. Louis Stamp & Coin Co. (Burdette Johnson and Eric Newman) in the early 1940s. Eric Newman bought many of the coins out of the partnership and retained them, and put them on loan via the Eric P. Newman Numismatic Education Society to George Washington University in St. Louis. Starting in 2013, the Newman Collection was sold in a series of sales, raising money for the foundation. This coin appeared in Part IX of the Newman Collection, Heritage, November 2017, lot 15094 (as NGC AU58 CAC). At some point the coin was acquired by Dale Friend and was crossed over to PCGS.

PCGS 20, NGC 47 (all kinds), CAC 4. It is likely that this beautiful coin accounts for two of the CAC submissions. The most recent PCGS/CAC example to sell was in an early March 2021 Internet sale that realized \$84,001. Prior to that we sold the South Texas (ex Hesselgesser) coin for \$76,375. The current PCGS Price Guide value is listed at \$75,000 and it is likely that any Mint State example with CAC approval would bring into the five figures. This coin has the high end look and worthy of a fantastic set. Good luck!

LOT 20

\$1 1795 B-5 BB-27 3 LEAVES. PCGS AU58

Ex Garrett and Hesselgesser Collections, as noted on the insert.

This is a glorious and well pedigreed near Mint State example of this die variety. The B-5, BB-27 is the most "common" Flowing Hair dollar die variety, however at this lofty state of preservation it is very scarce and is truly RARE in any Mint State grade.

The B-5 is easily identifiable by the small "bar" in the field behind Liberty's head. Struck from a rusted state of the dies, there are tiny raised rust bumps seen scattered about the surfaces.

Delicate pewter-silver patina is enlivened by splashes of golden and icy-blue hues. The devices are crisply rendered by an exacting blow from the screw press. The surfaces have a glossy-brilliant luster that really makes the surfaces pop. The eye appeal is exceptional, devoid of adjustment marks and a glass reveals nothing more than a few tiny stray marks. The wear is limited to the faintest trace of friction on the highest points of the central devices. This coin has a bold visual allure for sure!

Ex T. Harrison Garrett; John Work Garrett; Johns Hopkins University; Bowers & Ruddy's sale of the Garrett Collection, Part II, March 1980, lot 679; unknown intermediaries; Dr. Robert Hesselgesser Collection, Goldberg's, September 2011, lot 5018; Dale Friend Collection.

PCGS 44, NGC 47. Don't let the recent auction records skew your idea as to the value of this high end AU58 with important pedigree; back in 2011, this coin brought \$86,250. The current PCGS Price Guide value is listed at \$45,000, but this coin has a better look than the MS62 we sold as part of the Eric Templeton Collection in September 2021 for \$76,375. Truly RARE in Mint State, we expect this wonderful AU58 to bring a strong bid! Good luck.

PCGS# 39977 | EST: \$45,000+

LOT 21**\$1 1795 SILVER PLUG. PCGS AU55**

A superior grade 1795 Flowing Hair dollar with a mint inserted silver plug, this coin is from the B-7, BB-18 die pairing which is considered Rarity-3 overall, and perhaps Rarity-5 with the silver plug. A good proportion of the known plugged 1795 dollars were struck using this die pairing.

The coinage act of April 1792 that established the U.S. mint, also created the standards for the content of each authorized denomination. By late 1792, several patterns and 1,500 half dimes had been produced, but mint officials had to post surety bonds in order to strike gold and silver coins, so the only coins struck in 1793 were half cents and cents. In 1794 silver coins began to be struck, most of which were half dollars and a small number of silver dollars. The standards required that precious metal coins be within a very narrow weight tolerance, overweight planchets were filed down to proper weight; underweight planchets were sometimes treated with a silver plug, where a small hole was drilled into the blank planchet and a plug of silver was inserted, then flattened when the coin was struck. Prior to this coin being struck, the adjusted weight was too heavy and the planchet was lightened slightly as there are some minor adjustment marks.

This well struck and CHOICE AU example has a rich, thick, gray patina on both sides that has bold accents of slate and deep blue, and gold toning. The strike is bold and has crisp definition throughout, including on Liberty's flowing hair and the eagle's head. The only touch of softness, some of which is rub from its brief stay in circulation can be seen in the extreme central high points. A minor rim bump at 11:30 on the reverse rim is the only noticeable flaw to the naked eye. A strong glass will uncover some very minor ticks and marks, perfectly acceptable for the assigned grade and the amount of circulation this coin had seen. Since most early dollars come in low grade or with serious flaws, this coin is a wonderful selection for a picky collector looking to enhance their type or date set.

The Condition Census (2013) of this variety is 66,65,64,64,64,63 and Dave Bowers' list of "Notable Specimens" goes down to AU58, making this AU55 a very high grade for the B-7 die pair. This coin does not appear to be any of the examples sold previously at auction, so Dale must have bought this coin privately.

PCGS 4, NGC 1. The only PCGS AU55 to sell in auction was CAC-approved, and had an extensive pedigree that dated back to June 1885, most recently selling in our May 2019 Regency Auction for \$129,250. The current PCGS Price Guide value is \$160,000. PCGS has graded just three examples finer, and they VERY RARELY ever appear in auction. Do not let this important early federal issue pass you by! An important coin for the collector.

LOT 22

\$1 1795 OFF CENTER BUST. PCGS AU58

There were two distinct obverse dies used to strike the first year of Draped Bust dollars, one with Liberty's bust askew, positioned slightly to the left of center, while the other had the bust properly centered on the die. Both are of similar rarity. The Off-Center bust is listed as B-14, BB-51 and is among the more available die marriage for the date in an absolute sense, but in this high grade they are scarce and are RARE in any Mint State grade.

This borderline Mint State example is a very pleasing coin for the type or date collector. The surfaces have a nearly full luster with a bold, interesting chrome-like flash. Exceptionally sharp in strike, the devices are fully rendered and have just the lightest trace of friction that keeps it from a full Mint State designation. Antique silver and dove patina mixed with pale gold and soft lilac hues. A few old lines (including a few minor adjustment marks) and a thin scratch in the obverse field are noted for the sake of full disclosure, but they have little impact on the lovely eye appeal.

PCGS 13, NGC 15. We cannot find this wonderful example in our search of the auction databases. The most recent example sold in September 2020 for \$34,800 but the eye appeal of that coin was no where close to as reflective or brilliant as this one, and should bring closer to the \$42,500 listed in the PCGS Price Guide. Not that any Mint State coin in a PCGS holder will cost close to six figures if not into the six figures. We expect this coin will bring a very strong bid when it crosses the block. Bid accordingly.

\$1 1795 CENTERED BUST. PCGS AU53

A very colorful and very pleasing antique album toned AU B-15, BB-52, the Centered Bust variety. While a more common early dollar variety, listed as Rarity-2, this is a fantastic type coin!

Sharply struck from Die State IV, with the retained cud in Liberty's hair. Light wear is seen on the highest points and the friction has left some minor lines in the fields. A few ancient contact marks were acquired during its brief stay in commercial channels. Most of the lines and ticks are well hidden by the gorgeous antique album toning. Sensational peripheral blue, green, and ancient gold melds with the antique pewter-silver patina. The eye appeal is exceptional, for an issue that is usually seen cleaned or in some other way impaired.

Ex Superior, January 2003, lot 841; Richard J. Chouinard Collection, Heritage, January 2005, lot 30268; Stack's Bowers, February 2014, lot 2078.

PCGS 8, NGC 15. You should be able to toss out the price guide values and disregard most APRs for this coin. Back in 2014, it realized \$28,200. We expect this coin will sell for a very strong bid when it crosses the block. Not just for early dollar specialists, this coin will delight type collectors as well.

\$1 1796 SMALL DATE, SMALL LETTERS. PCGS AU55

A lovely, Condition Census B-2, BB-63! This Rarity-4 die pairing is a very popular example of this major Red Book variety. The Small Date, Small Letters variety is represented by two die pairings, the other, B-3, BB-62 is a Rarity-7+ or Rarity-8, represented by perhaps as many as five known specimens. This is the more available of the two, BUT it is VERY RARE in this lofty state of preservation and extremely so any finer.

A bold, nearly reflective luster radiates and enlivens the brilliant fields. An antique silver-gray patina is accented by dashes and splashes of deeper slate and golden-russet toning. The devices are crisp, with bold details throughout, with just a hint of rub on the highest points, most impacting the eagle's breast feathers. A strong glass reveals some very minor, totally insignificant marks and lines, nothing serious for a nearly Mint State coin that is 226 years old.

Ex Heritage, January 2010, lot 2582; Dale Friend Collection.

PCGS 9, NGC 17. The most recent example to be auctioned off was from the Freedom Collection, sold by Stack's Bowers in the 2013 ANA auction for \$22,325; that record is nearly a decade old already! Much more recently we sold a PCGS AU53 CAC for \$19,975 in September 2019. The current PCGS Price Guide value is listed at \$28,500. A great coin for anyone working on an advanced set of early dollars. Good luck.

\$1 1796 SMALL DATE, LARGE LETTERS. PCGS AU58

A borderline Mint State "GEM AU" super slider B-4, BB-61, one of the "Notable Specimens" listed by Dave Bowers in his 2013 Early Silver Dollar Encyclopedia. This is a conditionally challenging Rarity-3. This is the only die marriage of the year that has the Small date and Large Letters on the reverse.

Fully lustrous on both sides, there are distinct accents of flashy, semi-reflective brilliance. Hints of the palest golden iridescent toning can be seen on the highest points in the central devices. The devices are sharply impressed showing essentially full, complete definition. The wear, such as it is, is limited to the lightest friction on the highest points and light lines in the fields. There are no serious traces of contact or flaws of any kind, nor are there any adjustment marks anywhere. The eye appeal is quite pleasing overall on this well pedigreed example that at one time was called Mint State.

LOT 26

\$1 1796 LARGE DATE, SMALL LETTERS. PCGS MS62

Ex Cardinal-Friend, as noted on the insert.

A truly CHOICE and sensational example of this early dollar variety, and this specimen has a well documented provenance and must have been one of Dale's favorites, as he owned it twice over the years. Listed second in Dave Bowers' 2013 listing of "Notable Specimens" for the B-5, BB-65 die marriage. This is the ONLY die marriage that combines the Large Date obverse with the Small Letters reverse, making it a distinct Red Book die variety, needed for any advanced set of early varieties. With its placement high up in the Condition Census and its bold visual allure, it is a delightful coin for anyone, and is only the second time a PCGS MS62 example to sell in auction since 2009!

The strike is exceptionally bold on this Brilliant Uncirculated coin. Warm, antique silver-dove patina dominates with accents of some iridescent shades that appear at varied angles. The details are crisp and nearly complete throughout the design elements, with Liberty's hair curls sharply impressed and all but the eagle's highest breast feather details fully rendered. A few of the finest lines are seen with the aid of a strong glass, but distinctly absent from this Mint State early dollar are any adjustment marks, signs of serious mishandling, or any other flaw that distracts the viewer from the lovely eye appeal.

PCGS 2, NGC 1. The most recent example to sell was the Gardner-Templeton coin we sold in Regency Auction 47 for \$123,375. The current PCGS Price Guide value is listed at \$160,000. An important opportunity, as PCGS has graded just two coins finer, the Col. Green-Eric Newman coin as MS63+ and the Cleneay-Pogue MS64. Do not let this important opportunity pass you by, this coin belongs in a WORLD CLASS cabinet of early dollars and we can see it bringing a very strong bid when the hammer falls. Good luck.

LOT 27

\$1 1797 9 X 7 STARS, LARGE LETTERS PCGS AU55

Despite its status as a Rarity-3 die pairing, the B-1, BB-73 is in strong demand as the only one to feature the 9x7 Stars obverse and Large Letters reverse dies, making it a distinct Red Book variety. The present CHOICE AU piece is just a hairs breadth from a higher grade and placement in the Condition Census for the marriage.

A well struck example from the Bowers Die State III, with extensive thin die cracks all around the obverse, and hints of clashing, without any die cracks on the reverse. The devices are crisply rendered from a strong blow from the screw press, the central portions showing only the slightest hint of softness, and most of that can be attributed to the minor rub from circulation. Both sides are richly toned, not dark, but offering a purely original palette of antique patina. Hints of surviving luster cling to the fields, particularly in the protected areas of the reverse. We do not know what CAC saw that precluded approval, this coin has a very high end and pleasing look that will delight any early dollar specialist.

This coin does not appear to match any of the coins listed in the 2013 listing of "Notable Specimens" in the Bowers Encyclopedia, nor were we able to find a previous appearance in our auction database.

PCGS 13, NGC 11. The most recent example sold in the 2019 ANA Auction for \$31,200 and the current PCGS Price Guide value is \$36,500. PCGS has graded fewer than a dozen examples finer, most of which are graded AU58. It has been a long time since anything finer sold in auction, the most recent of which was a PCGS MS62 that sold in the May 2016 Pogue sale. This coin is HIGH END for the grade and it should bring a very strong bid today. This is a FANTASTIC coin for any early dollar cabinet focused on quality as well as grade. Opportunity knocks loudly here!

LOT 28

\$1 1797 9 X 7 STARS, SMALL LETTERS. PCGS XF40 CAC

Ex Eliasberg, as noted on the insert.

A "Notable Specimen" of this very scarce die marriage. The B-2, BB-72 is the scarcest of the three known marriages for the date, each of which is a distinct Red Book variety. Considered to be Rarity-3+ to Rarity-4, Dave Bowers estimated 200-300 survive in all grades, most of them well worn or problematic. Its scarcity has led to much debate over the exact number struck, and does shed some light on early mint practices in recording mintages. The recorded mintage of 7,776 accounts for all the coins struck in calendar year 1797, but Robert Hilt III suggested that this was the only die pair that was actually struck in 1797, B-1 and B-3, he suggested were actually struck in 1798.

This is a totally original collector grade example, a superb example from the most famous coin collection of all time: Louis E. Eliasberg. Nicer than typically seen for the variety. The obverse shows sharply defined design elements, despite the light to moderate wear and the reverse shows the typical weakness on the eagle's breast. The wear is generally even and the surfaces are generally problem free to the naked eye (only with a glass do any flaws, including one obverse scratch, blend in perfectly with the surrounding areas come into focus). Evenly toned in a medium dove-pewter gray patina, with accents of blue and gold that pop in a light. The eye appeal is exceptional for an XF coin.

Ex. J. Colvin Randall, May 1894; J.M. Clapp Collection; J.H. Clapp Estate to Louis E. Eliasberg, via Stack's, en bloc in 1942; Bowers & Merena/Stack's sale of the Louis E. Eliasberg Collection, Part II, April 1997, lot 2178; Highland Collection; intermediaries; Dale Friend Collection.

PCGS 9, NGC 3, CAC 2. There are no really recent comparable examples to sell in auction: the last PCGS XF40 sold in March 2017 and was not CAC. A similar looking coin, graded PCGS XF45 CAC sold nearly six years ago for \$22,325. The current Collectors Universe value is listed at \$18,500 and the CAC CPG value is a similar \$18,600. We think those levels will be exceeded when this very choice and original, beautifully pedigreed piece crosses the block. Good luck.

Ex Hesselgesser Collection, as noted on the insert.

A marvelous B-3, BB-71 with a sensational look! A full satiny mint luster blooms boldly in the fields. The centers of both sides are a pearly-silver with old gold accents, deepening at the peripheries to crimson and azure tones. The devices are sharply struck up, even in the centers and there is just a hint of the faintest friction on the fields and the highest points of the design. There are some light adjustment marks in the central obverse, as made. A few trivial marks are seen with the aid of a strong glass. The eye appeal is exceptional in every way!

\$1 1798 SMALL EAGLE, 13 STARS. PCGS AU58 CAC

Ex Cardinal and Legend Collections, as noted on the insert.

This AMAZING AU58 B-1, BB-82 ranks among the FINEST KNOWN example of this scarce Red Book type, and boasts a SUPERB provenance that includes four of the greatest early dollar collections of this generation: Cardinal, Hesselgesser, Legend, and Dale Friend! With a pedigree like that, you know this coin is going to not just be high grade, but is also going to be of SUPERB quality for the assigned grade.

This is a sensational, essentially Mint State early dollar. A bold underlying luster amplifies the visually alluring, dappled overtone of gold, blue, olive, and reddish patina, which forms an especially bold frame around the reverse. The devices are crisp and only on the eagle's breast is the definition a trifle soft, a combination of the strike and the absolute bare minimal trace of wear. This magnificent high grade survivor is among the VERY FINEST KNOWN, and is a true delight to behold!

The impressive pedigree is as follows: Ex. Farish Baldenhofer Collection, Stack's, November 1955, lot 970; Lexington Collection, Bowers & Merena, January 1994, lot 1277; various intermediaries, including Tangible Assets Galleries and a private collector; Cardinal Collection, American Numismatic Rarities, June 2005, lot 24; Legend Numismatics; Naples III Collection; Don Willis; Dr. Robert Hesselgesser Collection, Goldberg's, May 2011, lot 883; Legend Collection; Dale Friend Collection.

PCGS 3, NGC 3, CAC 3. Looking at the PCGS CoinFacts census, we believe that this coin has been through twice, and accounts for two of the three examples on the Population Report. This coin sold for \$356,500 back in June 2011. Any coin graded higher is a MAJOR RARITY, with just four graded higher in all grades. The last two examples that have sold came from MAJOR collections: the MS61 coin in Pogue (2016) and the MS63 Cleneay-Newman-Morelan coin (2020). This is also the FINEST endorsed by CAC. Do not let this important opportunity slip away. We know the demand for this coin will be very strong! This is truly a WORLD CLASS early dollar and a numismatic treasure from the Dale Friend Collection. Who knows when another HIGH END example will come to the market again.

LOT 31

\$1 1798 SMALL EAGLE, 15 STARS. PCGS AU55

A SENSATIONAL Condition Census B-2, BB-81! Once cataloged as "Strictly Uncirculated," this coin is VERY HIGH END for the grade.

This is a richly toned example, with a bold satiny luster that highlights the slate and gold toning. Sharply struck devices stand out from a precision blow from the first mint's screw press. Liberty's hair curls are sharply delineated, as are the eagle's breast feathers. Light adjustment marks crisscross the obverse, obscured by the thick, rich toning. The surfaces show only the lightest hint of rub, essentially nothing more than old fashioned cabinet friction and only under the closest scrutiny with a strong glass will you find any tick or mark, mostly seen at around 6:00 on the reverse. These are very minor.

1798 was a transitional year for the coining of silver dollars. First two reverse types were utilized, the Small Eagle type, as here, that was en vogue from 1795 to 1798 and then the Large Eagle, that was struck from 1798 to the end of the series (the last coins were struck in 1804, dated 1803 or earlier). The obverse die used on this variety features 15 stars, representing 15 states, but since Tennessee was added as the 16th state back in June 1796, this obverse die really made no sense, and was likely prepared in 1796, with the 179 punched in the die, and then when finally pressed into service in 1798, the final numeral in the date was punched into it. Later on the mint reverted to 13 stars, representing the 13 original states, as adding a star for each additional state would crowd the design.

This coin has an illustrious pedigree. Ex James G. Macallister Collection; T. James Clarke Collection, New Netherlands' 48th Sale, 1956, lot 621; unknown intermediaries; Heritage, September 2007, lot 1866 (as NGC AU58); Dr. Robert Hesselgesser Collection; Dale Friend Collection.

PCGS 1, NGC 0. The only AU55 to sell was the other Hesselgesser coin, now graded AU55+, that realized \$60,375 over a decade ago. The current PCGS Price Guide value is listed at \$65,000 and we feel this coin is worthy of a very strong bid. Honestly anything finer will cost six figures! Worthy of an advanced early dollar date set, and will see very strong bidding when it does! Good luck.

\$1 1798 KNOB 9, 4 LINES. PCGS MS62

Ex Miller, as noted on the insert.

This is a very special B-3, BB-94, as it was once in the collection of Milferd Bolender, the author of one of the important die variety reference works on early dollars. The pedigree is extensive and is among the **FINEST KNOWN** examples of this Rarity-5 die marriage.

This is a richly toned example that was last sold "raw" as **CHOICE BRILLIANT UNCIRCULATED** in the Stack's January 2002 sale of the Hain Family Collection. Rich slate-blue and rose-gold accents are brought out by the bold underlying luster on both sides; frosty on the obverse, semi-reflective on the reverse. Sharply struck from Die State III, the reverse die was slightly out of alignment and the reverse is struck somewhat off-center to 9:00. A few minor mint made planchet flaws are seen with the aid of a strong glass, the deepest is seen near the arrows on the reverse. The eye appeal is wonderful.

Ex Col. E.H.R. Green; L.B. Gettys; Milferd Bolender Collection, February 1952, lot 40; Private Denver Collection; sold privately to the Cardinal Collection; Heritage, July 1997, lot 6491; Hain Family Collection, Stack's, January 2002, lot 1506; Warren Miller Collection; by private treaty to Dale Friend Collection.

PCGS 1, NGC 0. This coin is likely the NGC MS63 on the NGC Census. There is only a single coin listed higher in the 2013 Bowers Encyclopedia and it does not appear on the PCGS Population Report anymore. This coin has not sold in auction in two decades! The current PCGS Price Guide value is listed at \$60,000 and we have no doubt a coin like this could bring that much when it crosses the block. Bust dollar specialists take note and do not let this important coin get away!

PCGS# 40012 | EST: \$45,000+

LOT 33**\$1 1798 POINTED 9, 4 LINES. PCGS AU58+**

Another wonderfully CHOICE and HIGH END AU example that ranks in the lower Condition Census for the die pairing. The B-13, BB-108 variety is listed at Rarity-3, and while common overall, it is QUITE RARE in high AU grades and EXTREMELY RARE in Mint State. It is one of two die pairs that use this reverse die that have only 10 Arrows in the eagle's talon. This "super slider" has a lot to offer the collector.

A fully brilliant, satiny mint luster rolls undisturbed over essentially Mint State surfaces. The surfaces show few serious blemishes, mostly limited to a few tiny lines and ticks, but these are all mostly hidden by the gentle dusting of pastel iridescent toning. The pastel hues vary, very opal-like, when rotating the surfaces in a light. Shades of lilac, rose, pink, sky blue, soft green, and accents of deeper violet mingle on both sides. The definition is quite bold throughout, with just a hint of friction on the high points and some very minor weakness on the eagle's breast feathers. The eye appeal is truly wonderful and a delight to behold.

The Bowers (2013) Condition Census is 63-61-60-58 (multiples); this 58+ is squarely in that range. This impressive coin does not match any of the examples listed in the list of "Notable Specimens."

PCGS 2, NGC 2. The current PCGS Price Guide value is listed at \$22,500 and we think this coin will bring around that level when the hammer falls. RARE in Mint State, this coin is great for the type or date collector and will fit nicely in the ultimate "Everyman" set.

LOT 34

\$1 1799 PCGS AU58

A near Mint State B-9, BB-166, one of the more common die marriages of the year, with Dave Bowers estimating 1,000 to 1,800 surviving in all grades, mostly VF or lower. Struck from Die State V, with a number of die cracks, "sand paper" texture in the fields, and clash marks, which account for an estimated 10-20% of known examples.

A nearly full luster radiates boldly in the fields. A teal-blue, cobalt, and pale emerald green mix hints of apricot gold near the peripheries. In addition to the prescribed die cracks and other variations on the dies from extensive use, we note remnants of lathe lines, concentric raised lines in the drapery and on Liberty's breast. Close inspection with the aid of a strong glass reveals some contact marks on the bust and some minor friction from its brief time in circulation. The eye appeal is quite pleasing.

PCGS 99, NGC 88. There is a very wide range of APRs for PCGS AU58 pieces sold in auction in recent years, from \$11,100 to \$28,800. The current PCGS Price Guide value is listed at \$17,500 and this attractive AU58 is sure to please the type or date collector. Good luck.

This is an important early dollar, the **FINEST KNOWN** B-13, BB-151. This Rarity-5 die marriage is the **RAREST** of the year, and this wonderfully pedigreed AU58 has a sensational look and bold quality.

The faintest hint of rub can be detected on both sides of this high grade early dollar. The coin is well struck and nicely centered on both sides. The details are generally fully rendered, and only some of the highest points are flat from the light wear. An underlying luster survives under the rich rose, slate, and iridescent toning. The surfaces show some very superficial marks and ticks, but truly all are trivial and have little impact on the visual allure.

Ex Stack's session of Auction '87, July 1987, lot 779; Gilbert Steinberg Collection, Superior, September 1996, lot 961; Cardinal Collection, American Numismatic Rarities, June 2005, lot 37; Warren Miller Collection; David Perkins/Andrew Lustig; Dale Friend Collection.

Since this coin sold way back in 2005, the two PCGS AU58s were the much more common BB-152 variety. This coin sold for \$23,500 back then, and should sell for more today. Ex Hesselgesser/Cardinal, as noted on the insert.

First off, the tag is not big enough to include the names of all the important collections this wonderful AU58 B-23, BB-159 has been a part of! The known provenance of this piece dates back to the 1904 sale of the John G. Mills Collection, and was once part of the LEGENDARY Eliasberg Collection! This is the only die pairing of the year that has the 13 stars arranged with eight stars behind Liberty's head and five in front of her profile.

This is a very high end AU58. Barely any wear is seen anywhere, both in the fields and the highest points the rub is limited to the lightest friction. Richly toned surfaces abound with shades of sky blue, lilac, dove, pewter, and antique silver patina. A limited number of trivial contact marks are seen with the aid of a powerful glass. Hints of luster clings to the protected areas of the designs producing a "back lighting" effect to the toning. The eye appeal is exceptional in every way!

This coin has a long, impressive provenance that really adds to the desirability of this nearly Mint State piece. Ex. John G. Mills Collection, S.H. & H. Chapman, April 1904, lot 689; J.M. A great coin for the serious collector of early silver dollars. Just the PCGS MS64 from the Pogue Collection is graded finer at PCGS, this coin is worthy of the FINEST of cabinets. Bidding will be fierce for this this one!

A nicely struck example with a wealth of underlying mint frost that glows from below the delicate russet-tan, pearly-pewter, and soft iridescent hues draped across both the obverse and reverse. Pleasing definition to the devices are struck from Bowers Die State IV, with bold clashing and a curving die crack across the bust. The eye appeal is excellent.

A Condition Census level B-10, BB-190. This was a prolific die marriage, as there are seven distinct die states listed in Dave Bowers' Encyclopedia of United States Silver Dollars, 1794-1804. The present coin is struck from a middle state, listed as Die State IV, which happens to be the most common of the known states.

Nicely preserved surfaces show no more than the lightest hint of friction on the highest points and in the fields. A wealth of retained luster enlivens the soft clear gold and pearly silver that dusts the majority of the surfaces and brings out the splashes of deeper gold and violet blue at the reverse. There are no serious flaws worthy of mention any kind. This is a solid coin for the collector, combining high grade and pleasing aesthetics!

\$1 1800 WIDE DATE, LOW 8, AMERICAL. PCGS AU58

Tied for second FINEST KNOWN for this important RARE variety, the rarer of the two AMERICAL reverse marriages. The B-11, BB-191 is currently listed as a Rarity-4. Tied with the Cardinal Collection coin that was also graded PCGS AU58, but this coin is in our opinion a nicer piece. This obverse die was used to strike BB-190, then lapped to remove clash marks; the reverse die was paired with another obverse to strike the more common BB-192 AMERICAL variety.

A virtually complete, and undisturbed luster radiates boldly on both sides. This underlying brilliance brings out the teal, rose, lilac, and deeper violet tones that embraces both the obverse and reverse. Nicely struck, showing just some of the typical weakness at the eagle's head and the area around the ribbon and lower stars. Some minor adjustment marks can be seen in the azure of the shield. Some ancient lines and minor ticks, mostly from its brief stay in commerce from the end of the John Adams administration, none of which are distracting to the naked eye and requires a strong glass to see. A very pleasing example that will delight any type, date, or variety collector.

Ex Heritage, January 2017, lot 4590 (as old holdered NGC AU55); Dale Friend Collection.

PCGS 4, NGC 1. The last PCGS AU58 to sell in auction was the Cardinal-Thomas BB-192, which sold in April 2009! The current PCGS Price Guide value is listed at \$26,000. The only BB-191 finer is the Amon Carter- David Queller-Warren Miller PCGS MS62+ that sold in April 2008 for \$63,250. We suspect this high AU coin will entice strong bidding from the sophisticated collector and will end up in another great collection of early dollars.

\$1 1800 DOTTED DATE. PCGS AU58+

The 1800 Dotted Date, B-14, BB-194, is a very popular variety, so named by the raised die lumps that surround the first 0 in the date. With about 500-900 estimated in all grades, its a common enough issue, but in AU or finer, this variety is truly RARE and the Condition Census ranges from 65 down to AU58. This coin ranks within the Census, but does not appear to be any of the ones listed in the list of "Notable Specimens."

Only a slight hint of friction can be seen any where on the surfaces of this lustrous example. Pearly-dove, antique silver, russet-tan, and pale gold patina graces both sides. Well struck, this coin clearly saw a precision blow from the screw press, even the eagle's neck feathers are full and crisp. The only "flaw" of note, is a very thin hairline that can be seen on the bust, but this is not a major distraction and has virtually zero impact on the essentially Brilliant Uncirculated early dollar offered here. What a great coin!

PCGS 1, NGC 0. There are just three graded finer at PCGS. The current PCGS Price Guide value is listed at \$32,500. We think this coin will bring close to that. Bound for another superb cabinet of early dollars.

\$1 1800 AMERICAL. PCGS MS63

Ex Pittman and Pogue Collections, as noted on the insert.

This is a FABULOUS CHOICE Mint State example of this important Red Book variety, one of the FINEST KNOWN examples, perhaps third in the Condition Census, behind the Newman coin (NGC MS65 and the Paramount '85 coin which has not been certified as yet, but called MS65 in that auction sale); this coin, certified MS64 by NGC after the Pittman Sale, but before the Pogue sale ranks higher in Bower's 2013 list of "Notable Specimens" than the Queller PCGS MS63 and the Eliasberg NGC MS63. The die variety got its name from the die gouge after AMERICA, making it look like AMERICAL.

Frosty brilliance gleam with a bold satiny lustrous glow on both sides, amplifying the CHOICE quality surfaces. The devices are boldly rendered by a crisp and complete blow from the dies. Clearly never seriously "conserved" in any way, the luster is still bold in the recesses of the designs. Delicate clear gold and lilac iridescent toning is dusted across the surfaces attesting to the originality and adding greatly to the outstanding visual quality. While a few minor scattered ticks can be seen on either side, these are faint, microscopic, and do nothing to impede the exceptional visual allure of this CHOICE early dollar.

\$1 1801 PCGS AU58

A CONDITION CENSUS B-3, BB-213. A great coin for the date or type in every way. This is the type of high end AU coin we call a "GEM" AU. Struck from Die State III of the dies, the collar die clash is clearly seen at Liberty's bust line.

Classic, old time, antique gold and dove-silver toning envelopes the obverse, evenly and delicately covering that side. The reverse is deeper with lilac-dove as the dominant hue, with accents of golden tan. A nearly complete mint luster blooms vividly on the obverse, while the reverse is a touch more subdued due to the depth of the toning. The strike is bold, with nearly full definition on both sides. A few microscopic ticks are seen on either side, none of which have any real impact on the visual impact of this coin, which we are certain in earlier times would have been cataloged as a Mint State or Brilliant Uncirculated coin. The friction is very minimal, making this a real slider early dollar.

PCGS 24, NGC 20. The most recent examples to sell were CAC-approved, no non-CAC PCGS AU58 has sold in auction in nearly five years. The current PCGS Price Guide value is listed at \$32,500, a reflection of the strong APRs of the PCGS/CAC examples that brought \$30,550 in 2018 and \$28,200 in July 2020. This attractive coin will certainly see healthy competition when it crosses the block and will find itself in a fantastic cabinet of early dollars or a wonderful type set.

\$1 1802/1 WIDE DATE. PCGS MS61

A CONDITION CENSUS example of the B-3, BB-234 die marriage, and this pleasing Mint State Bust dollar has a great look!

Sharply struck from Bowers Die State III. A bold luster is retained in the fields under a thick, rich melange of antique slate, pewter, lilac, lavender, and powder blue patina that envelopes both sides. The surfaces show nary a mark worthy of mention, and only under the most intense scrutiny with a strong glass are you able to find any contact of any kind on the surfaces. The eye appeal is very pleasing!

Ex Central States sale, Heritage, May 2004, lot 7962; Dr. Robert Hesselgesser Collection, Goldberg's, September 2011, lot 5127; Warren Miller Collection; David Perkins and Andy Lustig; Dale Friend Collection.

PCGS 1, NGC 0. Off the market for over a decade, the APR from the Hesselgesser sale is ancient history. More recently we sold a PCGS AU58 CAC example for \$37,600 in our December 2021 Regency Auction. The current PCGS Price Guide value in MS61 is \$42,500 and we think this coin will bring around that when the hammer finally falls. Good luck.

\$1 1802/1 NARROW DATE. PCGS MS62

This CONDITION CENSUS B-4, BB-232 comes from one of the greatest name sales of the mid-20th century, The Davis-Graves Collection! This coin matches exactly the photo of that April 1954 sale and it is indeed a fabulous coin!

A wealth of luster rolls boldly over the surfaces of this essentially CHOICE early dollar. The strike is bold, nearly complete throughout the design. The surfaces ooze with originality, wonderful old gold and rose overtones mingle with ancient lilac, tan, and pearly-silver undertones. There are some old stray marks and light lines seen with the aid of a strong glass, well hidden under the toning, only visible when rotated in a light.

Ex George L. Graves Collection, collected prior to 1891; Stack's sale of the Davis-Graves Collection, April 1954, lot 1326; unknown intermediaries; Heritage, March 2010, lot 1204; D. Brent Pogue Collection, Stack's Bowers, March 2017, lot 5039; Dale Friend Collection.

PCGS 4, NGC 2. This coin brought \$39,950 in March 2017 and \$46,000 back in 2010. The market is stronger today than it was in 2017 and the current PCGS Price Guide value is listed at \$47,500. We note that an MS63 sold in our September 2021 sale of the Eric H. Templeton Collection for \$70,500. This beautiful early dollar with a fantastic pedigree, is worthy of another world class cabinet. Bid accordingly.

\$1 1802 NARROW DATE. PCGS AU58

Impressive for the issue and grade, this CHOICE AU B-6, BB-241 is certain to appeal to a wide range of collectors from the casual type collector, all the way to the die variety enthusiast.

A vibrant surviving luster has accents of semi-Prooflike reflection, while the sharply struck devices stand out with a rich frost. The toning, such that it is light and only comes into view when you rotate it in a light. The wear too is extremely light had is barely perceptible on either side, with the boldly impressed devices retaining nearly full definition on both sides. There are no serious abrasions nor marks, scuffs, lines, or marks of any kind, anywhere, worthy of singular mention. The eye appeal and quality are very nice and truly a delight to behold.

Ex Stack's Bowers, August 2013, lot 4350; Dale Friend Collection.

PCGS 4, NGC 25. The most recent PCGS AU58 to sell was CAC approved, selling for \$17,626 in the 2014 ANA auction. (we like this coin more). The current PCGS Price Guide value is listed at \$19,500. Even though this die marriage is listed as a Rarity-1, and the 2013 Bowers Census lists multiple MS65 examples, in the market, any Mint State piece is rarely offered and beautiful AU58 pieces are highly coveted by collectors. Good luck.

\$1 1802 WIDE DATE. PCGS AU58

Ex Cardinal and Hesselgesser, as noted on the insert.

Arguably the FINEST KNOWN example of this elusive Rarity-5 die marriage. This is the first example enumerated in Dave Bowers' 2013 listing of "Notable Specimens." Only 75-140 examples are known in all grades of the B-5, BB-242, making it the rarest non-overdate die marriage of the year. Even back in the 1880s when Haseltine was creating his "Type Table," an early study on die varieties, it was known as being rare.

This is a monumental example of this rare die variety. Satiny brilliant luster accents the peripheral golden and russet toning that deepens with hues of blue and green. The devices are sharply struck with only the faintest hint of rub on the highest points of the design. The eye appeal is excellent and we really do not see anything that would preclude a CAC approval. In our opinion this coin is high end for the grade and pleasingly original.

\$1 1803 SMALL 3. PCGS AU58

Ultra high end--a "GEM" AU if we ever saw one, a marvelous borderline UNC, the exact type of coin Dale loved! Just below the condition census for the B-5, BB-252 die pairing, this coin is a fabulous example of this date date Bust dollar, the last of the denomination until the Gobrecht dollars dated 1836 were struck.

Boasting essentially FULL mint luster that swirls boldly on both sides, just the faintest hint of friction on the surfaces in the form of stray hairlines, can be seen when rotated in a light under strong magnification. Pale rose gold overtones kiss the obverse, while the reverse has splashes of blue and flashes of orange-gold that really are a delight to behold. The strike is generally sharp, the devices, especially on the obverse are crisp and complete. There are no serious marks or ticks, nor any adjustment marks that would distract the eye anywhere. In all, this near-Mint State has a fantastic visual allure that in the old days would have likely been called Mint State.

PCGS 15, NGC 12. Only a single PCGS-graded AU58 sold in auction, two decades ago! More recent comps include a PCGS AU55 CAC that sold in our March 2019 Regency Auction for \$22,325 and the PCGS MS62+ that sold for \$58,750 in our September 2021 Regency Auction. This beautiful example will sell somewhere in between those points. Good luck.

LOT 49

\$1 1803 LARGE 3. PCGS AU55

Only the B-6, BB-255 die pair features the Large 3 in the date, making this a necessary die marriage for any set of Red Book varieties. A common enough variety in lower grades (most of these are in VF and XF grades), this CHOICE AU is special, falling not too far out of the Condition Census. The 1803 Large 3 are thought to have been included in the group of 19,570 silver dollars recorded struck in 1804.

This is a visually BOLD example. The fields are quite distinctive with a flashy, essentially PROOFLIKE luster that has ample watery reflection when you rotate the coin in a light. A wonderful patina, taking on a somewhat marbled pattern in shades of deeper dove-silver, pewter-slate, sky blue, and clear gold really pop, when rotated in the light. The surfaces are mostly clean, there are no serious marks of any kind to distract the eye. The visual allure is very impressive.

The texture of the fields, being Prooflike, would suggest an early die state, from freshly polished dies, and there are two coins listed in Dave Bowers' 2013 list of "Notable Specimens" that are called Prooflike in their decades' old descriptions. This coin is not the NERCA 1980-NERCA 1981-Stack's Auction '89 piece. The coin in Kagin's June 1970 sale is not plated, so it may or may not be this coin.

PCGS 14, NGC 5. With this coin's unique visual allure, we are not sure any of the "comps" matter. The current Collectors Universe value is listed at \$13,750, but we think this coin will sell for more when the hammer finally falls. A fabulous coin to cap off Dale Friend's AMAZING collection of Bust dollars!

Of the 20,000 to 33,875 estimated to have come off the dies, only 250-325 are known today in all grades. This essentially GEM quality early \$5 ranks among the 10 HIGHEST GRADED at PCGS.

This is a remarkable, high grade and HIGH END example! Exceptional, totally original deep orange-gold coloration is accented by a wealth of underlying satiny luster. Razor sharp devices show off fully defined details. A few minor remnants of planchet adjustment marks are seen at the bust. There are no serious traces of contact, light marks, lines, or anything else that will distract the eye. WOW! We really love the look, and you will too, it is VERY HIGH END!

Only a single die pair was utilized in the production of the entire mintage of 24,913 half eagles in 1827; of which only 35-45 examples are estimated to survive, per John Dannreuther, and David Akers suggested around 20 are known. Today, BD-1 is listed as a Rarity-5+. Like many examples of this type, the majority of these were exported and melted down for their gold value, the bullion value being higher than the five dollar face value. A sort of cottage industry was born, leading to gold all but disappearing from commerce and led to a change in the coinage laws and content standards in 1834, as such it is interesting to note that the lowest grade seen by both NGC and PCGS is AU58. It is possible that lower grade coins in "details" or "genuine" holders. In the January 2020 FUN auction, a census of 16 known specimens was enumerated, three of which are impounded in museum collections.

This is a very high end "GEM" quality AU, a true superslider that displays only the slightest hint of friction on the highest points. A bold luster remains, flashy and with hints of semi-reflective tendencies in the fields. There are some tiny ticks and small marks, which are noted with the aid of a strong glass, and do not detract from the outstanding visual allure of this nearly Mint State example. Rich golden coloration takes on accents of deeper orange that are fabulous. The details are crisply struck and the eye appeal is great. We marvel that after nearly 200 years this coin has not been cleaned, conserved, polished, or otherwise made unoriginal, like so many examples of this type.

Ex Harvey B. Jacobson, Jr. Collection, Heritage, January 2012, lot 4678. Earlier, ex Superior, October 2000, lot 4595.

We think this coin, in today's strong market for RARE early gold (see the results from Regency Auction 49 and 50) a superior rarity like this will bring prices exceeding published levels. Who knows when another example will become available in any grade, so do not let this opportunity pass you by! Good luck.

The image displays two views of a circular copper coin. The left view (obverse) features a central emblem consisting of a shield with a sunburst above it, all enclosed within a wreath. The text 'REPUBLICA DE LA GUAYANA FRANCESA' is inscribed around the top half, and '1830' is at the bottom. The right view (reverse) shows a sunburst design with a central circular motif. The text 'GUAYANA FRANCESA' is inscribed around the top half, and '1830' is at the bottom. The coin has a serrated edge.

Very well centered, the legends on both sides are complete, which is not often the case. Nicely struck for the issue, even the central rock ledge of the design is nicely formed. There is no environmental damage or serious marks of any kind that often plague these Colonial and Confederation era copper coins. Indeed, all we see are some natural planchet flaws on the reverse.

Ex Missouri Cabinet, as noted on the insert.

This is an AMAZING Draped Bust half cent, a fabulous coin with an impressive provenance and stunning look! Truly a stunning coin with amazing quality and eye appeal, borderline GEM example of the date and type! WOW!

Exceptionally bold luster shows a glowing brilliance on both sides. Attractive with a generous amount of original, faded Mint color with bluish steel brown. Free of any troubling specks or spots, the color is a wholesome delight. Furthermore the surfaces show only a few tiny nicks and handling marks, far fewer than one would expect for a half cent from this early era. A thin strike through line above the bust tip serves to identify this amazing coin. Middle die state, Manley state 3.0.

The quality of the planchets used to strike most 1800 half cents is high. The planchets were provided by Boulton & Watt, the famous English inventors and suppliers of planchets. Once struck most of the half cents were soon in circulation, so finding a Mint State coin, especially one with original Mint color is quite extraordinary. This particular one is pictured on the CoinFacts website with its extensive provenance noted as well.

The C-1, B-1 1805 half cent is identified by the recut 5 and the stemless wreath. While it is a Rarity-1 in all grades, it is quite scarce in Choice Mint State.

Sharply struck central devices, indeed, the only weakness we see is on the dentils from a slightly misaligned die. Satiny chocolate brown patina graces the fields, while some hints of original red clings to the recesses of the design elements. There are just a few ancient ticks seen with the aid of a glass and no serious discolorations, or other flaws that are often associated with early copper. The eye appeal on this highly collectible Mint State Draped Bust half cent is great.

PCGS 4, NGC 2. This coin's last auction appearance was in the 2011 ANA auction. NGC has not graded any finer in the BN category. The current Collectors Universe value is listed at \$8,250. We think our estimate will prove conservative when bidding comes to a close. Good luck.

An amazing GEM, tied with the Missouri Cabinet-Bob Simpson example for FINEST graded by PCGS in the BN category. Only a single die pair was used to strike this year's entire mintage of half cents. C-1, B-1 is considered to be Rarity-1 overall, but is still VERY RARE in GEM or finer grades.

Even chocolate brown surfaces are aglow with a full cartwheel luster. As the brilliance sweeps across the surfaces, a bronzed reddish mahogany coloration comes to the fore with soft teal blue accents that come out at certain angles. Sharply struck and displaying hard, smooth overall surfaces, the eye appeal is exceptional.

A CHOICE B-2, C-2. This lovely coin likely originated in the Elmer Sears hoard, which Walter Breen notes contained "at least a bag of a thousand spotty mint red examples," that was discovered in the mid 1930s. Today, the populations show much less than that number in RB and RD graded, suggesting that this was another numismatic legend that adds color to our great hobby. There is a bold luster that rolls smoothly along the original red surfaces. There are some scuffs and old time flecks, which lead us to assume this is one of the old hoard pieces. To the naked eye this Classic Head half cent has a neat look.

PCGS 32, NGC 7. The most recent example to sell brought \$3,600 in February 2020 and the current PCGS Price Guide value is listed at \$4,800. Anything finer will cost five figures in the RED category. An excellent type coin or piece for a date set.

LOT 64**L1C 1801 3 ERRORS. PCGS AU53 CAC**

A prized rarity for those who love engraving anomalies and errors, as well as for the large cent collector needing this exceedingly scarce issue. The three distinctive miscues on this piece are the error in the fraction which is written as 1/000 instead of the correct 1/100. Second the U punch must have been missing in action or broken the day this die was engraved. Nonetheless, the final outcome was the same. The U in UNITED appears as IINTED instead. The third and final error is the missing stem on the wreath. Where there should be two stems the left one was never included. The 3 errors reverse was matched to two different obverse dies. The S-218 is exceedingly rare, and this variety, the S-219 is considered the more "common" of the two. We use this term loosely, as clearly the S-219 is no slouch in it's own rarity! Many die cracks and clash marks are noted on this variety as it is the later usage of the reverse die. It is not often a major Red Book variety that is ONE OF THE FINEST GRADED at PCGS crosses your path, but here it is! In fact, there are only 4 pieces that grade finer in the PCGS condition census, an AU-58; MS-60 BN; MS-62 BN and MS-63 BN.

Anyone who knows early copper knows it is all about surface color. What makes this coin so desirable is the INCREDIBLE PLANCHET COLOR! Faint wisps of mint red and luster can be seen around the design elements and lettering when twirled in the light. Wisps of gold tone serve only to accent the glossy, warm brown fields, offering the viewer an alluring backdrop that complements fully with the keenly defined motifs. An old time scratch is noted on the reverse near the central lettering for the sake of accuracy, but does not deter from the overall rarity, desirability and eye appeal of the coin.

PCGS 2, NGC 0, CAC 1. The current PCGS Price Guide value is listed at \$40,000 and the CAC CPG value is \$48,300. This coin belongs in a world class EAC collection and worthy of a world class cabinet. Good luck!

LOT 67**1C 1878 PCGS MS66+ RD CAC**

Nearly POP TOP, this coin is tied for second HIGHEST GRADED, with a Pop of 4, 1 finer--a 67 RD that has not been seen in over two decades!

This SUPERB GEM is a blazing ball of fiery RED luster! WOW! Swirling red cartwheels roll smoothly along the surfaces, highlighting the razor sharp devices. The surfaces are essentially FLAWLESS and truly amazing. The eye appeal is off the charts.

PCGS 18, NGC 6, CAC 7. There are four graded MS66+ RD and the ONLY one to sell realized \$16,800 in April 2021. The current PCGS Price Guide value is listed at \$17,000 and the sole MS67 RD has not been sold in auction since Stack's September 2000 Auction. This AMAZING coin is worthy of placement in the FINEST of sets. We expect very strong bidding when this Condition Census monster crosses the block!

PCGS# 3937 | EST: \$16,000+

**LOT 68****1C 1901 PCGS MS66+ RD CAC**

This is a SUPER GEMMY Indian Head cent with a fantastic look! Exceptionally high end quality surfaces are super clean and smooth with bold original mint red color. Blazing fiery luster swirls with a bold cartwheel effect has a bold visual impact. Sharply struck devices are crisp and have zero defects. Indeed there are no flecks, spots or toning of any kind on both sides and the eye appeal.

PCGS 113, NGC 34, CAC 25. There are 30 in MS66+ RD and just two dozen are graded finer. The most recent example to sell in auction brought \$3,120 back in September 2019. Disregard the price guide values, a coin like this will bring strong bidding for sure. Rare any finer and worthy of a great set of Indian Head cents.

PCGS# 2210 | EST: \$2,600+

**LOT 69****1C 1908-S PCGS MS65+ RD CAC**

A lustrous GEM example of the first branch-mint cent. Flashy, brilliant luster blazes a fiery red glow across the high end, nearly pristine surfaces. There are no serious marks or discolorations anywhere to distract the eye on this beautiful, well struck example.

PCGS 251, NGC 89, CAC 56. There are 11 in MS65+ RD. The current PCGS Price Guide value is listed at \$4,150. We think this coin is worthy of a strong bid and will fit nicely in a GEM set. Good luck!

PCGS# 2234 | EST: \$3,200+

LOT 70**1C 1885 PCGS PR66 RB CAC**

WOW! Look at the colors! This GEM Proof 1885 cent has a stunning look. Liquid mercury surfaces flash and beam with a bold mirrored brilliance. Wonderfully original magenta and violet overtones are brought to the fore on the obverse and rich red color on the reverse. The devices are sharply struck up and the eye appeal is otherworldly.

PCGS 52, NGC 49, CAC 16. You can disregard the price guides and APRs on this one. The color and quality are amazing and this coin will see fierce bidding when it comes to the block!

PCGS# 2343 | EST: \$1,200+

**LOT 71****1C 1909 V.D.B. DOUBLED DIE OBV. PCGS MS66+ RD CAC**

This is a truly remarkable SUPERB GEM example of the first doubled die variety in the long running and popular Lincoln cent series. Blistering RED luster blooms all over with an intense, fiery, brilliance. There are a few tiny ticks and flecks seen with the aid of a powerful glass, but they do not detract from the overall keen eye appeal. The doubling is easily viewed in LIBERTY and 19.

PCGS 60, NGC 4, CAC 18. PCGS has graded 14 in MS66+ RD and just a dozen are graded finer. The most recent example sold in our May 2019 Regency Auction for \$5,053 and the current PCGS Price Guide value is listed at \$6,000. This impressive coin will delight anyone working on a high end and advanced set of Lincoln cents.

PCGS# 82425 | EST: \$5,000+

**LOT 72****1C 1926-D PCGS MS65+RD CAC**

Among the higher grade pieces seen at PCGS, this beautiful 26-D cent is worthy of any high ranking PCGS Registry Set of this ever popular series. A rich melange of crimson hues grace the surfaces and are accented by a reddish-golden luster. Sharply impressed from an exacting blow from the dies and the surfaces are clean, free of any serious marks of any kind. The eye appeal is exceptional in every way.

PCGS 124, NGC 4, CAC 13. There are 41 in MS65+ RD and just five are finer. We think a number of original rolls were submitted and a number of GEMS were included. We sold the most recent example in this grade, back in December 2019, where it realized \$3,525. The current PCGS Price Guide value is listed at \$4,500 and it jumps to \$12,000 in MS66 RD. We think a coin like this presents a huge opportunity for any picky collector. Take a look and you will see why!

NOTES

LOT 74

1C 1944-D/S PCGS MS67 RD CAC

This is the SECOND FINEST GRADED of this popular and scarce repunched mintmark variety, an important coin that is VERY RARE in lofty grades. LRCA has been honored with offering the SOLE FINEST MS67+ RD and a lovely MS66+ RD in the recent years. This is the third SUPERB example we have offered.

Blazing, exceptionally smooth surfaces are SUPERB! Every detail is well impressed, accented by a flaming red luster that radiates boldly on both sides. Aside from a couple of flecks on the reverse, this coin is FLAWLESS! Immaculate surfaces are smooth, free of any contact. The strike is full and complete and the eye appeal is sensational.

PCGS 1, NGC 0, CAC 2. There is a single MS67+ RD CAC graded finer; that coin brought \$49,938 in our December 2021 Regency Auction. In this grade, the PCGS Price Guide value is listed at \$45,000. Bound for the FINEST of Lincoln Cent sets a coin that will be at home in the greatest of sets.

PCGS# 2728 | EST: \$30,000+

LOT 75**1C 1955-S NGC MS68 RD**

This is the SINGLE FINEST graded by NGC and tied with just a single PCGS MS68 RD at the TOP OF THE POP.

Blazing, fiery RED surfaces gleam boldly from all over. The surfaces are pristine, free of any marks or distracting traces of toning of consequence to the visual allure anywhere. This coin has a great look and belongs in the FINEST of sets.

PCGS 1, NGC 1. The PCGS coin last sold nearly 20 years ago! At the time, that coin sold for nearly \$7,500. The current Collectors Universe value is listed at \$10,000. If you are working on the #1 Set, don't let this opportunity pass you by!

PCGS# 2833 | EST: \$6,500+

**LOT 76****2C 1869 PCGS PR66 RB CAC**

This is a truly beautiful borderline SUPERB GEM with a stunning visual allure! Exceptionally brilliant and reflective mirrors gleam boldly and have a smooth icy-glassy texture. Splashes of violet, gold, and mellowing brown iridescent patina is enlivened by glowing, radiant original red surfaces. The devices are sharply impressed and the obverse has a subtle cameo effect when you rotate the surfaces in a light. The eye appeal is awesome!

Only 600 Proofs were struck. PCGS 28, NGC 27, CAC 18. The current PCGS Price Guide value is listed at \$3,250 and the CAC CPG \$3,450. There's just a dozen graded finer in the designation and this one has a great look making it a terrific addition to a wonderful set of Proof two-cent pieces.

PCGS# 3640 | EST: \$3,000+

**LOT 77****3CS 1851 NGC MS66**

Magnificent iridescent toning graces both sides of this PQ GEM. A bold satiny luster gleams brilliantly on both sides, highlighting pastel gold and azure toning that really pop when rotated in a light. The surfaces are clean and free of any unsightly marks or ticks, and the eye appeal is quite pleasing.

PCGS 148, NGC 79. This is a very appealing GEM that should attract very strong bidding. The current Collectors Universe value is listed at \$1,750. Just 21 are graded higher at NGC.

PCGS# 3664 | EST: \$1,000+

LOT 78

3CS 1852 PCGS MS67

This really is a wicked cool MS67 example of this early trime. Generally well struck overall, offering a rich, creamy, satiny frost. Some dappled iridescent olive, gold, russet, and rose tone. The surfaces are free of distracting marks and missing the clashmarks usually seen on the denomination. The eye appeal is really cool.

PCGS 35, NGC 19. The most recent example sold in July 2021 for \$3,000. Just four are graded finer, so this is worthy of a fantastic date set.

PCGS# 3666 | EST: \$2,500+

LOT 79

3CS 1852 PCGS MS67 CAC

WOW! An exceptional and HIGH END SUPERB 1852 trime, this has got to be one of the prettiest examples extant!

A thick frosty satin bloom glows brilliantly in the fields. The surfaces are mostly a creamy/pearly silver with champagne-gold and icy-blue toning blend to create a spectacular opal-like bloom that is a true delight to behold. This tiny jewel is sharply struck and is virtually flawless. The eye appeal is excellent!

PCGS 35, NGC 19, CAC 14. The current Collectors Universe and CAC CPG values are listed at \$5,000. This extremely attractive SUPERB GEM is worthy of a strong bid and with only four graded higher, it belongs in a top notch Registry Set. Good luck.

PCGS# 3666 | EST: \$3,500+

LOT 80

3CS 1854 PCGS MS66 CAC

This PQ example is far superior to the majority of 1854's in GEM. Velvety, creamy, underlying luster makes the surfaces really pop in the light. The surfaces are richly toned in a dappled blue, lilac, slate, pewter melange. The details are sharply impressed from a bold blow from the heavily clashed and cracked dies. The eye appeal is great.

PCGS 15, NGC 4, CAC 12. Do not let the CAC Population figures fool you, its been four years since one sold in auction, realizing \$6,900 in April 2018. The current CAC CPG value is listed at \$5,610. We sold a PCGS MS66+ CAC in September 2021 for \$7,344. We expect this totally original PQ GEM will bring a strong bid for sure. Good luck!

PCGS# 3670 | EST: \$4,500+

LOT 81

3CS 1855 PCGS MS65

A GEM example of this lower mintage early date. RARE so fine, and excessively so finer, this is a semi-key date. Richly and totally originally toned, this 1855 has a fantastic look. Shades of lilac-gray, battleship, slate, and sky blue show off accents of apricot and rose that really delights the eye. A bold underlying luster brings out the subtle variations in the toning, and highlighting the sharply struck devices. The typical die clashing is noted, adding charm. There are no serious flaws to be found anywhere and the eye appeal is great.

PCGS 20, NGC 9. The last non-CAC PCGS coin sold in August 2020 for \$4,560 and the current PCGS Price Guide value is listed at \$6,500. This GEM is worthy of a strong bid, noting especially that anything finer will likely cost into the five figure price range. Bound for a great set, do not let this opportunity pass you by!

PCGS# 3671 | EST: \$4,200+

LOT 82

3CS 1856 PCGS MS65

A pleasing and lovely GEM example of a date that is VERY RARE any finer. A warm satiny luster blooms on the surfaces, enlivening a soft pastel iridescent toning that is generally evenly distributed across both sides, while some splashes of deeper toning adds dimension. Somewhat bluntly struck from clashed dies, the surfaces show some minor planchet rolling marks or die striations that run horizontal on both sides. The visual effect is pleasing overall.

PCGS 37, NGC 18. VERY RARE finer, PCGS has graded just 7 finer. No PCGS MS65 has sold in nearly two years, and the most recent sold for \$1,380. The current PCGS value is listed at \$2,250 and this fresh GEM should excite specialists in this obsolete series.

PCGS# 3672 | EST: \$1,200+

LOT 84

3CS 1858 PCGS MS65

This is an interesting GEM example. Totally original but bluntly struck from clashed dies, the surfaces are aglow with a glowing underlying brilliance. Pearlescent surfaces shimmer with a hint of pale champagne gold. The eye appeal is quite nice.

PCGS 62, NGC 46. The most recent MS65 to sell brought \$1,260 in November 2021. The current PCGS Price Guide value is \$2,250. A lovely type coin that is nice for the grade and will delight any collector.

PCGS# 3674 | EST: \$1,100+

LOT 83

3CS 1857 PCGS MS65

Another GEM trime. This piece is dappled and originally toned, offering an interesting melange of iridescent and deep hues that enliven the surfaces. Struck from clashed dies, the surfaces have an interesting texture to the luster, ranging from a satin frost to somewhat glossy. Overall the eye appeal is neat and pleasing.

PCGS 34, NGC 33. The most recent example to sell in auction realized \$2,280 in November 2021 and in October 2021, one sold for \$3,120. The current PCGS Price Guide value is listed at \$3,000 and this date is scarce any finer.

PCGS# 3673 | EST: \$2,000+

LOT 85

3CS 1858 NGC MS66

Untoned and frosty, this is a well struck MS66 1858 trime. The devices are crisply rendered from an exacting blow from clashed dies. The surfaces are a brilliant-satiny silver-dove with rich frost. The eye appeal is descent overall with no mentionable flaws visible.

PCGS 48, NGC 16. The most recent NGC-graded MS66 sold five years ago, realizing \$3,360 in March 2018. The current Collectors Universe value is listed at \$4,000 and that level jumps to \$20,000 in MS67. Good luck.

A classic, old time collection look adorns this Civil War year GEM. Sharply struck from clashed dies, the devices are bold and stand out against a lightly toned, satiny surface. The eye appeal is very nice!

PCGS 116, NGC 118, CAC 23. This is the SOLE MS65+ at PCGS. The current PCGS Price Guide value is listed at \$1,750. Bound for a GEM set, type set, or Civil War era collection, and bidding will be strong.

PCGS# 3679 | EST: \$1,250+

LOT 88
3CS 1862/1 NGC MS66+ CAC

This is a totally original and very pleasing borderline SUPERB GEM. Both sides are awash in a dappled melange of teal and rose patina over lustrous surfaces. Sharply struck from remarkably unclashed dies, this lovely coin has clean surfaces, devoid of serious marks or lines. Even using a strong glass you cannot find a single mark or line worthy of mention. This coin has a classic, old time trime look, from a popular Civil War year and with a cool overdate feature.

PCGS 102, NGC 68, CAC 34. This is the only MS66+ graded at NGC and it last sold in June 2015--nearly seven full years ago. Indeed, the last PCGS MS66+ coin sold back in our December 2016 Regency auction. Those long ago auction records mean nothing in today's market. More recently a non-CAC NGC MS66 sold in October 2021 for \$1,980 and a non-CAC NGC MS67 sold for \$3,600 in November 2020. The current Collectors Universe value is listed at \$3,750. NGC has graded at total of 18 coins higher.

PCGS# 3681 | EST: \$2,000+

LOT 89
3CS 1862 PCGS MS66

This satiny lustrous MS66 is a sure to please any collector. A warm glowing mint frost gleams in the fields. Soft pewter-silver tone is accented by a frame of brilliant rainbow toning, the type that is usually infused during long term storage in an old album. The smooth fields and sharply struck devices really stand out boldly. The eye appeal is excellent. Struck during the Civil War, and hoarded at the time, the 1862 silver 3 cent piece is a great date for type collectors!

PCGS 140, NGC 133. The most recent one to sell brought \$1,351 in our July 2021 Regency Auction, and that coin was a frosty untuned coin. This beautifully colored example should bring more in line with the Collectors Universe value of \$2,000. Good luck.

PCGS# 3680 | EST: \$1,200+

LOT 90**3CS 1863 NGC MS66**

A flashy, boldly reflective, watery Prooflike example of this Civil War year three cent silver. Deeply and richly toned on both the obverse and reverse, the mirrored fields really make the colors pop. Razor sharp in strike there are some minor lines and clashing that come out when viewed with a powerful loupe, but they have a minimum impact on the wonderful eye appeal.

PCGS 22, NGC 11. The last NGC-graded coin was the CAC-approved Stone Collection coin that sold in May 2018, which realized \$6,000. For a non-CAC example in NGC MS66, you have to go back to December 2014. The current Collectors Universe value is listed at \$7,000. NGC has graded just 8 finer, none have which sold in nearly seven years. Good luck.

PCGS# 3682 | EST: \$3,500+

**LOT 91****3CS 1863 PCGS MS66 CAC**

This extremely popular Civil War era date saw a mintage of only 21,000, thus the 1863 3CS is a rarity in any grade. These are always sought after in high grade, and luckily for collectors a small number of Gems have survived the ravages of war and the attrition of circulation.

This incredible quality GEM is premium quality and has a great, original look. Satiny lustrous with just a hint of reflection in the fields, this PQ GEM is awash in iridescent color! Salmon-rose, gold, azure, and pleasing silver-gray meld together in a visually striking way. The details are crisply rendered and nicely defined from clashed dies.

PCGS 22, NGC 11, CAC 12. The most recent example to sell in auction was NOT CAC and brought \$7,800. The current PCGS Price Guide value is listed at \$7,000. Fewer than ten have ever graded higher. Good luck.

PCGS# 3682 | EST: \$6,000+

**LOT 92****3CS 1863 PCGS MS66+ CAC**

This is a SUPERB example of this popular, low mintage Civil War issue. Only 21,000 were struck for circulation, and are scarce in all grades, especially in GEM or finer; in this lofty state of preservation, this date is RARE!

This spectacular example is essentially fully Prooflike! Extraordinary, reflective luster beams boldly from the fields. There is a touch of moderate reddish gold/blue by the peripheries. Essentially flawless, the only marks revealed by a powerful glass are mint made clashes and die striations. The details are actually needle sharp in strike and thickly frosted. Yes, there is some contrast and the eye appeal is incredible!

PCGS 25, NGC 11, CAC 11. There are three in MS66+ and just half a dozen graded finer. The current PCGS Price Guide value is listed at \$9,000. This is a very important opportunity not to let slip by! Good luck.

**LOT 94****3CS 1865 PCGS MS65 CAC**

Only 8,000 trimes were struck from this final Civil War year, and few were saved in GEM or higher condition. Semi-Prooflike brilliant luster flashes with a steely-gray patina over the clean surfaces. Indeed all we see are mint made clashing marks. The devices are razor sharp in strike and the eye appeal is bold.

PCGS 12, NGC 8, CAC 2. The other CAC-approved example sold in February 2019 for \$4,440. The current Collectors Universe value is listed at \$4,750 and the CAC CPG value is listed at \$5,750. This GEM will see very spirited bidding when it crosses the block. Good luck.

**LOT 95****3CS 1866 PCGS MS66 CAC**

A sensational, PQ GEM! Fully Prooflike and vibrantly lustrous with brilliant, untuned surfaces that gleam on both sides. The details were boldly rendered from an exacting blow from clashed dies and on a striated planchet. These artifacts of the minting process add to the charm of this tiny jewel of a coin! With only 22,000 examples struck, this date is scarce in all grades, and VERY RARE in this or finer grades.

PCGS 15, NGC 12, CAC 7. The most recent example to sell in auction realized \$4,348 in our March 2020 Sale of the Seattle Collection. The PCGS Price Guide value is \$5,000 and the CAC CPG value is \$5,390. Only 15 examples have graded finer at PCGS, this is a fantastic coin for any high end set. Good luck.

WOW! Look at all the colors! This is a breathtaking beauty! A sensational SUPERB GEM, the typical adjectives usually used to describe the quality and eye appeal will fail to paint the full picture--you really need to see this coin in hand!

The fabulous surfaces are extremely clean and you can only see some light, Mint made die polishing lines with a glass. There are light traces of semi-prooflike mirrors and a strong luster which enhances splashes of

original royal blue, vivid violet, and tawny gold on both sides. Every detail is needle sharp and has thick frost. The eye appeal is excellent in every way.

PCGS 10, NGC 5, CAC 7. This coin last sold for \$12,925 in our December 2020 Regency Auction and the current PCGS Price Guide value is listed at \$15,000. There are four coins graded finer, any of which would cost \$20,000 and up. This is fantastic coin for the type or date collector, worthy of a strong bid in a WORLD CLASS collection. One look and you will instantly fall in love with its quality!

**LOT 97****3CS 1867 PCGS MS65 CAC**

Super HIGH-END quality! NO question this coin is an absolute MS piece too.

Having built the #1 and 2 ALL TIME FINEST Mint State+ Proof 3CS sets, we know what is rare and how the date comes. We can tell you this date does not always come so nice. This coin was beautifully preserved somehow.

Virgin surfaces do not offer even the tiniest imperfection. We used a strong glass and looked all over. There is a slight trace of semi proof like mirrors. A very good luster beams from all over. Both sides are covered with a wealth of pretty and original moderate colors (you do not have to imagine the colors). Every detail is pinpoint sharp in strike. The eye appeal is fantastic!

ONLY 4,000 were minted. PCGS 7, NGC 7, CAC 3. The last one to sell in auction brought \$9,600 in January 2021-it was not as pretty as this coin. The current Collectors Universe value is \$12,500. If you are building a GEM set, do NOT blink! This date is the ultimate stopper in TRUE GEM!

LOT 98**3CS 1869 PCGS MS66**

From an original mintage of only 4,500, this is a VERY RARE date in GEM and finer grades and the presently offered PCGS MS66 ranks high on that service's Population Report.

A totally original GEM, offering distinct underlying Prooflike reflection and flash in the fields and sharply struck devices. Both sides are enriched by a fantastic blend of blues, golds, oranges, teals, and peach hues. There are some very light lines under the toning, visible under intense scrutiny with a strong glass, but these have essentially zero impact on the outstanding eye appeal.

PCGS 11, NGC 10. The most recent example to sell was the ex Simpson coin we sold in February 2021 for \$11,750 and the current PCGS Price Guide value is \$15,000. Only five examples have ever graded finer at PCGS, making this a sensational example for any high ranking set. Good luck.

A fabulous GEM example housed in an old NGC "fatty" holder. Brilliant, reflective, semi-lustrous surfaces gleam with a bold cartwheel flash. Sharply struck up with near cameo contrast between the devices and fields. A blush of iridescence attests to the originality and adds to the eye appeal.

PCGS 294, NGC 202, CAC 54. Both the current CAC CPG and Collectors Universe values are listed at \$1,650 and we think this one will bring a strong bid. Good luck.

This has to be the ultimate 1898 5C! The quality is BEYOND HIGH END!

The surfaces are just about perfect. We used a strong glass and everywhere. All we found was one tiny tick. The texture is semi satiny. A very good luster beams from all over. Both sides are a totally original light deep champagne/pale nickel color. Miss Liberty and the details are exceptionally struck and have light frost. The eye appeal is excellent!

PCGS 6, NGC 2, CAC 1. The current Collectors Universe value is \$10,000. There is no such thing as a finer 1898 5C. We think this coin represents strong value. Good luck!

LOT 107**5C 1910 PCGS PR68 CAC**

Tied for FINEST GRADED at PCGS, this coin has it all! One of the most eye-catchingly colorful Proof Liberty nickels we have ever offered. Indeed the surfaces boast a kaleidoscopic melange of colors that swirl all over the flashy reflective fields and frosty devices. The mix of greens, pinks, golds, purples and oranges range from pastel to neon in intensity. The eye appeal is excellent in every way!

PCGS 5, NGC 7, CAC 4. NONE have sold in nearly four years, but

the current PCGS Price Guide value is listed at \$12,750. We know a coin like this will fit right at home in the FINEST of sets and we can see this coin realizing a world record bid when the hammer falls. Bid accordingly.

5C 1916 DOUBLED DIE OBVERSE. PCGS AU50 CAC

We unhesitatingly call this coin a GEM AU. The quality could not be any better for the grade!

Extremely clean surfaces dominate this piece. Only when using a strong glass could we find a small hidden tick on the cheek. There is a natural light luster beneath the totally original deep nickel toning. All of the details exhibit light original wear. You do not need a glass to see the doubled date. The eye appeal is superb for an AU50 coin!

The doubling is boldly visible at the date and the lower feather. The error is very rare and in demand in all grades. First discovered in the 1960s, and reported in the July 1962 Numismatic Scrapbook magazine. Today, the estimates range from about 200-400 examples, most in mid range circulated grades like VF. Very rare in AU, and nearly prohibitively so in Mint State.

PCGS 16, NGC 6, CAC 3. VERY hard to find in this grade with CAC approval, this coin last sold nearly five years ago in our October 2017 sale of the High Octane Collection, realizing \$28,200 on an estimate of \$25,000-\$27,000. The current PCGS Price Guide value is listed at \$28,000 and the CAC CPG value is listed at \$29,000. This coin will be a wonderful addition to any AU/BU set!

LOT 110**5C 1918/7-D PCGS MS62 CAC**

This is an essentially CHOICE quality example of this important KEY overdate in the ever popular Buffalo nickel series. This coin really is PQ for the grade with definite claims to a higher grade; indeed, CAC approved MS62 would have, in the days before 3rd party grading, would have been called CHOICE Brilliant Uncirculated. Truly PQ, this issue is RARE so fine and prohibitively so any finer.

The overdate feature is bold and readily evident to the naked eye. For the variety, the strike is bold on both sides with sharp overall definition. The surface quality is very high end for the assigned grade. The peripheries are toned with gold, framing the shimmering silvery-blue hued centers, and were it not for a few tiny flecks we would not flinch if it was housed in an even higher grade holder. For the specialist collector this is an amazing opportunity to acquire a very high end and high grade survivor of this rarity.

PCGS 13, NGC 14, CAC 6. Prior to this one selling in our July 2021 Regency Auction for \$43,475, a less attractive example sold in January 2018 for \$45,600. The current PCGS Price Guide value is \$50,000 and the CAC CPG value is listed at \$51,800. We anticipate very strong bidding for this lovely and choice example when it crosses the block. Worthy of a very high end collection.

This is SUPERB GEM is tied for FINEST graded for this early date Jefferson nickel! It is spectacular in its eye appeal and stunningly high grade state of preservation.

An unbelievable strike has full, crisp, complete definition throughout the reverse, as well as in Jefferson's hair details. A steely-nickel silver with periwinkle and icy-blue iridescence that is brought to life by a brilliant mint luster. The surfaces are exceptionally smooth and clean, virtually flawless, even under intense scrutiny. A pale blue dusting over the silvery-nickel luster adds boldly to the eye appeal. The quality and eye appeal of this Registry Set contender are off the charts.

PCGS 8, NGC 0. We sold another example in our June 2019 Regency Auction for \$18,213. The most recent examples have sold for less, but the PCGS Price Guide value is still listed at \$16,750. This remarkable coin is much nicer than the one that sold in 2014 for \$23,500. Good luck!

Ex D. Brent Pogue Collection, as noted on the insert.

UNQUESTIONABLE SUPER HIGH END QUALITY!

This coin is technically finer than the grade designated (we make no promises), and has a look that surpasses most GEMS in the series. Even though the surfaces are pristine, obverse shows a rather involved series of die cracks, including a broad arc that begins at the rim above the left side of Y, touches the tip of Liberty's nose, and rejoins the rim beyond stars 11 and 12. Another points from Liberty's chin into the field, near the visible remnant of a clashing, and still another connects the stars at left. The wing on the left side of the eagle is broken at its tip and joined to the rim. Both sides are toned in an original soft pale blue, muted champagne, and richer gold. Miss Liberty and the details are well struck. The eye appeal is stunning!

PCGS MS66 CAC

A truly gorgeous and high end GEM! Ranking among the top ten examples graded by PCGS, this beauty has a stunning look. Last sold in our September 2019 Regency Auction, where it was described as:

"You have to love this design! Christian Gobrecht 's original design without the stars on the obverse is quite elegant and cameo like. This marvelous GEM example is

awash in original lilac-dove patina, which is enlivened by a vibrant luster. Accents of gold and rose are noted, brought to life when rotated in the light. The strike is complete and razor sharp, struck from a broken obverse die with a dramatic die crack that starts at the rim, going into the base, and up to the knee. The eye appeal is spectacular to say the least and among the absolute FINEST of this first year of the Seated dime series. The high end, hand selected GEM from the world famous, best ever type set; THE TYPE SET."

This magnificent GEM early Seated Liberty quarter first crossed our desks nearly five years ago, and it was love at first sight--our hearts raced! It is one of the **FINEST** examples we have ever handled for the type, and it is very high end.

Exquisite surfaces are a collector's delight. Only if you use a strong glass and look really hard will find a pinpoint tick or two and that is it. Overall, the surfaces are clean and satiny smooth. A crescent shaped band of coppery-orange and gold frame the left hand periphery of both the obverse and reverse, before melding to a mix of pearlescent silver and hints of olive-gold patina. An exacting strike has rendered every detail to their fullest, with all of Liberty's head details fully defined and the shield is fully struck with every brad and line sharply brought up. Full drapery and feather detail also gives both sides a crisp, 3-D look. The surfaces are brilliant with a vibrant luster that sweeps over the essentially flawless surfaces. The eye appeal is AMAZING.

While officially the first year of issue was the 1916, these were struck to a limited number and were struck only for a brief time in December of that year, many collectors saved 1917 quarters at the time of issue, and the 1917 Type I is readily available in all grades up to MS65 FH. Above that level they are quite scarce, and VERY RARE in SUPERB. This one ranks among the absolute FINEST KNOWN!

PCGS 111, NGC 78, CAC 48. There are 19 graded MS67+ FH and NONE FINER. The most recent example to sell in auction brought \$27,600 in the 2021 ANA auction and the current PCGS Price Guide value is listed at \$30,000. This STUNNING piece is worthy of the FINEST of collections. Good luck!

The Washington Quarter was originally struck as a commemorative for George Washington's 200th birthday, and was intended as a one year only type. Struck in large quantity at the Philadelphia mint (5.4 million), the branch mints struck just fractions of that (Denver produced 436,800 and San Francisco 408,000). This beautiful GEM is tied for SECOND HIGHEST GRADED at PCGS.

Blazing cartwheel luster rolls boldly across both sides. Every detail is sharply and crisply rendered from an exacting blow from the dies. The surfaces are clean and mostly untuned, original silver, with just some subtle splashes of original gold at the obverse periphery. The eye appeal is exceptional!

PCGS 208, NGC 78, CAC 36. There are 26 in MS65+ and just 6 in MS66 finer at PCGS. The most recent sold nearly three years ago, realizing \$6,000 in May 2019 and the current PCGS Price Guide value is \$5,750. Note a PCGS MS66 CAC sold in March 2020 for \$43,200! This is a great value in our opinion and the quality is so close to a higher grade. Worthy of a great set.

WOW! This O-107 is 210 years old and is in such pristine condition, hard to imagine how it was cared for all those years. We unquestionably agree this coin is SUPER HIGH-END quality! Clearly this is the FINEST KNOWN for the variety.

Sensational surfaces are flawless. Even using a strong glass and looking all over you will find zero impairments of any size. The surfaces texture is satiny. A moderate luster clearly enhances the pretty moderate toning. Both sides enjoy an even champagne/pale golden-brown totally original toning. Miss Liberty and the details are exceptionally struck. The eye appeal is fabulous!

LOT 147**50C 1854-O ARROWS. PCGS MS66**

High end, beautiful, lustrous, and original: these are just a few words that come to mind when we view this awesome with Arrows Seated half dollar.

A vibrant, velvety satiny glow flows from the lustrous fields on both sides. Pearly silver-gray surfaces are kissed with a blush of golden russet that is mostly visible at the extreme peripheries. The details are all fully and sharply struck up, the dies clearly coming together with a precision blow. The obverse die was partially shattered, with a number of dramatic die cracks on the left side of the obverse. There are zero imperfections worthy of noting and the eye appeal is excellent.

With the huge influx of gold entering the economy during the California Gold Rush, the value of silver, relative to gold rose, leading to the export and melting of silver coin. In 1853, the weight of silver coins (except for the silver dollar) was reduced, and the change was denoted by placement of arrows at the date and rays on the reverse. Due to striking issues, the rays were removed in 1854, but the arrows remained next to the date through 1855.

PCGS 16, NGC 6. The current PCGS Price Guide value is listed at \$12,500. There are just five examples graded finer at PCGS, and they are prohibitively expensive, we sold a 66+ for \$37,600 and a 67 sold for \$45,600. This GEM has a bold look and offers a great value in our opinion. Good luck.

Despite a generous mintage of 3.2 million, the 1875-S half dollar is VERY RARE so fine, indeed just two are graded higher at PCGS.

Exceptionally high end surfaces gleam with a strong luster on both sides. Delicate splashes of toning in shades of golden-russet, violet, lilac, greenish-blue, and pale blue are brought out by the bold luster. The classic, Seated Liberty design elements are razor sharp and crisply defined with a thick frost. The

surrounding luster really makes the obverse details pop off the surfaces boldly. This is a fantastic borderline SUPERB GEM worthy of any great type set or advanced collection of Seated halves.

PCGS 24, NGC 9, CAC 9. There are just three in MS66+ and a mere two finer. This coin last sold back in August 2019 for \$6,600 and the current PCGS Price Guide value is listed at \$8,000. A thick frosty luster has a glowing satiny texture in the fields. Both sides are richly toned, with slate-blue and deep verdant hues. The design elements are crisply and fully rendered and the surfaces are essentially PRISTINE and the eye appeal is fantastic.

PCGS 13, NGC 8, CAC 4. The most recent PCGS/CAC example sold for \$7,500 in October 2020. The current CAC CPG value is listed at \$11,500 and the PCGS Price Guide is \$8,500. There are just two coins finer, neither is CAC approved and this GEM will sell for a strong bid. Good luck!

Among the 10 highest graded examples at PCGS, this colorful GEM is high end and the definition of Premium Quality and originality.

A beautiful array of fuchsia, sky blue, tangerine, and gold varying in intensity from neon-like to pastel iridescent are focused at the rims, blending to lighter hues at the centers. The reverse is more subtle, probably where the coin sat in an old cabinet tray, enveloped with a slate-blue, olive-gold patina. The colors are emboldened by a warm, underlying satiny brilliant mint frost. Sharply struck up devices are very strong for the issue, with no weakness at the usual spots. Few examples can hold a torch to this borderline SUPERB GEM!

Legend Rare Coin Auctions is proud to offer this EXTREMELY RARE early Proof Seated Liberty half dollar! Only six are thought to have been struck, of which a mere three examples are traced today, and this one has an extensive pedigree that is tracked to 1979.

Wonderfully rich, watery reflective fields are a delight to behold on this CHOICE rarity. Sharply struck obverse devices have a glowing glossy finish, that stands out against the fields. The brilliant silver centers are flanked by bold azure-teal, olive-russet, tan-gold, and iridescent hues have a mottled pattern. The devices are razor sharp on both sides overall, with just some weakness on the date and at D STA on the reverse. The eye appeal is totally original and this is a very rare and important coin for the advanced collector!

Only 6 were struck. PCGS 1, NGC 1 (likely both the same coin). In the Gardner Collection sale, this important rarity brought \$28,200 as an NGC-graded piece. We think the most recent appearance brought a bargain price of \$24,675. The current Collectors Universe value is listed at \$36,000, which also seems cheap in relation to its rarity. This coin is so rare that it makes the 1913 Liberty nickel, 1894-S dime, 1827 quarter; 1838-O half dollar, 1804 dollar, 1870-S dollar, 1884 and 1885 trade dollars look common (all are mid six figure to seven figure rarities). LOT 152**50C 1864 NGC PR65+ ULTRA CAMEO**

This GEM Proof 1864 half dollar ranks among the highest graded in the Deep/Ultra Cameo designations, the second finest such graded by NGC, bested only by a single PR66 UCAM at that service.

An amazingly deep and beaming black and white contrast is bold and gorgeous on this Civil War date half dollar. Incredible icy, reflective fields are sleek and with just some minor lines visible with the aid of a strong glass on both sides, providing a great contrast to the thickly frosted devices. The reverse shows some swirling die polish lines and traces of pale iridescence, but the overall look is black and white and quite bold.

Only 470 Proofs were struck. PCGS 0, NGC 1. No PR65+ in this designation ever sold in auction. We sold a PR65 Ultra Cameo in October 2021 for \$11,750 and an NGC PR66 Ultra Cameo sold back in January 2013 for \$30,550. The Collectors Universe Price Guide fails to list a value in this grade, but is listed at \$11,000 in PR64+ DCAM and \$57,500 in PR66 DCAM. This coin will bring somewhere between these levels, and our estimate may prove very conservative. Bound for a great set of Proof Seated halves or Civil War era coins. Good luck.

The devices are strongly rendered by an exacting blow from the dies, and the surfaces are very lustrous, which brings out the great colors."

PCGS 255, NGC 148, CAC 89. There are 31 in MS67+ and just 8 coins graded higher. We think that there is at least some duplication at the services, as there is much profit motivation to get a high end MS67 or 67+ into a 68 holder and that the Population figures are inflated by duplicate submissions. The current PCGS Price Guide value is \$5,000 and this colorful GEM is worthy of the FINEST toned collection or any other high end quality set. This is a rare second chance to add this beauty to your set!

50C 1944-S PCGS MS66+ CAC

An original, stunningly toned coin hails from our Regency Auction 35 and the famed Valley View Collection, described as: "This is an absolutely stunning toned GEM. Not at date and grade we see with this much SUPERB color."

Original and rich golden-orange dominates with accents of rose, green, and magenta that give this PQ toned beauty a SUPERB look. We rate the color as a 9+ on our 10-point color scale. A coin that would have fit into our sale of the Dale Larsen Collection of toned Walkers. Toss out your price guides and ignore auction prices and go with your gut! This coin has a great look and will have serious bidding activity when it crosses the block." At the time, the coin was graded MS66 PCGS/CAC and sold for \$3,055. Today, it should bring more! Good luck.

50C 1944-S PCGS MS66+

Tied for second FINEST graded at PCGS, this is a very PQ, high end, and attractively toned borderline SUPERB GEM that will delight any collector. A strong luster glows in the fields surrounding well struck devices and enlightening the nearly pristine fields. Both the obverse and reverse possess a very attractive patina. Visually very appealing, we do not know what CAC saw that precludes approval.

PCGS 169, NGC 20. There are just 11 graded MS67 finer at PCGS. There is a HUGE jump in value from 66+ (\$2,250) to 67 (\$42,500) and this coin will fall in that spread, and prove our estimate to be conservative in the process! We expect very strong bidding when this beauty crosses the block.

This PQ SUPERB GEM 1946 Walker is a perfect addition to any high end Registry Set and is tied for second highest graded for the date. Not only is this coin worthy of the lofty technical grade, but the visual allure is also ultra high end.

A brilliant luster gleams boldly in the untuned areas of this beautiful half. Sections are infused with an iridescent splash here and there of gold and amber patina, blending with pearly silver overtones.

The sharply struck devices show crisp definition throughout the details of this nearly pristin late date Walker.

A GLORIOUS example of this late date Walker! Tied for FINEST GRADED by PCGS, not only is this coin all there and then some for the technical quality, but the EYE APPEAL goes on for days!

A SUPERB coin in every sense. Exceptionally brilliant luster booms boldly on both sides. The surfaces are awash in beautiful toning. The obverse has rich rainbow hues at the periphery before melding to gold and soft blue/green in the centers. The reverse has antique gold and clear blue. The devices are sharply struck up devices show essentially full definition, even Liberty's thumb is fully outlined. 50C 1948 PCGS MS67+ FBL CAC

Tied for FINEST graded at PCGS and a fantastic example of this first year of the Franklin half dollar. Clearly this SUPERB GEM has been lovingly cared for since the day it left the mint.

The surfaces show a fully vibrant and bold mint luster that glows throughout with a vivid brilliance. The faintest blush of iridescent, pastel blue and gold can be seen on the obverse, which adds wonderfully to the stunning visual allure. Sharply struck up with fully defined details on both sides, especially on the Liberty Bell. There are some very minor ticks that are seen on the highest portions of the central devices, but we think these were from the raw planchet before striking and not after striking.

PCGS 55, NGC 18, CAC 18. There are just five graded so fine, none finer. The only one to sell realized \$24,675 back in our September 2015 Regency Auction. The current Collectors Universe value is \$30,000. For the collector building the number 1 set, do not let this opportunity pass you by!

This CHOICE early Seated Liberty dollar is an old friend of ours, appearing as lot 5 in our May 2019 Regency Auction, from the Issaquah Estate Collection. We loved the coin then, and still do!

Both sides are evenly covered by wonderful deeper original toning; the obverse has shades of evergreen/rose/pale blue, while the reverse has navy/purple colors. Miss Liberty and the details are sharply struck and stand out, emboldened by a strong luster that glows from all over.

To the naked eye you don't see much due to the toning, however, when using a strong glass you can see some scattered light ticks and lines. The eye appeal is refreshing!

PCGS 18, NGC 7, CAC 8. The current published prices are \$7,500 in the CAC CPG and \$6,750 in the Collectors Universe Price Guide, but with most recent example bringing \$15,275 in our May 2021 Regency Auction, probable that this CHOICE example will bring more. Completely and totally original, high end and beautiful, this is a sensational example of this low mintage Civil War Proof issue. In the old days, or if offered raw, we would not be shocked if this beauty was called a GEM Proof! It is very close and we have seen PR65s that did not have the sensational eye appeal of this beautiful No Motto Seated dollar.

Sleek, icy mirrored fields have a smooth glass like brilliance that gleams and beams from all over. Peachy-rose accents with bold golden accents with hints of blue that come out when rotated in a light. The devices are sharply struck and frosted and at angles there is a cameo-like look. A few microscopic lines, widely scattered, can be found with a strong glass, and have no bearing on the eye appeal or the assigned grade. This is a sensational example.

Only 470 Proofs were struck. 43, NGC 46, CAC 11. The ONLY CAC example to sell was back in January 2015--that was forever ago. The current Collectors Universe value is listed at \$8,750 and this very attractive, essentially GEM will see very strong bidding. Ex Simpson Collection, as noted on the insert.

One look and you can tell this is an exceedingly SUPER HIGH-END GEM. We originally sold it to Bob Simpson and it was part of his finest ever Proof Trade Dollar set a VERY long time ago.

Deep and booming mirrors beam from all over; they are seriously clean, have amazing clarity, and are nearly blinding with reflection. When twirled, they give off that deep "watery" rolling look. A gentle shade of reddish gold frames parts of the peripheries. Miss Liberty and every detail are pinpoint sharp in strike and have thick frost. This coin has NOT been dipped or re-toned, it's the real deal! The eye appeal is phenomenal!

What a super sexy DMPL! WOW!

Both sides offer full 8"+ deep flashy mirrored filed and enlivened by an extremely bold blinding brilliance. The devices are thickly frosted and sharply rendered by an exacting blow from the dies. A delicate halo of the most subtle yellow-gold iridescent toning frames both sides, making the stark, blazing silver seem even brighter! Though there are a few of the tiniest ticks, these are so minute and are totally appropriate for the assigned grade. The eye appeal is spectacular.

PCGS 31, NGC 8, CAC 3. No CAC approved example has ever sold in auction, and the most recent PCGS-graded coin in 64 DMPL sold in July 2016! Clearly the published levels are not correct. Just 8 are graded higher, and we sold a PCGS/CAC MS65 DMPL in February 2021 for \$23,500! If you collect DMPL Morgans and are still in the market for a PCGS/CAC example of this important first year of issue, and don't want to spend \$20,000+ for a GEM, do not let this VERY CHOICE example get away. Good luck, we anticipate bidding to be fierce!

OH MOMMA! From our May 2017 Regency Auction, lot 337, where it was described as:

"We can't get over just how spectacular the burlap bag toning is. You can't recreate this kind pattern.

The quality of this coin is very high end: the surfaces are super clean, semi prooflike, and really boom with flash. Of course this all enhances the monster colors-- a cascading mix of totally original navy/violet/magenta/pearl green/amber colors cover the entire obverse. We rank the colors a 9++++ on our 1-10 colors scale (10 is the best). The reverse is a creamy white. Miss Liberty and all the details really look awesome because of the colors. The eye appeal is mesmerizing!

If you love original bag toning, this coin is for you!"

**LOT 201****\$1 1880-S PCGS MS66**

This is a beautiful, double sided toner. The obverse is awash in teal-blue, the blends with subtle accents of magenta and gold. The reverse has lilac, violet, orange, and gold that yields to a splash of original silver. Both sides' colors are brought out by a bold swirling luster. The colors rate an 8.5+ on both sides and this delightful coin will enhance any collection of toned Morgans. Take a good look and bid accordingly.

\$1 1880-S PCGS MS66 CAC

This PQ GEM is an old friend, an exceptionally beautiful coin that first appeared in our February 2015 Regency Auction, as part of the David Hall Collection. It is simply stunning with deeper rainbow toning, imparted by long term bag storage. The color, which rates as a 9 on our 10-point color scale, is further enhanced by a bold, semi-reflective luster and the strike is bold.

Back in 2015, this coin brought \$1,998 on a \$1,500+ estimate. It sold again in our July 2017 Regency Auction, as part of the A.W. Collection, lot 298, for \$1,528. In 2022, this PQ GEM will sell for a very strong bid. What a great pedigree!

Outstanding quality all the way! We love common date MS67 Morgans when they look like this! Incredibly brilliant mint luster gleams boldly from all over. Mostly untuned, the reverse has an arc of perfect rainbow toning at the top of the reverse. Well stuck and offering a wonderful surface quality the eye appeal is excellent.

PCGS 2710, NGC 3560, CAC 1005. The PCGS Price Guide value is \$1,100 and the CAC CPG value is \$1,140, with the most recent APR being \$1,170. We think you will really enjoy owning this coin as part of a great type set.

Truly a STUNNING rainbow toned SUPERB GEM 81-S. Bands of multicolored hues of blue, green, gold, magenta-tangerine, and accents of brilliant original silver. The parallel bands are emboldened by the sensational, blazing original mint luster. The color rates a 9 on our 10-point scale, and it truly SENSATIONAL! The surfaces are ultra clean, as to be expected for a SUPERB GEM in MS67+ and the strike is razor sharp in definition on both sides.

This very high end beauty realized \$5,750 in June 2012; expect very strong bidding when this one crosses the block!

What a BRILLIANT example housed in an older generation blue tag holder. This is truly a PREMIUM GEM DMPL 80-S Morgan. Deep, beaming mirrors gleam boldly all over the sensationally smooth fields. The razor sharp devices have thick frost and stand out boldly. The faintest blush of iridescent white and clear gold appear at angles, as you rotate the brilliant surfaces in a light. The luster is vivacious and the eye appeal is exceptional.

PCGS 215, NGC 101, CAC 33. The most recent example to sell in auction brought \$3,480 in November 2021, and the published levels are well below recent APRs. RARE finer, this one will find itself at home in a great collection. Good luck.

From our July 2020 Regency Auction, lot 357, where it was described as:

"Roadrunner, the coyote 's after you, and so every buyer should be, who prides themselves on being a collector of Morgan dollars with SPECTACULAR color! The vibrant hues are reminiscent of a Christmas tree ornament. Electric celery green and fuchsia toning dance over flashy obverse fields and bold devices. In contrast the reverse is nearly full white. Under powerful magnification a thin scratch is seen on Liberty 's chin. We rank the colors as an 8+ on our 1-10 color scale with 10 being best."

This lovely GEM sold for \$1,234 on an estimate of \$800-\$1,000 and it should again bring in that range.

Sometimes even these "terminal" color Morgan dollars are truly STUNNING, as this one is. The dominant hues are deep violet-blue, verging on an eggplant shades, which when rotated in a light meld with tropical sea-green and traces of tangerine and magenta. An impressive and brilliant cartwheel luster brings out the colors, which are a 9.5 on our color scale. We love the look of this one and were it not for a tiny line on Liberty's cheek, it would have likely graded higher. The reverse is mostly untuned, semi-Prooflike, and framed by a halo of gold.

This SUPERB 81-S has multiple "wow factors" going for it. It is off the charts amazing in terms of eye appeal and the sensational toning puts it in the class of the record breaking, world class Northern Lights coins! Come to lot viewing, take one look at it in hand, and you will not be able to put it down! Our written description will fail to do it justice!

Vivacious, vivid, and vibrant cartwheel luster rolls boldly and smoothly across the SUPERB GEM quality surfaces. The gleaming mint brilliance brings out the blazing hues imparted by long term bag storage. The obverse has beautiful bag tone, a swath of textile toning dots formed from where the canvas fabric came in contact with the silver surfaces. Stunning neon magenta, electric blue, sultry orange, emerald green, and teal blue mingle beautifully together across the obverse. These colors really pop when the luster rolls all over in the light, and the obverse colors rate a 10 on out 10-point scale. For good measure, Mother Nature kissed the reverse as well, putting a blush of powder blue and apricot-gold on about 65% of the surface.

A very high grade 81-CC dollar that is gorgeously toned! A broad swath of deep violet, rich blue, and burnt orange dominate about 2/3 of the obverse, leaving a the back of Liberty's head to the rim brilliant and flashy white silver. We rate the color a 9 and the eye appeal is exceptional. A bold, vibrant mint brilliance radiates all over with a distinctive flash. The devices are distinctly frosted and there is a touch of contrast between the sharp devices and the surrounding surfaces. Free of any serious marks or ticks, this coin is exceptional for the grade.

PCGS 272, NGC 149. This is an old friend, having sold in in our October 2020 sale of the Roadrunner Collection for \$4,818; it also was sold in our Regency 26 auction. **LOT 217****\$1 1882-O PCGS MS66 CAC**

Ex The Shrike Set and The Michigan Collection, as noted on the insert.

Like so many Morgan dollars of the 1880s, this date saw a large mintage of over 6 million, but few were stored in Treasury vaults after the massive melts in 1918 under the Pittman Act. As such, this date is **CONDITIONALLY RARE** in MS66 and **VERY RARE** any finer.

The present CAC-endorsed, boldly lustrous PQ GEM stands out as a very **HIGH END** and desirable coin, as it had been a part of several important collections of Morgan dollars. The surfaces are very clean and pleasing and the strike is very sharp, for a date that often comes pancake flat. The surfaces are devoid of any serious bag marks or any contact of any kind that would distract the eye. WOW! We just really love the look of this GEM.

PCGS 80, NGC 12, CAC 10. Back when this coin sold as part of the Shrike Set in 2011, it brought \$11,500. More recently these have been selling in the \$5,160 to \$8,225 range. This coin's quality is close to the R. Dier/Gold River PCGS MS66+ CAC that we sold in October 2021 for \$15,863. \$1 1883-CC PCGS MS64 CAC

Ex GSA Hoard, as noted on the insert.

Cracked out of the original GSA holder, and submitted to PCGS sometime between 2002 and 2004, before PCGS and NGC graded the GSA coins in their original capsules. This is a magnificent bag toned 83-CC. Clearly this coin sat somewhere close to the original canvas fabric which imparted a deep, but gorgeous rainbow patination across most of the obverse surface. We rate the color as an 8.5++ on our 10-point color scale. Sharply struck up, and very eye appealing we have certainly seen coins in higher grade holders that do not look as good as this one.

Ignore the Price Guides and APRs, when was the last time you saw an 83-CC that looked like this? Bidding will be very strong when this one crosses the block.

Another beautifully toned near-GEM housed in an old NGC "fatty" holder. The obverse offers a blush of textile texture on Liberty's cheek, infused in the apricot-gold and tangerine-rose that deepens toward the lower obverse in hues of magenta, violet, blue, and emerald green. The luster and strike are impressive for this date and grade, enlivening the colorful bag toning, which we rate a 9 on our 10-point scale. Perhaps a touch conservative in the grading, we have seen MS65s more recently graded that are not as clean or attractive as this old holdered MS64. Worthy of a very strong bid and we suspect our estimate will prove low when the hammer finally falls!

A gorgeous blend of sunset orange and fuchsia cling to areas at the obverse rim, before blending into a mix of teal and deeper violet that covers the entire surface of the obverse. The color rates a 9+ on our 10-point color scale. A strong luster for the date, the colors really pop when rotated under a light. There are some very minor traces of contact under the color which accounts for the assigned grade, but the eye appeal is truly amazing!

This coin sold in October 2012 for \$1,528 and any collector of toned Morgans will delight in owning this near-GEM!

\$1 1883-O PCGS MS64 CAC

WOW! This is a sensational toner! A stunning luster, looking more like an 82-S than an 83-O, rolls boldly on the surfaces of this sharply struck GEM. Indeed this coin has strong claims to an even higher grade.

This coin is beautifully toned, one of the nicest MS64 toners we have offered. The lower obverse has an arc of magenta and violet tinged with azure, that mixes into a blend of tangerine, lemon-yellow, and brilliant gold. There are hints of original, brilliant silver that have soft overtones of the palest pastel green and blue hues. The photos do not do this coin any justice and you need to see it in hand. We rate the color a 9+ on our 10-point scale. This coin is worthy of a fantastic collection, we know if Roadrunner was still buying, this coin would fit right in! Do not let this beauty get away.

PCGS# 7146 | EST: \$1,250+

LOT 226

\$1 1883-O PCGS MS64 CAC

A truly magnificent toned 83-O! While the technical grade is more modest due to some marks from bag storage, that same mode of storage, mixed with time, temperature, and the grace of Mother Nature's magic paintbrush rendered this coin into a stunning jewel. The full spectrum of rainbow color graces 100% of the obverse surface. Swirling splashes of rose, gold, tangerine, pale green, soft blue, bold magenta, and more mix together in a pattern that would fit in beautifully at Woodstock. The color rates a 9 on out 10-point scale. The reverse has splashes of deeper violet blue and tangerine-gold that, like the obverse, is enlivened by a bold mint brilliance.

Once this coin is called to the block, it will join the pantheon of other superbly toned 1883-O dollars we have sold in auction. Our estimate, no doubt, will prove very conservative when the hammer finally falls.

HOLY COW! This is an AMAZING bag toned MONSTER! This is a coin that would have easily been at home in the Northern Lights or Roadrunner Collections we offered in years past and is a wonderful highlight of this Regency Auction's extensive selection of great toners. The 1884 Philadelphia issue is not commonly seen with AMAZING bag toning. This one is a GORGEOUS example. The dominant magenta-purple has a wealth of bold gold and orange accents. You know how picky CAC can be with DMPL dollars, so if they approve, even the most fastidious collector will love this SUPERB GEM!

Incredible brilliant mint luster boldly blooms on both sides with a very strong cartwheel swirl. The fields are ultra reflective with beaming, and deep mirrors that offer a stunning clarity. \$1 1884-S NGC AU58

A lovely, nearly Uncirculated example of this conditionally challenging issue. Despite a fairly large mintage of 3.2 million, most of these went directly into circulation or were stored in Treasury Department vaults as backing for Silver Certificates, and were then lost to the ages in the mass melts of stored silver dollars in 1918. Either way, the number of Mint State coins, relative to the typical Morgan dollar survival rate is low, and many collectors choose AU58 coins for their sets, rather than spending high four to low five figure prices. The present example has an essentially full mint luster, rolling boldly on surfaces that display on the lightest friction. The fields maintain a touch of semi-Prooflike flash and are framed by a touch of old gold toning. Well struck and quite pleasing for the grade, this coin has a lot to offer.

PCGS 1380, NGC 1957. There were three examples that sold in February 2022 in the \$1,740 to \$1986 range, and the current Collectors Universe value is listed at \$3,300. We like the look of this coin very much and think it will bring close to the higher end of our estimate range. Bound for a carefully selected set.

LOT 238**\$1 1885 PCGS MS65 CAC**

WOW! This is one of the most dramatically toned MONSTERS we have handled since the Northern Lights Collection sales! WOW!

The obverse is awash in a spectacular array of magenta and tangerine hues with accents of gold, lime green, and aqua-teal that come alive as you rotate the lustrous surfaces in a light. We rate the colors as a 9.5 on our 10-point scale. The reverse is brilliant and untuned with a wonderful, swirling cartwheel over smooth surfaces and sharply impressed devices. The eye appeal is off the charts.

Housed in an old green-tag holder, this eye popping GEM realized an eye popping price of \$6,169 in November 2012. We believe this SUPERB toner will again bring a very strong bid when it crosses the block a decade later. If you collect the finest toned dollars, you need to look at this AMAZING piece! Good luck!

"Berry Punch" Wow! This is a sensational deep violet and crimson toned beauty with accents of rich blue-green accents. The 9+ colors really pop with the underlying brilliance of this PQ GEM. This color palette is highly desirable and quite scarce! WOW!

This deeply and richly toned 1885 dollar brought \$1,410 back in February 2014. We would not be shocked if this coin sold for way more today! Bound for a sensational collection of Toned Morgan dollars.

A blast white, blisteringly lustrous and highly reflective uber-GEM DMPL! The razor sharp and thickly frosted devices stand out in contrast to the deeply reflective Prooflike mirrors. Smooth and sleek, the surfaces are very high end!

PCGS 104, NGC 57, CAC 33. The last one sold in the 2021 ANA auction for \$3,120. The current PCGS Price Guide is \$3,000 but it would not shock us if this nearly SUPERB GEM brought more. RARE finer, with just 26 in MS66+ DMPL and two in MS67+ DMPL. Bound for a great set!

LOT 241**\$1 1885 PCGS MS66+ DMPL CAC**

This is a VERY HIGH END example of this date, one of the highest grade examples in the DMPL category at PCGS, and tied for FINEST endorsed by CAC!

This borderline SUPERB example offers a classic look with brilliant, beaming mint luster showing a blinding reflection in the fields with a deeply mirrored sheen. Deep 8"+ mirrors beam vividly from all over. The mirrors have good clarity, have just a few trivial tiny scattered ticks

(and we mean very few), and are highly reflective. You twirl the coin and the mirrors shine boldly right back at you. The contrast is strong. Miss Liberty and the details are thickly frosted and are fully struck. The eye appeal is SUPERB!

PCGS 128, NGC 65, CAC 33. PCGS has graded 24 in MS66+ DMPL with just a pair graded MS67 DMPL finer. The most recent example to sell brought \$5,640 in April 2021 and the current PCGS Price Guide value is listed at \$6,500 and it jumps to \$28,500 in MS67 DMPL. GEM DMPL dollars approved by CAC are a rare commodity indeed; travel around any bourse floor and you know how dry the supply is. Anytime one pops up in our auctions, they disappear into the black hole of collections. This high end piece will clearly entice lots of bidding. Be prepared.

**LOT 242****\$1 1885-CC PCGS MS65+ DMPL CAC**

From our May 2021 sale of the Sommelier Collection, where it was described as:

"Both sides of this uber-GEM 85-CC DMPL Morgan has a full 8"+ depth of mirrors, giving it an impressive CAMEO contrast. The eye appeal is truly spectacular.

The mirrors are deep and beaming, crystal clear and ultra clean with only the most subtle tick or two seen with the aid of a strong glass. The fields are impressively reflective and icy smooth. Ms. Liberty and the details are razor sharp in strike and have a rich, creamy white frost. Virtually untoned, both obverse and reverse are blazing with just a touch of blue and red at the lower reverse periphery. The eye appeal is otherworldly--we LOVE the look, and know that even if you are the pickiest of old time DMPL collectors, you will fall in love instantly also."

PCGS 244, NGC 62, CAC 36. There are 18 in MS65+ DMPL. This coin brought \$5,405 in May 2021 on a \$4,000-\$5,000 estimate. The current PCGS Price Guide value is \$5,750 and that doubles for a PCGS MS66 DMPL CAC. This is a great example for the specialist collector or someone who just wants a Morgan dollar for a type set.

\$1 1885-O PCGS MS63 CAC

Somewhere over the rainbow, there is a splash of untuned silver that contrasts boldly against the toning and makes the gorgeous color stand out all the more vibrantly. Double rainbow bands arch over the lower 70% of the obverse with the crimson red hues dominate, then melding to cobalt, teal, and gold. The color rates a 9 on our 10-point scale. The eye appeal is exceptional for the assigned grade, and its oh so close to a 64.

A magnificent inverted rainbow is bold and vivid. A vibrant luster brings out the deep magenta-red, violet-blue, aqua-teal, tangerine-rose, lemon-yellow, and sky blue toning. The eye appeal is very bold, we rate the color 9+ on our 10-point scale.

While a common date, and is sometimes seen with great color, this MS63+ brought a strong \$2,233 back in November 2013. We expect strong bidding again when this 85-O crosses the block.

LOT 245

\$1 1885-O PCGS MS64 CAC

We love the look of this 85-O. A borderline GEM with fantastic toning that covers the entire obverse and kisses the reverse periphery. Deep cranberry-red tone melds to an aubergine dark purple, into emerald, teal, gold, magenta, and more. We love the coloration, the hues are brought vividly to life by a vivacious mint luster and cartwheel brilliance. We rate the color a 9+ on our 10-point scale. The eye appeal is sensational.

Another great toner that will join the other great toned 1885-O dollars we have had the honor of selling. Our estimate will prove conservative when the hammer falls. If you specialize in toned dollars, do not overlook this beauty.

Another beautifully toned 85-O. The present coin's color rates an 8.5+ on our 10-point scale; the toning more pastel and iridescent in their intensity highlighted by a more frosty/satiny mint luster rather than a cartwheel brilliance. What a MONSTER! This is an off the charts AMAZING bag toned GEM. Clearly this coin sat against the canvas, and Mother Nature created a masterpiece that would make Picasso, Dali, Warhol, or Pollack jealous. WOW!

Cascading rainbow colors have a broad swath of canvas bag textile pattern down through the center of the obverse. The greens, blues, purples, golds, oranges, and yellows all blend magnificently together, which we rate 10 out of 10! The eye appeal is drop dead gorgeous and this is a GEM of the finest order. Toned dollar specialists take note of this stunner and do not let it get a way! Back in 2014, this coin brought \$3,819--we think its worth more today! Good luck!

A borderline DMPL for sure, and HIGH END too!

Full 4"+ mirrors beam boldly from all over. Only a tiny tick or two can be found. The mirrors do offer exceptional clarity. You do not have to imagine the reflection. There is strong contrast. This piece is totally white on the obverse, and white with a splash or two of deeper gold on the reverse. Miss Liberty and the details are fully struck and enjoy thick white frost. This is just such a nice coin. The eye appeal is great!

PCGS 57, NGC 101, CAC 11. This coin sold for \$4,080 in October 2021. We had not seen one as nice until then. The current published prices are really not relevant for a coin like this. This coin will be a great fit in a PL or even DMPL Collection!

WOW, WOW, WOW! What a fantastic SUPERB GEM TONER! Did we say wow? The obverse is awash in gold, amber, honey, with bold accents of violet, magenta, and bluish-green hues. We rate the color a full 9+ out of 10 on our scale. The reverse is completely untoned and both sides display a full satiny luster. For a coin of this vintage, the strike is as bold and sharp as you can hope to see--the devices are well embossed and frosty. Superb in every way!

PCGS 397, NGC 618, CAC 214. Nearly five years ago, this coin appeared in Regency Auction XXIII, and realized \$2,350. In today's stronger market, which has so many more toned dollar collectors, we expect it to bring more! Good luck.

Ex Roadrunner Collection, as noted on the insert.

From our October 2020 Regency Auction, lot 302, where it was described as:

"A majestic, indeed REGAL toned Morgan dollar. Offering a truly royal blue and violet mix of color that blends with clover, teal, and, emerald green shades. Magenta and brilliant tangerine-orange can be seen around E and BUS. The color ranks as a 9.5+ on our 10-point color scale. Exceptionally clean for an MS65 grade, there is just a few minor traces of contact on the lower portion of the cheek and in the field in front of her eye. Nicely struck up, this coin has a SUPERB visual allure, a MONSTER, a coin that would have been right at home in the Northern Lights Collection. This blend of color is one of this cataloger's favorite."

This ex Roadrunner GEM sold for nearly double the estimate of \$1,500+ when it realized \$2,938. We have no doubt that today this coin will bring a similar strong bid when the hammer falls.

This is the SINGLE HIGHEST GRADED 1886 dollar in the DMPL category at either service.

Bold and brilliant, both sides of this SUPERB GEM have a strong reflective luster that blazes with a deeply Prooflike flash. Icy silver surfaces have just the most subtle dusting of pale iridescent toning. The devices are very sharply struck up and the devices have a nice frosty texture. Aside from a single very minute graze in front of Liberty's chin, the surfaces are PRISTINE and have a great look.

PCGS 0, NGC 1. This coin sold for \$10,200 in November 2021 and it should be noted that PCGS has not graded anything finer than MS66+ in the DMPL category. Collectors Universe lists a value of \$20,000 in this SUPERB grade, and we anticipate strong bidding for this lovely coin. Bid accordingly.

A marvelous SUPERB GEM 1886 dollar housed in a VERY SCARCE "Doily" holder. A sensationally brilliant and blast white luster graces both sides of this MS67 that was graded sometime in the fall of 1989. Very well struck and ultra clean, this coin has a lot to offer the collector of scarce early holders or Gem Morgan dollars.

PCGS 606, NGC 982, CAC 370. This coin has value in the coin itself (CAC CPG is \$1,380 and PCGS is \$1,300) and for the holder, which will add a decent premium to the collector. Good luck.

A GEM example with a fantastic look! Housed in an NGC "fatty" this beautifully toned example has horizontal waves of beautiful rainbow toning that dominates the lower half of the obverse before fading into a clear, iridescent sea-foam green tone. Wonderful peripheral toning on the reverse. The obverse color rates an 8+ on our 10-point color scale. The strike is full and in the opinion of this cataloger, the coin is undergraded. The eye appeal is excellent and this GEM is worthy of a very strong bid.

From rich emerald and aqua-green to cobalt, magenta, orange, and yellow-gold, the colors really pop and they rate a 9 on our 10-point color scale. A few old ticks under the toning account for the MS65 grade, but the eye appeal is very high end, and will inspire fierce competition from the toned dollar collectors.

LOT 256

\$1 1887 PCGS MS67+ CAC

HOLY COW! Needless to say, this coin has multiple wow factors! This SUPERB 1887 has a lot going for it, and will appeal to so many different types of collectors. Not only will this colorful toner appeal to the wide range of collectors specializing in toned Morgans, but as tied for second highest graded at PCGS, with just two in MS68 finer, this coin will appeal to anyone building a high ranking Registry Set.

A stunning array of magenta-rose, emerald, deep violet, tangerine-gold, and cobalt hues envelope the entire obverse surface, covering 100% of that side. The bold luster bringing out the sensational coloration. Rotating the coin in a light the various hues burst to life and we rate the color a 9.5 out of 10 on our color scale! The reverse is essentially untoned, save for the slightest hint of golden at the lower periphery. The details are sharply struck up and the eye appeal is sensational!

PCGS 302, NGC 435, CAC 94. PCGS has graded 39 in MS67+ with just two PCGS MS68s graded finer. In April 2018, this monster sold for \$5,520 and in today's market, we think that record will be left by the roadside. Do not let this amazing coin get away!

PCGS# 7172 | EST: \$5,500+

LOT 257**\$1 1887-O PCGS MS65+ CAC**

Bright and brilliant untuned silver surfaces shimmer with a bold luster. Swirling cartwheels transverse the surfaces on both sides. The devices are sharply struck up and have crisp details and a thickly frosted texture.

A very conditionally difficult date to find in GEM + grades, despite a large mintage of over 11.5 million, relatively few survive in so fine a state of preservation. Anything finer is a major rarity in the Morgan series.

PCGS 468, NGC 81, CAC 46. There are 66 in MS65+ (which we believe includes duplicate submissions of the same coin hoping for a higher grade). The present coin offers cleaner surfaces than the most recent PCGS/CAC MS65+ that sold for \$6,600 in February 2022. There may be as many as two CAC-approved coins graded higher, which includes the MS66+ that just sold for \$78,000! This marvelous coin, in our opinion presents a fabulous opportunity to acquire a sensational GEM 87-O without breaking the bank.

PCGS# 7176 | EST: \$5,500+

LOT 258**\$1 1887-O PCGS MS65 PL CAC**

Ex PCGS Tour, as noted on the insert.

Despite a large mintage of 11,550,000, the 87-O is decidedly RARE with a Prooflike finish, especially so in GEM. This fact is borne out by the grading service population figures, fewer than two dozen have graded MS65 PL or finer at PCGS.

This is a well struck example of this notoriously weakly struck date. While the frosted reliefs do show some minor weakness they are sharper than usually encountered. The highly lustrous fields have a distinctive Prooflike flash. Mostly untuned there is a tiny blush of peripheral gold that delightfully frames both sides. The eye appeal is excellent.

The PCGS Tour Set was a very popular display at coin shows around the country. You will clearly see that with a coin like this in the set, why it would be such a popular draw among collectors.

PCGS 19, NGC 2, CAC 5. The most recent example to sell in auction realized \$9,694 in our most recent Regency Auction and all the APRs have exceeded the current published price levels. VERY RARE finer, with just four coins graded higher in the PL designation, making this GEM worthy of a strong bid. Good luck.

\$1 1888-O PCGS MS65 DMPL CAC

An impressive GEM DMPL 88-O dollar. Ultra flashy mirrors beam all over, catching the viewer's gaze from across the room. The details are sharply impressed with a thick frost, giving the coin an almost cameo-like contrast at certain angles. The surfaces are fairly clean and free of all but the tiniest little imperfections. The eye appeal is impressive.

PCGS 69, NGC 27, CAC 13. The current CAC CPG value is listed at \$3,120 and the Collectors Universe value is listed at \$3,000. Only 9 are reported graded higher at PCGS in the designation, and they become very expensive, we sold the FINEST, a MS66+ DMPL CAC five years ago for \$25,850! This pleasing GEM is worthy of a great set and a strong bid.

Despite a huge mintage of 21,726,000, the 1889 is conditionally challenging in this grade and EXTREMELY RARE any finer. Boldly lustrous and wonderfully preserved surfaces are unencumbered by any serious marks. Swirling silver luster radiates wonderfully on both sides. Overall the devices are sharp, though we note some minor weakness in the central hair curls. The eye appeal is very pleasing for the grade.

PCGS 564, NGC 212, CAC 116. PCGS has graded 86 in MS66+ and just 10 finer. The most recent example sold for \$3,600 in November 2021 and the current PCGS Price Guide value is listed at \$4,250. This Philadelphia Mint issue saw a mintage of more than 16.8 million pieces, and they are scarce in MS65 and RARE any finer--none are graded above MS66. This CAC-approved GEM has a brilliant, satiny-frosted luster on both sides. The strike is actually bold for the date and there is a touch of peripheral gold on the obverse and orange-purple on the reverse. The eye appeal is marvelous!

PCGS 800, NGC 318, CAC 65. The most recent PCGS/CAC example to sell in auction brought \$1,680 and the current CAC CPG value is listed at \$1,500. There are none finer than MS66 graded at either service, so this PCGS/CAC MS65 is a fantastic coin for the collector working on a high end set.

\$1 1890-O PCGS MS65 PL CAC

A wonderfully flashy Prooflike GEM 90-O dollar. Blast white untuned silver surfaces have a bold, brilliant luster and wonderfully reflective fields. The devices are crisp and frosty standing out from the watery fields surrounding. There are some light and stray traces of contact, which are minimal and do not interfere with the eye appeal or disrupt the fragile nature of the Prooflike surfaces.

PCGS 42, NGC 13, CAC 13. There are just five coins graded higher in the PL designation. The last PCGS MS65 PL CAC to sell in auction was in November 2014--over seven long years ago. The market for quality Morgan dollars has gone way up since then, and clearly the lack of appearances in auction have kept the published levels low. Over six years ago, we sold a marginally finer MS65+ PL CAC for \$4,348 and that coin today is listed at \$6,000 in the PCGS Price Guide. We think this bold Prooflike GEM should sell for a strong bid. Good luck.

Everything about this GEM is VERY HIGH END! A lovely and totally original example that is TIED for second HIGHEST graded at PCGS. Its quality and eye appeal are all there and then some!

A brilliantly lustrous example, that has a bold, swirling cartwheel effect over high nearly pristine surfaces. Both sides have wonderfully frosted surfaces. The faintest traces of peripheral toning caresses the edges, framing the obverse especially. Sharply struck up this coin has a fantastic visual allure and is on the cusp of a fully SUPERB grade!

PCGS 313, NGC 64, CAC 85. There are 65 graded MS66+ at PCGS and just 8 in MS67 finer. There must be duplication in the data. The current PCGS Price Guide value is listed at \$4,850 and the most recent sold in April 2021 for \$4,320. With MS67 pieces valued at \$20,000, we think this coin offers a great value. WOW! What a blazing and totally vibrant and brilliant GEM, worthy of its "+" designation! Sensationally clean and smooth surfaces beam boldly with a vivid, swirling cartwheel luster. Incredible, bright untuned silver gleams boldly all over with accents of semi-PL flash seen in some of the fields. The devices are sharply struck up and have a bold frost, especially in Liberty's hair and on her cheek.

All that keeps this marvelous coin from an even higher grade are a few miniscule minor marks, none of which have a major impact on the outstanding visual allure.

This is a VAM-3, Spitting Eagle, as are about 1/2 of known specimens. This colorful named variety comes from the small triangle shaped die chip at the eagle's beak.

PCGS 879, NGC 127, CAC 63. PCGS has graded 69 in MS65+ and just 55 finer. The current PCGS Price Guide value is listed at \$6,750 and a beautiful example like this should see very active bidding. **LOT 267****\$1 1893-CC PCGS MS61 CAC**

Flashy, brilliant, and untuned, this is a wonderful Brilliant Uncirculated example of this scarce, final issuance from the Carson City mint. Full cartwheel luster rolls boldly along the surfaces, picking up traces of semi-Prooflike reflection in the fields. The strike is blunt and not fully brought up at the hair above Liberty's ear and in the eagle's chest feathers. Indeed, we believe that if the strike was a little fuller, this coin would have received a higher grade, as the contact is unobtrusive and we have seen worse on coins graded higher.

PCGS 554, NGC 315, CAC 32. It has been two years since the last PCGS/CAC example sold in auction. More recently an NGC/CAC MS61 sold for \$4,920 in March 2021. The current PCGS Price Guide value is listed at \$5,250 and the CAC CPG value is \$6,600. An affordable Mint State example of this semi-KEY issue. Good luck.

Ex Sunnywood/Simpson Collections, as noted on the insert.

Of course, this Sunnywood-Simpson coin is an old friend, having sold it back in our Regency Auction IX, lot 188.

While not the highest grade 93-CC that exists, it is one of the prettier toned examples that our sister firm, Legend Numismatics, could find when helping the Sunnywood Collector build his set. Lovely multi-colored end-roll toning on this piece is simply amazing for the date. Lime green, azure and pale orange areas are highlighted by splashes of red, blue and orange. The quality is really high end, and although there are a few light lines, there are no real ticks or problems to be found. The luster is intense, and most importantly, the details are well struck. Important as the final year of coinage operations at the Carson City Mint, this semi-KEY issue saw a mintage of only 677,000 and is in demand in all grades. VERY RARE any finer.

There are dollars out there with "pretty" toning, there are others that have "nice" toning; then there are coins with STUNNING toning. This GEM falls in that last category. The obverse is awash in stunning colors! The rich neon-pink color arrests the eye, and the varied green hues draw your gaze in deeper. In the central obverse you will see the lighter flecks--the textile bag texture that is so highly coveted by the devotees of toned Morgan dollars. The color rates a 9.5+ on our 10-point scale. The eye appeal is unaffected by the minor bag marks that account for the assigned grade. This is a very high end and beautiful toned Morgan that will bring a very strong bid. A glorious, borderline SUPERB GEM! A very bold brilliance consists of a strong, swirling cartwheel bloom and ultra flashy surfaces. Sharply struck, frosty devices show off nice definition and pleasingly smooth surfaces. Blazing white silver surfaces blaze all over, with just the slightest hint of the faintest of gold that accents the obverse. The surfaces are exceptionally clean for the grade. RARE finer, this is a great example with an exceptional eye appeal.

PCGS 420, NGC 140, CAC 90. There are 64 in MS66+ and fewer than 40 graded higher. The current Collectors Universe value is listed at \$3,000, but this coin is so high end that it sold for \$3,760 in August 2016. With CAC-approved MS67s bringing five figures, this coin will make a great addition to any set of high quality Morgan dollars. Expect our estimate to be conservative.

\$1 1898-O PCGS MS67+ CAC

Tied for FINEST graded at PCGS. A strong, satiny brilliance radiates boldly on this generally clean and sharply struck for the date SUPERB GEM. The cheek is especially smooth, free of distractions, and only with the aid with a strong glass does any trace of contact appear, having minimal impact to the great eye appeal.

PCGS 416, NGC 206, CAC 117. There are 45 graded MS67+ at PCGS and NONE FINER at that service. The most recent example sold in June 2021 for \$5,520 and the current Collectors Universe value is listed at \$6,250. Bound for a great set of Morgan dollars. Good luck.

LOT 273

\$1 1899-S PCGS MS66 CAC

The 1899-S Morgan dollar is an underrated date in GEM and finer grades, and rarely do they ever appear with any kind of toning.

This is a high end and totally originally toned PQ GEM. Both sides have a deep, multihued, iridescent toning that comes to life when rotated in a light. The luster is bold and bursts through the dappled texture of the envelope style toning that makes each color pop out as you rotate the surfaces in a light. Well struck and nearly flawless!

PCGS 130, NGC 30, CAC 30. This coin sold for \$3,178 back in April 2016, as part of the Paul Gerrie Collection. More recently a non-CAC PCGS coin brought \$5,280 (we like the look of this one better). The current CAC CPG value is listed at \$6,470. A coin like this will see spirited bidding when it crosses the block. Good luck.

PCGS# 7262 | EST: \$3,000+

LOT 275

\$1 1901 PCGS AU58 CAC

Clearly the vast majority of the nearly seven million dollars that fell from the coining presses in Philadelphia were melted down in 1918. Relatively scarce in all grades, and considered a KEY date in Mint State, coins like this attractive "slider" are always in hot demand. A soft gold time graces both sides, brought out by a full mint luster. This coin is oh so close to full Mint State quality, in the days before PCGS, this coin would have been sold as such. The eye appeal is great and high end.

PCGS 1310, NGC 1566, CAC 127. The last PCGS AU58 CAC examples sold in November 2021. The CAC CPG value is \$1,660 and the PCGS Price Guide is \$1,850. This attractive coin sold nearly a decade ago for more and we anticipate again it will sell for a premium bid! The value jumps to \$4,350 in MS60 and \$4,800 in MS61. Good luck.

LOT 274

\$1 1899-O PCGS MS67 CAC

While over 12 million silver dollars fell from the presses at the New Orleans mint in 1899, most either disappeared into circulation or were melted down en masse under the auspices of the Pittman Act. While considered a "generic" date even in grades up to MS66, the population at PCGS and NGC is very much dwarfed by the populations of similarly "generic" dates. Minty fresh brilliant luster blazes boldly on both sides of this SUPERB GEM. The quality of luster, strike, and surface quality are tops for the grade.

PCGS 214, NGC 125, CAC 94. The current CAC CPG value is \$4,060 and this coin, fresh to the market brought \$4,230 back in the 2015 ANA auction. A beauty worthy of any high ranking Registry Set and one that will see strong bidding again when it crosses the block.

LOT 276

\$1 1921-D MORGAN. PCGS MS66+ CAC

This is a VERY HIGH END 21-D Morgan! The present Premium Quality GEM has a sensationally brilliant satin luster that graces both sides. The surfaces show exceptional cleanliness and are free of any distracting marks, line, or any other distractions that would impact the AMAZING eye appeal.

The mint ceased producing silver dollars in 1904 and the Denver mint began operations in 1906. When the striking of silver dollars resumed in 1921, all three operational mints struck Morgan dollars--making this the only year a Morgan was struck in Denver. VERY RARE any finer than the presently offered MS66+, this beauty has a great value.

PCGS 662, NGC 376, CAC 197. There are 114 in MS66+ and just 15 graded finer. There is a wide range of APRs and this coin is certainly a borderline SUPERB quality. In MS66+ the PCGS Price Guide value is \$3,250 and it jumps to \$25,000 in MS67.

PCGS# 7298 | EST: \$3,500+

LOT 277

\$1 1878 8 TAIL FEATHERS. PCGS PR66 CAM

A very high grade and desirable Proof Morgan dollar. The first year of issue had two distinct reverse types struck in Proof, the first, the 8 Tail Feathers, and then the correct 7 Tail Feathers struck later in the year. While the mintage of Proof 8 Tail Feather Morgan dollars was not recorded, it is estimated that around 500 were struck. To date, PCGS and NGC have combined graded 314 examples in all grades and designations, not including any in "details" holders or coins that may still be in the "wild" but does include for sure a number of duplicate submissions. The currently offered PREMIUM GEM, ranks among the HIGHEST GRADED specimens at PCGS in the designation; the ONLY PR66 CAM graded and just four are finer.

The Cameo contrast is awesome. Razor sharp devices have a thick, rich frosty texture that stands out in stark contrasted relief to the icy, sleek mirrored fields that surround them. There are some very light lines seen with the aid of a strong glass, which is all that keeps this PR66 CAM from an even higher grade. Some delicate peripheral tone can be seen when rotated in a light, but the eye appeal is mostly untuned, brilliant silver. The eye appeal is intense.

Only 500 are estimated to have been struck. PCGS 1, NGC 12. This coin sold for \$50,400 in November 2021, and the current PCGS Price Guide value is \$57,500. With just four graded finer, this coin belongs in a world class Proof Morgan dollar Registry Set. Good luck.

\$1 1898 PCGS PR66+ DCAM CAC

YOWZER! If you have been searching for a dramatic BLACK AND WHITE Proof Morgan, check this wild SUPERB GEM out! It is every bit the dream coin you imagined.

Both sides have absolutely stunning ULTRA DEEP mirrors. The mirrors are pretty clean. There is a hint of light gold framing the peripheries. There is a well HIDDEN line or two that keeps it from a 67 DCAM designation. This coin is NOT hazy. Miss Liberty and the details are so sharply struck they look like sculptures and are covered by the thickest imaginable layer of snowy white frost. Your eyes will pop out and roll around when they see this GEM. You will not need to own another Proof Morgan.

Only 735 were minted. PCGS 15, NGC 8, CAC 2. PCGS has graded only 2 in PR66+ DCAM. NO PCGS CAC PR66+ pieces have ever been sold via auction. Next step up would cost about \$40,000 -if you could find one! The winning bidder will own one heck of a Proof Morgan!

LOT 279**\$1 1921 PEACE, HIGH RELIEF.
NGC MS66+ CAC**

The 1921 Peace dollar, struck in high relief, is a popular one year only type, with just over a million examples produced. While a decent number were saved at the time of issue, Premium Gems are quite scarce and any example graded above MS66 is an important condition rarity.

This is a nicely struck example, offering bold definition in the central portions of the design, especially on Liberty's hair curls that cover her ear.

Both sides are splashed with dappled russet-gold, tan, orange-rose, lavender and slate hues. Totally original, the varied hues are brought to life by a bold frosted satin luster that really catches the eye. The eye appeal is wonderful.

PCGS 206, NGC 148. While the most recent non-CAC coins have brought \$9,000 the current PCGS Price Guide value is \$16,500. VERY RARE any finer, PCGS has graded only 17 pieces finer, and any MS66+ or finer piece will cost mid-five to low six-figures. This attractive GEM will see spirited bidding. We would not be shocked if this coin brought well in excess of our estimate.

PCGS# 7356 | EST: \$9,000+

**LOT 280****\$1 1921 PEACE, HIGH RELIEF. NGC
MS66+ CAC**

A fantastic GEM example of this one year only High Relief type. NGC has graded just eight coins in MS67 making this a SUPERB example for the collector.

This 1921 Peace dollar has a thick satiny frost across the entire surface on both sides. The obverse fields display the wonderful "deep dish" concave depth and the devices are struck up boldly, standing out in stark relief, seemingly sculpted out of the fields.

Essentially complete in strike, there is just the ever so slight trace of central weakness so often seen on this date, but is much sharper than the majority of pieces we have seen. The surfaces are, as expected at this lofty, essentially SUPERB quality, clean and free of any distractions. The eye appeal is very high end and exceptional.

PCGS 216, NGC 157, CAC 42. NGC has graded just nine in MS66+ and eight finer (all MS67). No CAC-approved NGC MS66+ has ever sold via auction, but we sold a PCGS/CAC coin in our May 2021 Regency auction for \$37,600 and the current Collectors Universe value is listed at \$38,000. This PQ GEM is worthy of a very strong bid and placement in a fantastic collection of Peace dollars. Good luck!

LOT 281

\$1 1922 PCGS MS64 CAC

While the 1922 Peace dollar is extremely common in MS64, with over 56,000 certified at this level at PCGS alone, this coin is special thanks to its vivid red, orange, gold, violet, magenta, teal, and emerald toning that blankets the highly lustrous surfaces of the obverse and bleeds slightly into the peripheral areas of the reverse. We rate the color a 9 on our 10-point color scale, noting that majestically toned Peace dollars are much harder to find than their earlier Morgan dollar siblings. This sharply struck near-GEM is worthy of a strong bid and placement in a wonderful set of toned Peace dollars.

PCGS# 7357 | EST: \$800+

LOT 282

\$1 1922 PCGS MS66+ CAC

A totally original, borderline SUPERB GEM example of this early Peace dollar. While a very common date, even in GEM, this date is RARE so fine and rarer still in MS67. The present coin has a thick mint frost that leaves a velvet-like texture across the bold surfaces. A dusting of clear gold tone accents the nearly pristine surfaces and sharply struck devices. The eye appeal is excellent.

PCGS 1129, NGC 1586, CAC 337. There are 132 graded MS66+ at PCGS. The most recent example realized \$3,360 in February 2022 and the current PCGS Price Guide value is listed at \$2,400. With just 46 graded MS67 finer, and the PCGS Price Guide value listed at \$10,500, we think this PQ coin is a great value for the collector and expect it will bring a strong bid!

LOT 283

\$1 1923 PCGS MS66+ CAC

WOW! This is such a cool and rare double sided Peace dollar toner! First off, this coin clearly sat in a bank bag in such a way that both sides toned in an arching fashion with rich coppery-red patina with soft accents of violet, gold, and verdant hues blended in. The remaining surfaces are bright, blazing original silver. About 50% of the obverse and 15-20% of the reverse. The strike is sharp, with crisply defined devices. The surfaces are clean and free of distracting marks, as defined by the MS66+ borderline SUPERB grade. The eye appeal is spectacular.

Though a common date, even in this lofty state of preservation, it is RARE with this kind of color, and almost never seen. We suspect our estimate will be exceeded when the hammer falls. Good luck!

LOT 284

\$1 1925 PCGS MS67 CAC

A very pleasing SUPERB GEM! Creamy white luster and stark white in color (only a tiny dot of gold at the 5 in the date can be seen with effort). The surfaces are exemplary with virtually no hints of contact. The broad open fields are amazing, as well as Miss Liberty's cheek and neck. The eye appeal is exceptional in every way.

PCGS 180, NGC 122, CAC 56. PCGS has graded only 15 finer. The most recent example sold for \$8,100 in February 2022 and the average APR for the last 10 PCGS/CAC coins is \$5,842. We think the CAC CPG value and the PCGS value are too low. With so few graded finer, the Set Registry crowd needs to focus on the MS67 grade and this one is stunning!

PCGS# 7365 | EST: \$5,000+

LOT 285

\$1 1925 PCGS MS67+ CAC

For 97 years this coin remained safely tucked away. It has acquired a light natural blush.

The surfaces are amazingly clean, semi-satiny, and have a strong glowing luster. There is a light mix of totally original white/champagne/pale golden brown/lilac colors spread all over. Miss Liberty and the details are frosty and have an exceptional strike. The eye appeal is sensational!

PCGS 195, NGC 134, CAC 56. PCGS has graded 14 in MS67+. A PCGS CAC MS67+ just sold for \$28,800 in August 2021. The current Collectors Universe value is \$30,000. We strongly believe this coin ranks in the top 5% for its grade and superior to most 1925 dollars known. PCGS has graded just a single MS68 finer, a coin that today would likely cost six figures! Don't just take our word on it, see for yourself! Quality like this you can NOT buy at the sheet levels or anywhere nearby. We expect strong bidding on this piece so be prepared!

There are only 13 graded higher at PCGS, and note that a PCGS MS67 CAC has not sold in auction since 2015, back then it sold for \$47,000--today, it would bring \$50,000+. This is a fantastic coin for any high ranking PCGS/CAC Registry Set. Good luck.

\$1 1928 PCGS MS66 CAC

This coin is the ultimate in quality and originality! No question this coin was well preserved since the day it left the Mint!

Remarkable surfaces are smooth and have zero imperfections. We used a strong glass and really looked hard everywhere. A good luster does beam from all over. Both sides are bathed in totally original shades of sea green/pewter gray colors. This is NOT a dull or drab coin. Miss Liberty and the details are exceptionally struck. The eye appeal is excellent!

PCGS 30, NGC 8, CAC 6. Do NOT let the pops fool you. CAC has only beamed a possible 6 coins in MS66. The current CAC CPG value is \$39,600. Our consignor paid close to that to own this coin! If you do not like blast white coins and prefer original toning, this is your dream coin!

LOT 288**\$1 1928-S PCGS MS64+ CAC**

Everything about this near-GEM 28-S Peace dollar screams originality! A robust satin luster gleams in the light accenting the soft dusting of russet-gold and rich pewter-silver patina on the obverse and pale lilac-dove on the reverse. Nicely struck on both sides, the eye appeal is very nice for this conditionally rare date.

PCGS 2396, NGC 1354, CAC 302. PCGS has graded 319 in MS64+. With the rarity of this date in GEM, we believe the MS64 and MS64+ Population figures are inflated by resubmissions. The current PCGS Price Guide value is listed at \$4,000 and the most recent example to sell in auction realized \$3,840 in the 2022 FUN auction. NOTE: the last PCGS/CAC MS65 sold back in the 2018 ANA auction for \$28,800. This borderline GEM seems a great value in comparison and will delight any collector!

LOT 289**\$1 1928-S PCGS MS64+ CAC**

What a SPECTACULAR 28-S! This coin is so neat, we have been enamored with it since it came in the office!

First off, the toning pattern is totally UNIQUE. We have yet to encounter a Peace dollar that looks like this. An elliptical shaped area on the central obverse is totally untoned, flanked by a multicolored, dappled toning that looks like a photo of far off galaxies from the Hubble Space Telescope. The reverse is likewise toned in vibrant splashes of pastel iridescent toning. The stellar eye appeal is further enhanced by ultra clean surfaces and sharply struck devices. This is a truly marvelous beauty that will fit beautifully in any amazing Peace dollar set.

PCGS 2400, NGC 1354, CAC 302. PCGS has graded 320 in MS64+. With the rarity of this date in MS65 or finer (only 74 have ever graded higher at PCGS), we suspect that there is a lot of duplication of this grade on the Population Report. The quality of this coin is much better than most seen and with the UNIQUE eye appeal the APRS and published levels are useless. Good luck.

LOT 290**\$1 1934 PCGS MS65+ CAC**

A sharply struck, PQ GEM that is boldly lustrous and has just the faintest dusting of iridescent russet-gold toning. Oh so close to an even higher grade, we would not be shocked if someone was to try and get a 66 on resubmission (no guarantees).

PCGS 878, NGC 394, CAC 113. PCGS has graded 40 in MS65+. The most recent example to sell brought \$2,640 in November 2021. While the current PCGS Price Guide value is listed at \$900, we think this high end CAC-approved example will sell for a strong bid over that level. Good luck.

PCGS# 7375 | EST: \$1,000+

LOT 291**\$1 1935 PCGS MS66+ CAC**

Truly a sensational, borderline SUPERB example from the final year of this popular silver dollar series. Tied for second highest graded at PCGS, and with NO MS67 approved by CAC, this one is TIED FOR FINEST with a CAC bean!

Intensely brilliant luster beams boldly with a swirling cartwheel brilliance on both sides. Sharply struck devices stand out against the very clean, virtually pristine surfaces. The eye appeal is amazing.

PCGS 395, NGC 94, CAC 121. The most recent examples sold for \$6,600 and \$9,000 in the beginning of this year. The current Collectors Universe value is too low. Any MS67 will cost around \$40,000 or more, and none are endorsed by CAC, so if you demand only the FINEST CAC coins, you cannot overlook this opportunity. Bid accordingly.

PCGS# 7378 | EST: \$6,000+

LOT 292**\$1 1935-S PCGS MS66 CAC**

This is a high end GEM example of this final year of the Peace dollar series. Sharply struck up with bold devices that are illuminated by a rich, frosty brilliance. Both sides have a halo of soft gold patina and the surfaces are ultra clean and smooth, free of distractions.

PCGS 202, NGC 70, CAC 69. The most recent example to sell in auction brought \$4,800 and before that, one sold for \$5,040. Clearly the published levels are both out of touch with the current market and we think this high end coin will bring a strong bid when it crosses the block. RARE any finer!

PCGS# 7379 | EST: \$4,200+

LOT 293**\$1 1935-S PCGS MS66+ CAC**

One of the higher graded pieces at PCGS, this MS66+ 35-S Peace dollar is bested by just three in MS67. CAC has not approved any in MS67, so if you are working on a top tier set with CAC approval, there are NONE FINER.

An impressive blow from the dies gives this PQ GEM, razor sharp, ultra crisp definition to the devices. The obverse is toned in a rich, earthy melange of colors that are boldly brought out by the exceptionally lustrous surfaces. This coin has a similar blush of color at the lower reverse periphery. The eye appeal is wonderful!

PCGS 246, NGC 75, CAC 69. PCGS has graded 44 in MS66+ and PCGS has graded just three finer in MS67, making us believe that there is some duplication in the population figures. The most recent PCGS Price Guide value is MS66+ is \$10,000 and the most recent example to sell realized a very strong \$15,863 in our October 2021 Regency Auction. None of the MS67s have ever sold in auction, but if one did, we would expect a mid-five figure realization when the hammer dropped. For the high ranking CAC Registry Set player, this is an important opportunity not to be missed. Good luck!

LOT 294

\$10 1863 PCGS J-349 PR64 CAM CAC

Legend Rare Coin Auctions is proud and honored to offer this **ABSOLUTELY UNIQUE** Pattern eagle **STRUCK IN GOLD!** This incredible numismatic treasure has a provenance that dates back to the day the coin was struck! This auction is the first time since 1988, over 34 years, that this coin will be made available for sale at auction! This is an opportunity that cannot be missed by any serious collector of U.S. coins. The chance to own a truly unique numismatic item that was produced at the United States mint. While there are many truly rare coins in the U.S. series, few can truly claim the mantle of being **UNIQUE**, and be available for private ownership.

Essentially of GEM quality, graded by PCGS as PR64 CAMEO and approved by CAC, this coin's fields are incredibly reflective and flash boldly from the specially prepared dies. The obverse is nicely toned with speckles of deeper orange-gold patina, over the brilliant golden-yellow color. The design elements are razor sharp in definition and they

have a frosted texture that contrasts boldly against the reflective mirrored fields. Aside from some very minor lines, which account for the PR64 grade assigned by PCGS, the surfaces are remarkably clean and free from any signs of mishandling. The characteristics described allow it to be positively identified as the **ONLY** example known to survive.

Among all the Patterns, Die Trials, and Experimental pieces cataloged by generations of numismatists using Dr. J. Hewitt Judd's numbering system, those struck in gold are often the rarest and most coveted. Many of them are unique and impounded either in institutional museum collections, or in advanced collections that rarely ever make it onto the market. They are the stuff of numismatic dreams. The vast majority of them are so rare that decades may pass between offerings.

During the Civil War, the sheer violence, destruction, and damage caused an upsurge in religiosity, and a lobbying effort led by Rev. Watkinson in Pennsylvania tried to get

the national coinage to recognize God. Starting in 1861, a number of patterns were created featuring the motto GOD OUR TRUST, and later, it was changed to IN GOD WE TRUST, a national motto that to this day appears on American coins and banknotes. Sets of these coins were struck in copper for sale to collectors, and the number of copper strikes known range from 4 to perhaps 15. The gold striking was absolutely unique, and their creation was clearly documented.

Struck by George Eckfeldt on August 2, 1863 along with a single J-351 on a \$10 gold planchet and was delivered to the Chief Coiner Lewis R. Broomall. The obverse die was the regular proof die of 1863, while the reverse of J-349 features the motto "GOD OUR TRUST" in a ribbon in the field above the eagle. The other variety struck that day for Mr. Broomall featured the same motto in the field, without the ribbon.

From Chief Coiner Broomall, this coin went into the Colonel Mendes I. Cohen Collection, which was sold by Edward Cogan in October, 1875, lot 1339 where it sold for \$17. It then went to the Heman Ely Collection, auctioned by W. Elliot Woodward in January 1884, lot 590, and called, "exceedingly rare, the only example that I have ever seen"). Offered again by W. Elliot Woodward in October 1884, lot 1999, described as: "The only one in gold that I have ever seen or heard of." It sold for \$22. From there it entered the famed T. Harrison Garrett Collection, to the Robert Garrett Collection, and finally to the John Work Garrett Collection, which was donated to Johns Hopkins University. The Garrett Family was the owner of the Baltimore and Ohio Railroad and their collection was one of the greatest ever assembled. Johns Hopkins sold this coin in Bowers & Ruddy 's March

1980 auction where it appeared as lot 1088 and it sold for \$57,500. It later appeared in Superior 's January 1988 sale of the A. Bernard Shore Collection, lot 4286, where it sold for \$150,000. Sometime later it was purchased by the same collector who owned the J-452. About a decade ago, the family of that collector reached out to Laura Sperber and she arranged the sale to Bob R. Simpson, where it has remained in the Bob R. Simpson Collection ever since.

PCGS 1, NGC 0, CAC 1. For many, this is a unique opportunity that may not reoccur in their lifetimes! PCGS suggest a value of \$1,250,000 for this treasure, though since you will never be able to acquire another, that level for this museum caliber rarity could easily be exceeded when this coin crosses the auction block.

Pursuant to Mr. Simpson's wishes, we are also offering an example of J-350 with the J-349. Struck in Bronzed Copper from the same pair of dies, and grading PCGS PR66 CAC, this is a wonderful GEM example. Razor sharp devices stand out against smooth and clean mahogany-red/violet tinged surfaces. This pattern is rated as Rarity-6, and this one is tied for FINEST graded. PCGS 3, NGC 0, CAC 1. The last one sold way back in November 2003, so we think the Collectors Universe value of \$7,500 is too low.

This two coin pair is an unbelievable opportunity for any advanced collector and would look great in any cabinet. Whether you collect numismatic trophies, ultra rare Patterns, building the ULTIMATE set of \$10 Eagles, or Civil War era coins, you cannot let this opportunity pass you by!

THE GLORIOUS PATTERN COLLECTION

The Glorious Pattern collector has been a loyal customer of Legend Numismatics for many years. The overwhelming bulk of his collection was purchased through Legend. Now, it is time to pass these coins on to other collectors as retirement looms.

Starting around 2009, the Glorious Pattern collector started assembling his set. Most of his coins were purchased 2010-2016. His goals were simple, buy the best he could afford with the best eye appeal. He studied his coins, he loved his coins, and he was a pleasure to deal with.

Our hope is that we can place his marvelous coins with others who are like minded. A lot of dedication, study, and work went into building this collection. To the new buyers: enjoy!

LOT 295**2C 1836 J-54. PCGS PR65BN CAC**

This is a very high end GEM example of this early pattern 2 cent piece, struck nearly three decades before the odd denomination was authorized for commercial use. Featuring a small eagle standing on a cloud on the obverse and large TWO CENTS inside a wreath on the reverse. Struck in copper with a plain edge, listed as Rarity-6-.

The quality is absolutely SUPER HIGH END! Both sides have superior deep, crystal clear, and amazingly clean mirrors (something you do not see on any 1836 Proof). There are some outrageous hints of GEM ORIGINAL Mint RED. Other colors include original shades of violet/brown/gold. There are no spots. All the lines are on the holder. Every detail is frosty and has a razor-sharp strike. The eye appeal is incredible!

Ex Heritage, January 2011, lot 6554; Legend Numismatics; our consignor.

PCGS 4, NGC 1, CAC 2. The current Collectors Universe value is listed at \$15,000 and the most recent example of this Judd number brought \$12,925 (a PR63 non CAC in June 2017). This coin is FAR FINER and worthy of the FINEST pattern collection! This coin at the very least tied with the Simpson specimen for FINEST KNOWN. Do not let the Rarity number fool you, these really do not appear with any frequency.

LOT 296**50C 1838 J-72. PCGS PR66 CAC**

What a gorgeous coin! The quality is unquestionably SUPER HIGH END. WOW! The classic draped bust design by Christian Gobrecht with a perched eagle on the reverse was created during the transition from the Capped Bust Reeded Edge type to the Seated Liberty design, and it is one of our favorites! Too bad this design was never adopted. Struck in silver with a reeded edge, this is a Rarity-5 pattern, with 31-75 struck.

Outstanding mirrors are deep, have crystal clear clarity, are clean, and have intense reflectivity. Only a few wispy light die polishing lines can be seen with a strong glass. When you twirl the coin, the mirrors have that deeper "watery" like roll. The rims have a deeper mix of reddish gold/pale blue while the centers are a pale gold/silvery mix. The contrast is bold. This coin has never been dipped or messed with. Miss Liberty and the details are needle sharp in strike and have thick frost. The eye appeal really is so spectacular we can't put this coin down! Struck from rotated dies, this coin is aligned in medal, as opposed to coin turn.

Ex A. James Evans Collection, Part II, Heritage, January 2015, lot 4491.

PCGS 4, NGC 2 CAC 1. This coin was graded before PCGS split off the CAM designated coins with PCGS # 390800. Tied with the Simpson coin (NOT CAC) for FINEST in the CAM designation. That coin brought \$16,800 in February 2021. This coin brought \$12,925 in 2015. We can't stress enough the rarity and beauty of this piece. Think about how much a regular 1838 Half would cost in PR66 CAM, at least \$250,000 probably! So how is the Collector Universe value only \$15,000 for this rarity? That is so low! Even if you are not a Pattern collector, you would enjoy owning this SUPERB GEM piece. It is our strong opinion Patterns like this are so UNDER valued. Good luck!

3C 1850 J-125. PCGS PR64+ CAC

A fantastic JEWEL! We love this issue, and this near-GEM is an old friend, last sold in our Regency Auction XXV as part of the Ipswich Collection.

What a gorgeous coin! What a neat design, the obverse borrowed from contemporary Mexican silver coins, with a Liberty cap superimposed on a burst of sunrays. The reverse has a palm branch that forms a wreath around the denomination III. Struck in silver with a plain edge, this variety is considered to be Rarity-4, with an estimated 76-200 struck. The eye appeal is fabulous! A beautiful mix of totally original deep golden brown/pale blue/russet/forest green swirl all over. Every detail is sharply struck and does stand out.

PCGS 16, NGC 7, CAC 8. There are two in PR64+ at PCGS and the other example was the Simpson coin, that brought \$5,760 in February 2021. The current PCGS Price Guide value is listed at \$6,000 and there are only four graded higher at PCGS, none of which have beamed at CAC. This is an important opportunity for the advanced three cent silver collector or someone collecting interesting pattern types. Regardless of what type of collector you are, you will find something to love with this one.

LOT 299

1C 1855 J-168 ORIGINAL. PCGS PR63RB CAC

What a cool near GEM Pattern large cent. Considered to be Rarity-4, this is a very popular issue. These were part of a series of patterns struck starting in 1853 in an attempt to reduce production cost of the ubiquitous large cents struck since 1793. Various design types, compositions, and sizes were struck until 1856 when the mint settled on James Longacre's small sized copper-nickel Flying Eagle cent. The J-168 is a transitional pattern, featuring the flying eagle on the obverse and olive wreath on the reverse. The planchet is somewhat smaller than the traditional large cent, but larger than the adopted design in 1856. Struck in Bronze with a plain edge.

The devices are sharply struck up and the boldness of the eagle's wing feathers makes it really look like it's flying. The surfaces are brilliant, with an almost bronzed finish, rather than mirrored. Violet overtones on the obverse are iridescent, and thick on the reverse.

PCGS 15, NGC 1, CAC 4. The only CAC-approved example sold over six years ago, realizing \$3,760 in the 2016 FUN auction (the market today is stronger). We sold a PCGS PR64 RB CAC for \$4,583 in September 2021. Bound for an advanced Flying Eagle cent collection or specialized collection of these "transitional" cents.

LOT 298

1C 1853 J-150. THIN. PCGS PR65+ CAC

Starting in 1850, the mint began looking for replacements for the cumbersome large cents. Varied experiments in designs, alloys, and sizes were made before settling on the small copper-nickel planchets in 1856. Judd-150 is a VERY RARE, Rarity-7- example of one of these experiments. Struck in German Silver (63% copper, 27% nickel, 9.9% zinc) on a 41.67 grains weight planchet the diameter of a quarter eagle. The obverse is a regular 1853 quarter eagle die, the reverse has ONE CENT in a laurel wreath.

Ultra reflective GEM surfaces are booming and flashing and bold. Sharply struck devices stand out in stark relief to the generally smooth surfaces. The eye appeal is very nice.

Ex Stack's Bowers, March 2011, lot 6003, as PCGS PR64, where it realized \$5,463.

PCGS 2, NGC 2, CAC 1. This is the only PR65+ graded. The most recent example to sell in auction was the Bob Simpson PR63 at \$8,100 in February 2021, clearly the Collectors Universe value of \$6,000 is too low. Good luck.

LOT 300**1C 1858 J-202. PCGS PR65 CAC**

We have seen a few of this copper nickel pattern in our careers, and this coin certainly ranks among the best! Longacre's "Skinny" flying eagle type, is a Rarity-5, 31-75 minted. No question this coin is HIGH END in quality.

Moderate mirrors are super clean and have light reflection. There is an even and NOT dull layer of pale golden-brown toning spread all over. The color is totally original. There is one tiny fleck and otherwise, there are no spots or problems. Every detail is fully struck and stand out. The eye appeal is great-not just in quality but design too!

PCGS 11, NGC 6, CAC 1. PCGS has graded only 2 coins higher. Both are impounded in major collections. The current Collectors Universe value is \$6,000.00. You can't buy a regular GEM Proof 1C 1858 for less than \$20,000.00 (if you could even find one). We feel the value of this Pattern is too cheap. We expect time to correct it.

A spectacular GEM example of the "Skinny Eagle" pattern cent. Struck in copper nickel with a plain edge, this is a Rarity-5 issue with 30-76 struck.

No question this coin is totally ORIGINAL and has NEVER been messed with. Typical for the date, the mirrors are moderate and have a satiny look. There are ZERO impairments anywhere. The color is a beautiful even reddish golden brown. Every detail is lightly frosted and has a needle sharp strike. The eye appeal is fabulous!

PCGS 8, NGC 3, CAC 6. Do NOT be fooled about its rarity. The last PCGS CAC example to sell in auction brought \$9,000 in November 2021. There is a Collectors Universe value of \$9,000. NOTE: A regular 1C 1858 in PCGS/CAC PR65 would WHOLESALE for \$20,000+ today. We purchased this coin from a long time Pattern Collector who in our opinion has one of the best eyes back in 2011. No matter how picky you are, this coin WILL please you!

**LOT 302****1C 1858 J-211. PCGS PR64**

A similar design to the adopted Indian Head cent which began to be struck for circulation the following year. The obverse is that of a regular Indian cent, but dated 1858; the reverse is an oak wreath, without the shield, similar to that issued 1860-1909. Struck in copper nickel with a plain edge, it is a Rarity-4.

Sharply struck with crisp devices. Brilliantly reflective fields have a soft iridescent overtone and a few minor flecks attest to the originality of this near-GEM.

PCGS 29, NGC 20. This is the most recent PCGS PR64 example to sell, realizing \$2,280 in the 2018 FUN auction. The PCGS Price Guide value is \$2,450. Fewer than a dozen are graded finer.

A very distinctive design by James B. Longacre, popularly called the "French Head," features A bust of Liberty wearing a crown of oak and ivy leaves, draped with a ribbon inscribed LIBERTY around the neck. The reverse wreath, a larger version of what appeared on the Seated Liberty dimes starting in 1860 frames a large 1/2 DOLLAR. These half dollar patterns, struck in silver with a reeded edge, were struck in some quantity, as these are listed as Rarity-4.

Flashy, boldly reflective fields have a luscious watery finish.

Splashes of original patina on both sides attest to the totally original look of this GEM. The eye appeal is bold and very high end.

PCGS 5, NGC 5, CAC 4. The last example to sell was the ex Eliasberg coin that brought \$3,290 in June 2016. The current PCGS Price Guide value is listed at \$3,750. There are none graded higher at PCGS, this lovely coin is perfect for a Pattern "type". This scarcity is at a price point that fits the budget of most serious coin collectors. BOOMING intense mirrors beam boldly all over on this magnificent GEM. The devices are razor sharp and thick with a creamy, white frost. The fields are very clean, dusted with some original iridescent toning on both sides, with subtle blue and rose hues really popping in the light. The eye appeal is off the charts! WOW!

Struck on a bronzed copper planchet with a reeded edge, this is a Rarity-6- pattern issue from the Civil War era.

Brilliant reflective fields are gleaming from below a layer of iridescent violet and blue patina. The surfaces are smooth and free of any post mint flaws, there is a tiny planchet flake on the lower reverse that will help identify this piece as the Richard Jewell coin.

This is an amazing SUPER HIGH END coin! Keep in mind, not all copper coins that are 158 years old in proof look anywhere near as good as this piece. This is an R-7 die trial (4-12 minted) that was struck from regular dies.

Outstanding mirrors beam vividly from all over. The mirrors display bold clarity, cleanliness, and are highly reflective. When you twirl the coin, the mirrors look like a freshly made sheet of glass. Both sides enjoy a gorgeous totally original mix of lots of GEM Mint Red, splashes of olive/pale brown colors. There are NO spots. Miss Liberty and the details are sharply struck and display light frost.

PCGS 2, NGC 0, CAC 1. PCGS has possibly graded 3 PR 65's better. The current Collectors Universe value is \$2,750. We cannot stress enough the extreme great value this coin represents. Its also a Civil War era date as well. We've handled more patterns than any living dealer, hard to believe this is a date we NEVER see. A sensational GEM Mint State pattern Indian Head cent, struck on a nickel alloy planchet using the regular Plain 5 dies. Considered to be Rarity-6-, with perhaps 21-30 struck. Housed in a first generation PCGS "Rattler" holder and bearing an Eagle Eye Photo Seal.

Boldly lustrous and totally original, this is a well struck GEM example. The surfaces have a hint of reflective texture to their brilliance. The eye appeal is excellent.

PCGS 2, NGC 2. This coin sold in the 2016 ANA auction, nearly six years ago for \$3,525. The market then was much weaker than it is today. Unpriced in the PCGS Price Guide. PCGS has graded just a single example finer. Worthy of the FINEST Indian Head cent cabinet or collection of pattern cents. Bid accordingly!

An incredibly RARE die trial, struck in nickel from the regular business strike dies in nickel with a plain edge. Considered to be Rarity-7+ with perhaps as many as 6 struck. Though the Population figures are slightly higher, we suspect there is some duplication. Fully lustrous nickel gray surfaces show off accents of soft gold when rotated in a light. Sharply struck from lightly clashed dies, the eye appeal is very high end. There are no serious flecks found anywhere.

PCGS 4, NGC 0, CAC 1. Sold long ago to our consignor by our sister firm, Legend Numismatics. There was a non-CAC example sold in the 2014 ANA auction for \$12,925 and the current PCGS Price Guide value is listed at \$14,000. There is probably only one coin graded higher, the MS66+ CAC that sold in the 2021 FUN auction as part of the Bob R. Simpson Collection. A sensational and HIGH END GEM example of this "transitional" Seated Liberty silver dollar. Struck from regular 1865 obverse and the with Motto reverse ca. 1866 and later. Considered to be Rarity-7+ with just 4-6 examples known. We cannot over describe this coin's SUPER HIGH-END quality!

The mirrors are super deep and have bold clarity. There are NO disturbances anywhere. The reflectivity is powerful; when you twirl the coin there is a strong "watery" roll of the mirrors. Both sides are blanketed by a moderate, original swirling mix of totally original deep champagne/pale purple/silver colors. Miss Liberty and the details are sharply struck and do have thick creamy frost. The eye appeal is awesome!

PCGS 1, NGC 0, CAC 1. There is a PR66 in the Simpson Collection. A PR65 (possibly the Simpson 66 now) sold via auction for \$51,750.00 05/2003. A real GEM Shield nickel pattern. The obverse is similar to the adopted design, but with an ornamental ball at the base of the shield that divides the date, the reverse has a large "Dutch" 5 within an olive branch wreath. Struck in copper with a plain edge, this is a low Rarity-7 (7-12 struck) pattern.

Absolutely gorgeous, the totally original surfaces have a bold mirrored reflection under a layer of glorious iridescent toning. The sharply struck motifs stand out boldly and the obverse there is an almost cameo-like contrast. A fabulous example, one of the FINEST KNOWN-- PCGS has graded just two finer! Ex. Obverse bust of Liberty facing left, similar to 3 cent nickel, but with a star on the coronet; reverse large 5 within wreath, IN GOD WE TRUST above. Struck in nickel with a plain edge.

Deeply reflective nickel silver surfaces gleam all over on both sides. The devices are sharply struck and have a warm frost that contrasts nicely against the fields. A delightful original patina can be seen when rotated in the light. Sharply struck the eye appeal is great.

PCGS 1, NGC 1, CAC 1. This coin does not appear to have sold in auction, but the NGC PR66 CAM last sold in February 2015 for \$4,113. Clearly the Collectors Universe value is inaccurate. Reverse die has a large 5 above small CENTS in a laurel wreath with a tiny IN GOD WE TRUST above. Struck in nickel with a plain edge, this Rarity-6- pattern is struck on a narrow planchet.

Light golden iridescent toning is dusted over the boldly reflective fields and frosted devices. The reverse shows some natural, as made, planchet flakes that identify this piece, but have little impact on the grade or eye appeal.

A very challenging and popular Pattern half dime. Considered to be Rarity-7- (7-12 minted) this Judd number pairs Barber's Seated Liberty obverse with the regular Proof die. Struck in copper with a plain edge.

The present GEM is bold, flashy and glitters boldly on both sides. A hint of original red frame the legends, melting into even soft brown with lilac overtones on the obverse and the reverse has a blast of neon-blue at the peripheries. The eye appeal is stunning!

PCGS 2, NGC 1, CAC 2. The other PCGS/CAC example is the Simpson coin, which is no where close to as attractive as this GEM and it sold for \$3,120 in the 2021 ANA auction. This coin should sell for closer to the PCGS Price Guide value of \$4,300. How is it that a coin this rare can trade for only a relatively small premium over what a regular issue Proof 1870 half dime would bring? These are such great values.

A perfect, "entry level" pattern issue, this CHOICE Brilliant Proof Standard Silver pattern dime is nearly a Cameo example. This design features Liberty's bust right with a coronet, with no stars. Struck in silver with a reeded edge, J-843 is a Rarity-6-pattern issue with approximately 21-30 minted.

An interesting example to view with a glass, the fields have a neat orange-peel texture and heavy die lines on the reverse. The fields are the epitome of chrome-like reflection. The devices are sharp, fully frosted and have a very cool contrast. Virtually untuned, we feel this coin is undergraded (no guarantees).

Ex Denali Collection, as noted on the insert.

You do not get much rarer than the presently offered Standard Silver pattern. Listed as Rarity-8 in the Judd reference (10th Edition, 2009) and described as Rarity-7+ in other sources, the only other PCGS-graded example to ever sell was the PR64+ BN ex Simpson coin. Barber's capped bust of Liberty with ribbon inscribed LIBERTY. Two stars. IN GOD WE TRUST on ribbon below. STANDARD 50 CENTS in agricultural wreath. Struck in copper with a plain edge, there are perhaps five known in all. Deeply toned copper surfaces are nearly flawless. There are no serious marks or lines, a couple of toning flecks will forever identify this GEM. Among the FINEST of just a handful known.

PCGS 1, NGC 0, CAC 1. The Simpson coin, which was ex. Queller/Leums, brought \$5,640 in our May 2017 Regency Auction. The current Collectors Universe value is listed at \$8,000. An important opportunity for the advanced collector.

LOT 325**H10C 1871 J-1066. PCGS PR67 RB CAC**

Ex Eric P. Newman Collection, as noted on the insert.

This is one of the FINEST KNOWN examples of the Longacre/Barber Seated Indian Princess Standard Silver half dimes. While the Standard Silver series is mostly associated with William Barber's designs, the Seated Indian Princess designs were created by James Longacre before he died. Struck in copper with a reeded edge, this issue is considered Rarity-7- with 7-12 thought to have been struck.

Ultra high end everything! From the highly reflective mirrors to to the near Cameo contrast that pops at certain angles this coin has it all. The surfaces are mostly original mint RED and we really do not see any "brown" just splashes of iridescent violet and blue tones that really add to the amazing and seductive visual effect.

PCGS 1, NGC 1, CAC 2. We think the data represents this one coin (the old NGC Newman insert is included). This coin sold nine years ago as part of the first offering of coins from the Eric Newman Collection at \$5,288 and the current Collectors Universe value is listed at \$7,500. FINER than the Simpson coin, which was graded PCGS PR66+ RB and the ex Bass Coin, which is PCGS PR66 BN CAC. We expect very strong bidding for this amazing little jewel. Good luck.

LOT 326**20C 1874 J-1356. PCGS PR65 CAC**

Ex Bass/ANA Museum Collection, as noted on the insert.

A stunning GEM CAMEO Proof 20C pattern, featuring J.A. Bailly's Seated Liberty design. Liberty sits facing left, holding a pole surmounted by a liberty cap. She supports a globe and is flanked by wheat, tobacco, and bales of cotton. The reverse is as adopted in 1875 for the regular issue 20C piece. Struck in aluminum with a plain edge. Considered to be a Rarity-7+, with 4-6 struck.

One look and you know this is a very special pattern. It is as GEM ORIGINAL as you will ever see for an aluminum pattern. The mirrors are deep, clean, and have powerful reflectivity. There is a slight natural frost in the fields-as struck. There are NO spots. Miss Liberty and the details are sharply struck and boldly stand out. The eye appeal is memorable!

PCGS 1, NGC 0, CAC 1. The most recent example of this VERY RARE J-1356 was the E. Horatio Morgan coin (ex Bowers & Merena September 1988), a first generation PCGS encapsulated example without CAC approval brought \$15,600 in the 2019 ANA auction (that coin had some minor environmental issues, typical of aluminum planchets). This high end GEM has only been offered once since Harry Bass bought it in 1974! Do not miss this opportunity!

LOT 327**20C 1875 J-1392. PCGS PR65 CAC**

Ex Eliasberg-Simpson Collection, as noted on the insert. The 10th Edition Judd plate coin.

An important GEM 20 cent pattern issue, with a pedigree that goes back to the turn of the 20th century. William Barber's "Sailor Head" obverse is mated with a reverse with a union shield with a large incuse 20 in the center. Arrows and olive branches flank it, topped by a spray of rays. Struck in silver with a plain edge, this is a low Rarity-6 issue.

Deeply and beautifully toned, a classic Eliasberg look. Richly reflective, watery mirrors highlight the splashes of slate blue and orange-rose-gold. The surfaces are GEM quality and the devices are sharply struck.

A VERY RARE, Rarity-7+ pattern twenty cent piece, struck in aluminum with a plain edge, this issue has the famed Liberty by the Seashore design on the obverse and 1/5 of a DOLLAR in a wreath on the reverse. Perhaps as many as four examples are known of this VERY RARE issue.

Intensely reflective mirrors beam all over on this boldly contrasted GEM. The details are sharply rendered and have thick, full frost, imparting a bold CAMEO effect. The eye appeal is amazing.

PCGS 1, NGC 0, CAC 1. This coin sold exactly a decade ago, in the 2012 Central States Auction for a record \$13,225. The current Collectors Universe value is listed at \$15,000 and in today's market, we think it could bring more. A sensational rarity that will fit nicely in an advanced set of 20-cent pieces. Good luck.

Another GLORIOUS Liberty by the Seashore 20-cent piece. This one, struck in copper with a plain edge, has a large 20 CENTS within a wreath, UNITED STATES OF AMERICA around. Struck in copper with a plain edge, this beautiful GEM pattern 20 cent piece is considered to be Rarity-6+ with perhaps 13-20 struck.

Tied for FINEST in the RB category, this GEM has been off the market for nearly a decade. Flashy, brilliant mirrors beam boldly all over. The fields are nearly flawless and of full GEM quality. A light overtone of violet and blue add depth to the ample original RED surfaces. WOW! The eye appeal is amazing.

PCGS 3, NGC 1, CAC 2. This is the most recent example to sell in auction selling in the 2013 FUN Auction. The current PCGS Price Guide value is listed at \$15,000. No example has yet to appear in any of the sessions of the Bob Simpson Collection. This is an important opportunity for anyone working on a collection of patterns that should not be missed. We love this coin and you will too!

LOT 330**\$5 1878 J-1574. PCGS PR66RB CAC**

A spectacular pattern \$5 gold piece struck in copper. WOW. William Barber's flowing hair Liberty head, similar to that on the 1879 and 1880 Flowing Hair Stella \$4 gold pieces, E PLURIBUS UNUM around a large, perched eagle grasps arrows and an olive branch in its talons. Struck on a large diameter planchet. This is a Rarity-6+ pattern with perhaps as many as 20 estimated struck. Today, the combined populations between PCGS and NGC in all grades and designations is 12; this piece is so cool and tied for FINEST graded in the RB category.

Ultra flashy copper fields have a bold reflection and deep mirrors. The original RED is fiery and intense with just a dusting of violet-azure that is gracefully dusted on the surfaces. The devices show precision details, fully struck up and with full definition from an exacting blow. Nearly FLAWLESS, there is a tiny mark under the talons on the reverse and a tiny fleck or two seen with the aid of a strong glass. The eye appeal is truly amazing!

This piece is an Rarity-6+ (13-31 minted) pattern Morgan Dime, struck in copper with a reeded edge. PCGS did it no favors grading it only a PR66! This is yet another SUPER HIGH-END GEM from the Glorious Pattern Collection.

Our sister firm purchased this coin from the fresh estate of a long time dealer; when they placed it with the customer, it had been off the market for 30+ years. The coin's freshness and quality are unrivaled!

Both sides have out of this world mirrors. They are crystal clear, have ZERO imperfections, and offer amazing reflectivity. The color is a 100% ORIGINAL GEM BRILLIANT MINT RED! We have not seen another coin like it. Typically, these (this design Type) come more dull red to RB. Miss Liberty and the details are fully struck and do clearly have thick creamy frost. Your eyeballs will jump out when they see this mind-boggling GEM!

PCGS 1, NGC 1, CAC 1. The Newman-Simpson 66+ Cameo sold for \$14,400 January 2021. THIS COIN IS NICER THEN THE SIMPSON COIN! We should know. We doubt any others out there look as wild or are as ULTRA HIGH END as this coin does! If you seek one for a Type set or a major Pattern collection, this coin will be your superstar! It is also one of the Glorious Pattern Collectors favorite coins, and we think it will one of yours too! Good luck.

What a great design that never was. A Morgan Head on a 25C-WOW. The famous Morgan head of Liberty with E PLURIBUS UNUM surrounding with 13 stars spaced at intervals between the words. Skinny, perched eagle on the reverse with IN GOD WE TRUST in small letters below. Struck in silver with a reeded edge, this is a VERY RARE Rarity-7- quarter.

This specimen displays extreme deep mirrors that beam all over. They are ultra clan, have excellent clarity, and are intensely reflective. When you twirl the coin, the mirrors have that intense "rolling liquid mercury" look. A very faint hint of gold can be seen and does not take away from the bold contrast. Miss Liberty and the details are thickly frosted and have full strikes. The eye appeal is gorgeous!

LOT 333**\$1 1879 J-1617. PCGS PR62**

A true collector grade GOLOID dollar. Coronet head of Liberty, similar to that on the \$50 pattern Half Unions by Barber. Reverse: Goloid composition in beaded frame within agricultural wreath. GLORIA EST DEO in cartouche above. Struck in goloid with a reeded edge. A Rarity-4, with 76-200 struck.

Goloid was a silver/gold alloy that was developed in an attempt to create a metric based international coinage. Nicely struck devices sit on moderately reflective surfaces. Some light lines account for the grade, but the eye appeal is quite nice for the grade. Tinges of iridescent toning at the rims frame both sides, giving it a bold look.

PCGS 33, NGC 15. The most recent example brought \$2,520 in November 2021 and the current PCGS Price Guide value is \$3,000. A great pattern dollar for the beginning collector!

A splendid borderline SUPERB Metric Dollar Pattern! William Barber's head of Liberty wearing a cap and crown of wheat, cotton, and corn with a band inscribed LIBERTY. E PLURIBUS UNUM, stars, and date surround. Reverse shows the GOLOID composition, of gold, silver, copper, and weight. Struck in copper with a reeded edge, this is a challenging Rarity-6+ issue that is closely related to the 1879/1880 Stella and Quintuple Stella issues.

A fabulous GEM! Icy reflective mirrors are bold, flashy and vivid. The surfaces are incredibly smooth, nearly pristine, with a gorgeous palette of red and violet patina. The eye appeal is amazing. Ex Heritage, April 2013, lot 5359.

PCGS 5, NGC 2, CAC 3. This GEM brought \$8,813 nearly a decade ago. More recently an NGC/CAC PR66 RB sold for \$11,750 in April 2017. The current PCGS Price Guide is \$11,000 and as one of the FINEST KNOWN examples, this is a SUPERB survivor; just the Simpson coin PCGS PR66+ RD and the Newman NGC PR67 RD CAC are finer. E PLURIBUS UNUM, the date, and stars surround. The reverse has a large 5 over small CENTS within a bent olive branch that forms a wreath.

Flashy and bold. For an aluminum coin, the surfaces are seriously impeccable. Typically aluminum crumbles or become granular-not here though! The flash from the superior deep mirrors is unusually strong as well. Every detail is needle sharp in strike. We do rank this coin as GEM SUPERB! It also has one of the BEST eye appeals for this Type we have ever seen. If you are a strong pattern collector, this is a coin you need to see and strongly consider! A strong glass reveals nothing but a micro-tick or two, noted here only for the sake of full disclosure. The eye appeal is unimpeachable.

PCGS 122, NGC 89, CAC 28. There are 15 graded MS67+ and a SINGLE MS68 has ever graded finer. The most recent example to sell in auction realized \$3,600 in a November 2021 sale and the current Collectors Universe value is listed at \$3,850. Keep in mind that the MS68, should it appear any time soon in auction, would most likely sell in excess of \$20,000. We think this SUPERB GEM presents a fantastic opportunity for the Registry Set crowd. Good luck.

**LOT 352****G\$1 1917 MCKINLEY. PCGS MS67+ CAC**

Tied for FINEST GRADED at PCGS, and a MUST HAVE for anyone working on a top flight set! Not only does this coin more than merit the high grade assigned by PCGS, but its visual allure is high end as well. Hints of pink iridescence accents the frosty golden coloration and is brought out by the satiny sheen of the luster. Sharply struck and essentially PRISTINE, this beauty has it all!

PCGS 106, NGC 60, CAC 20. There are just 16 graded MS67+ at PCGS and NONE FINER at that service. The most recent sold for \$4,000 in May 2020--that was nearly two years ago. The most recent one we sold was nearly three years ago. The current PCGS Price Guide value is \$5,350. With NONE FINER, if you need to upgrade your set, you will not find a higher grade coin. We expect this coin to set a very strong APR when the hammer drops.

PCGS# 7455 | EST: \$4,200+

LOT 353**G\$1 1922 GRANT, NO STAR. PCGS MS67+ CAC**

With just one MS68 graded finer, this magnificent SUPERB GEM belongs in a top ranked PCGS Registry Set of Classic Gold Commemoratives!

Impeccable quality comes to the fore in every aspect, from the technical quality to the stunning visual appeal. Shimmering golden surfaces glimmer with a bold satiny glow. Every detail is rendered to their fullest, the result of an exacting blow from the dies. Totally original, there is a hidden toning spot in the details of the log cabin on the reverse. The surfaces are essentially flawless and the quality is all there and then some!

PCGS 196, NGC 138, CAC 75. The current PCGS Population in MS67+ is 17, with just a single MS68 finer. The last one sold in February 2021 for \$7,800 and the current Collectors Universe value is listed at \$8,500 and should the single MS68 come up for sale, it would likely sell in excess of \$20,000. Good luck!

PCGS# 7458 | EST: \$7,000+

LOT 354**G\$1 1922 GRANT WITH STAR. NGC MS65 CAC**

Only 5,016 examples were struck, and this one is a very well produced, beautifully preserved, very attractive GEM survivor. Rich golden patina is brought out by a rich frosty luster. The eye appeal is amazing for the grade.

PCGS 568, NGC 333, CAC 76. The Collectors Universe value is listed at \$1,800 and the CAC CPG value is \$2,300; and we think this GEM could easily bring that or more.

PCGS# 7459 | EST: \$1,500+

LOT 355**G\$1 1922 GRANT. WITH STAR. PCGS MS67+ CAC**

Essentially PERFECT! What a marvelous SUPERB GEM Grant with Star gold dollar. Of the 5,016 examples struck, this one ranks as tied for second highest graded by PCGS.

Wonderful, velvet-like luster shimmers boldly on both sides. Virtually flawless fields betray nary a mark or toning dot, visible only under the aid of a very powerful loupe. The devices are crisply rendered by an exacting blow from the dies. The eye appeal is totally original and high end.

PCGS 296, NGC 141, CAC 103. PCGS has graded 27 in MS67+ and 10 finer in MS68. We have no doubt that these figures include duplicate submissions of the same coin. The most recent example sold for \$7,500 in March 2021. This wonderful coin is bound for a top tier set, and note only a single coin has been beamed by CAC finer. Good luck.

**\$2.50 1915-S PANAMA-PACIFIC.
PCGS MS66 CAC**

One of the most popular early commemoratives, the Panama-Pacific Expo quarter eagle saw a mintage of only 6,749 and PQ GEMS such as the presently offered PCGS MS66 CAC is truly scarce.

Satiny, soft golden yellow surfaces boast a rich frosted luster. The devices are sharply struck and the surfaces are clean, free of all but the most insignificant tiny tick or two. The eye appeal is great.

PCGS 468, NGC 535, CAC 210. The three most recent PCGS/CAC examples sold in the \$5,160 to \$6,900 from November 2020 to November 2021. The PCGS Price Guide value is listed at \$5,600 and the CAC CPG value is listed at \$6,250. Quite scarce finer, this PQ GEM is a great coin for the pickiest of collectors. Good luck.

**\$2.50 1915-S PANAMA-PACIFIC.
NGC MS67**

What a fabulous SUPERB GEM example! The Pan Pac quarter eagle is an extremely popular gold commemorative, with a wonderful allegorical design that is totally unique in the entire U.S. series.

A frosty, satiny sheen glows with a brilliant yellow-gold vibrance. The design elements, among the most beautiful of the commemorative series, are well struck. The eye appeal is excellent.

PCGS 64, NGC 163. The most recent NGC MS67 to sell realized \$10,200 in November 2021. The current Collectors Universe value is listed at \$9,000. Just ten coins have graded finer at NGC, making this one a fantastic coin for a sensational set. Bid accordingly.

PCGS# 7450 | EST: \$7,000+

LOT 358**\$2.50 1926 SESQUICENTENNIAL. PCGS MS66**

A sleek and pleasing GEM example of this early Gold Commemorative. Sharply struck devices stand out boldly against satiny brilliant surfaces. The surfaces are clean and free of serious marks of any kind and the original gold color is a delight.

PCGS 198, NGC 110. The most recent MS66 to sell was an NGC-graded piece in October 2021 for \$8,400; the last PCGS graded coin brought \$4,560 in April 2021. The current Collectors Universe value is listed at \$4,500 and we think this coin will bring a strong bid, and could surpass that level when the hammer finally falls. Just 20 are graded finer at PCGS, making this the highest grade accessible to most collectors and bound for a nice set of gold Commemoratives.

PCGS# 7466 | EST: \$4,000+

**LOT 359****\$2.50 1926 SESQUICENTENNIAL. PCGS MS66+ CAC**

With just a single PCGS MS67 example graded higher, this gorgeous MS66+ is about as high a grade coin as anyone collecting this series could ever hope to acquire, especially if CAC-approval is demanded, as this one is tied for finest seen at that service.

Ultra brilliant yellow-gold surfaces shimmer and gleam with a wonderful mint luster. The strike is full, crisp, and complete on both sides. While a strong glass reveals a few microscopic ticks, these are mostly hidden and having little to no impact on the outstanding visual allure.

PCGS 216, NGC 112, CAC 21. There are 19 graded in MS66+ at PCGS and there is just a single MS67 graded higher. The most recent PCGS/CAC example sold in March 2021 for \$10,800 and the current Collectors Universe value is listed at \$12,500. NOTE: the single MS68 graded higher last sold in auction 22 years ago--think about that--there are some dealers walking the bourse floor who were not yet born the last time the PCGS MS67 sold! WOW! Bid accordingly!

PCGS# 7466 | EST: \$10,000+

**LOT 360****G\$1 1849 CLOSED WREATH. PCGS MS63**

A lovely and totally original CHOICE example from the first year of issue of this denomination. Boldly impressed from an exacting strike. Nice satiny luster accents the crisply defined devices imparting a nice visual appeal.

PCGS 78, NGC 58. The current Collectors Universe value is listed at \$1,250 and the most recent sold in July 2021 for \$1,033. A wonderful CHOICE example of this first year of issue.

PCGS# 7503 | EST: \$1,000+

LOT 361**G\$1 1854 TYPE 2. PCGS MS64**

Struck for only three years, the Type II gold dollar is a somewhat challenging series in high grade. GEM examples are rare, so MS64 examples are as fine a grade as most collectors will go for.

The strike is quite sharp on this one, devoid of serious clashing and there is just some minor doubling on the reverse. The devices are crisp and frosty. The color is brilliant golden yellow with tangerine-rose accents all over. The eye appeal is excellent.

PCGS 215, NGC 166. The current PCGS Price Guide value is listed at \$9,600 and the most recent PCGS MS64 coin to sell brought \$6,490. Keep in mind, any PCGS MS65 will bring over \$20,000 in today's market, so PQ and attractive MS64s are always in strong demand.

PCGS# 7531 | EST: \$7,000+

LOT 362**G\$1 1852 PCGS MS64 CAC**

Pleasing and PQ for the grade, the strike is crisp and complete, the surfaces satiny with a medium gold frost, and the eye appeal is nice overall.

PCGS 272, NGC 322, CAC 50. The most recent example sold for \$1,100 in January 2022 and the CAC CPG value is listed at \$1,360. VERY SCARCE in GEM, and RARE finer with CAC approval, this is a pleasing collector oriented coin.

PCGS# 7517 | EST: \$1,000+

LOT 363

G\$1 1856-S PCGS MS64+ CAC S.S.C.A.

A sensational example of this VERY RARE gold dollar, a stunning near-GEM ranked among the FINEST KNOWN, and boasting the famed S.S. Central America Shipwreck provenance! WOW! Only 24,600 were struck, most of which went into circulation. The recovery of the S.S. Central America added a few new members to the Condition Census, including this marvelous borderline-GEM.

The surfaces are pretty clean overall. Just a few frost breaks/light ticks that you need a glass to see are detectable. A surprising die crack is on the right obverse. Overall, the surfaces appear satiny smooth and the luster is bold and glowing. Both sides are a brilliant yellow gold color. Remarkably, Miss Liberty and all of the details are pinpoint sharp in strike. The eye appeal is tremendous!

PCGS has graded a total of 6 in MS64 and MS64+, NGC 3, CAC 6. This is one of two in MS64+ at PCGS, and there is just a single MS65+ graded finer. This coin sold back in May 2019 for a record \$88,125 in our Regency Auction 32. The current PCGS Price Guide value is listed at \$92,500. The only one finer would cost you well into six figures (we are talking \$175,000.00 ++). How often can you buy one of the very finest coins that is also from a genuine historical treasure ship? If you are building a real top set, this coin belongs in it! No question this is a once in a lifetime opportunity.

PCGS# 670730 | EST: \$80,000+

LOT 364**G\$1 1880 PCGS MS68 CAC**

A MONSTER! This coin is so PQ, we are shocked PCGS did not "+" it (no guarantees, but WOW!!!). This coin is so beautifully preserved, we just marvel at how such a tiny piece could survive in all these years in such a PRISTINE and lofty grade. Only 1,600 examples were struck for circulation and while a few MS68s have been graded by the services, we believe the Population data is inflated by resubmissions trying for a 68+ or 69. Again, it would not shock us at all if one day this coin ended up in a 68+ holder (again no guarantees).

Glorious fields are FLAWLESS. Even with the aid of a strong glass you will have a hard time finding even the most minute, microscopic fleck anywhere. The devices show RAZOR sharp definition. The surfaces are extremely lustrous with flashy, semi-Prooflike reflection under a bold cartwheel brilliance. The surfaces have a delightful two-tone gold coloration that is original and quite eye catching!

PCGS 26, NGC 27, CAC 24. This coin is nicer than most we have encountered, and it brought \$18,000 in April 2021. The current PCGS Price Guide value is \$18,000 but again, with its exceptional eye appeal, we would not be shocked if it sold for more. Bound for an AMAZING gold type set or collection of gold dollars. Bidding will be fierce!

PCGS# 7581 | EST: \$15,000+

LOT 365**G\$1 1882 PCGS PR66 DCAM**

This a FABULOUS borderline SUPERB GEM Proof with the boldest cameo contrast! A very beautiful example of the type and VERY RARE any finer than the present example.

Deep beaming mirrors are the epitome cleanliness and clarity. The fields have a fantastic orange-peel texture that comes to the fore with the aid of a glass. The devices are thickly frosted and stand out in stark contrast that seems to float right off the mirrored fields. The eye appeal is sensational in every way! WOW, this GEM is truly amazing!

Only 125 Proofs were struck. PCGS 8, NGC 7. None have sold since June 2016--that was nearly six years ago and in a much weaker market. The current Collectors Universe value is listed at \$24,000. PCGS has graded just four finer in the DCAM category. What a fantastic opportunity to acquire a very RARE GEM Proof!

PCGS# 97632 | EST: \$15,000+

LOT 366**\$2.50 1849-D PCGS AU53 CAC**

A "SUPERB GEM" AU type of coin, this 49-D is totally original and ultra high end for the AU53 grade. We feel PCGS showed no mercy when they graded this coin! Only 10,945 were struck and these disappeared into circulation. Very few examples survive finer than this AU53 in PCGS holders, and reviewing the Population data, we feel there is a lot of duplication. PCGS Coin Facts estimates 150 exist in all grades, mostly lower grade than the presently offered 53.

Well struck in the centers though soft at the rims and dentils, as often seen for the date. A soft luster glows under the totally original, rich orange-gold patina. There are a few microscopic ticks (really minor) that are seen with the aid of a strong glass. The eye appeal is very nice for this issue that rarely comes nice.

PCGS 25, NGC 15, CAC 4. No PCGS/CAC example has ever sold in auction. An NGC/CAC coin sold in the 2022 FUN auction for \$5,280. Disregard the price guides and old, obsolete APRs for non-CAC coins this coin will attract strong bidding from the southern gold specialist. Good luck.

PCGS# 7754 | EST: \$5,000+

LOT 367**\$2.50 1851 PCGS MS64+ CAC**

Despite its large mintage and general availability in lower Mint State grades, this gorgeous and FRESH near-GEM is among the top ten highest graded by PCGS. Impressive, yellow gold with deeper tinges of orange and rose patina grace the satiny lustrous brilliance on both sides. Sharply struck, and very clean, this coin is a really high end example, essentially of full GEM quality.

PCGS 57, NGC 34, CAC 14. There are just 3 in MS64+ and nine finer. This coin has been off the market for a decade, and is the only 64+ to sell in auction. The PCGS Price Guide value is listed at \$4,000 and it doubles in MS65. We anticipate VERY STRONG BIDDING.

PCGS# 7759 | EST: \$4,000+

LOT 368

\$2.50 1856-S PCGS MS65+ CAC S.S.C.A.

This is an incredible, MONSTER GEM 1856-S quarter eagle one of the FINEST KNOWN of the date! When you see this coin, you will wonder how it remained so SUPERB underwater for well over 160 years. It does not look messed with at all. We fully concur with the + designation. This coin is closer to an MS66 than an MS65!

Outstanding surfaces are surprisingly clean and smooth. The surfaces have a full satiny texture. Save for a frost break, we used a strong glass to go over the surfaces and were only more impressed by the coin. A full booming luster beams vividly from all over. Both sides are a lighter gold color. There are NO spots or discolorations anywhere. Miss Liberty and the details are frosty and fully struck. The eye appeal is terrific!

From the S.S. Central America Second Recovery, PCGS 2, NGC 0, CAC 1. For the date, this is the second finest known. This coin has extreme quality and the history of being in a legit treasure ship wreck. This coin offers tremendous opportunity today. We can see this as a potential six figure coin in the next few years!

A richly toned golden-orange patinated VERY CHOICE example of the date. Generally well struck and clean, the eye appeal is wonderful.

PCGS 199, NGC 137, CAC 52. The most recent MS64 with CAC approval was an NGC-graded coin that brought \$974 in November 2021. The current PCGS Price Guide value is listed at \$1,000 and the CAC CPG value is \$1,020. Quite scarce any finer.

PCGS# 7828 | EST: \$800+

LOT 370
\$2.50 1891 PCGS MS64 CAC

A low mintage and conditionally challenging date. Only 10,960 were struck, and in GEM this date is very rare indeed, making a lovely MS64 as offered here a great coin for the collector putting together a late date set. Bold satiny mint luster glows vividly on both sides, accenting a pinkish-hue. Sharply struck and fresh, this coin was consigned raw and has been submitted to PCGS and CAC just once.

PCGS 46, NGC 32, CAC 12. The current PCGS Price Guide value is listed at \$3,500 and the most recent sold for \$3,360 in November 2021. Only 17 are graded finer. Bid accordingly.

\$2.5 1901 PCGS MS65 GOLD CAC OGH

This is just an ideal GEM 1901 quarter eagle. Graded ages ago, and housed in a PCGS "rattler" holder and boasting a GOLD CAC sticker, this satiny frosty beauty has a bold, original look. Sharply struck and very smooth, it is easy to see how undergraded this coin is.

PCGS 261, NGC 217, CAC GOLD 1. Go ahead and ignore the price guide values, as the ONLY GEM 1901 quarter eagle to earn a CAC Gold Bean, we have no doubt our estimate will prove ultra conservative. Good luck.

PCGS# 7853 | EST: \$1,500+

LOT 372
\$2.50 1901 PCGS MS66 CAC

A lovely original PQ GEM. Sharply struck and velvety brilliant satin luster, the eye appeal is very bold.

PCGS 133, NGC 110, CAC 42. It has been over three years since the last PCGS/CAC example sold in auction. The current PCGS Price Guide value is \$2,000 and the CAC CPG is \$1,940. Quite scarce any finer, and worthy of a lovely GEM type set or short set of Liberty Head \$2.50 gold.

PCGS# 7853 | EST: \$1,250+

LOT 373**\$2.50 1907 NGC MS66 CAC**

We love the look of this PQ GEM quarter eagle! A thick and satiny mint brilliance glows with fabulous two-tone golden coloration. The surfaces are super clean and smooth for the grade, its quality exceptional for the assigned grade. Well struck and frosty devices, along with the luster and original color gives this nearly SUPERB GEM a stunning look.

PCGS 477, NGC 442, CAC 130. The CAC CPG value is \$1,940 and the Collectors Universe value is \$2,000. The most recent NGC MS66 CAC sold for \$1,920 in February 2022. Worthy of any gold holding, one popular area is a short set of late date quarter eagles, and this one would fit in beautifully!

PCGS# 7859 | EST: \$1,500+

**LOT 374****\$2.50 1897 PCGS PR63 CAM CAC**

Of the 136 Proofs produced, perhaps 70-80 survive today in all grades; this CHOICE CAMEO example is a wonderful coin that is a delight to behold! Despite the modest grade, we absolutely love the coin!

Deeply beaming mirrors flash off the rich orange/reddish toned surfaces. The devices are RAZOR sharp, and the contrast is eye arresting. There are no serious flaws anywhere worthy of note inspiring a sensational eye appeal.

Only 136 Proofs were struck. PCGS 2, NGC 4, CAC 1. The current PCGS Price Guide value is \$6,250 and the CAC CPG value is \$6,640. We have no doubt that this coin will bring a strong bid. Housed in an older blue tag holder.

**LOT 375****\$2.50 1909 PCGS MS64 CAC**

A totally original very CHOICE and near GEM quality example. Honey wheat gold color graces both sides somewhat enlivened by a satiny mint frost. The strike is bold and the surfaces are PQ for the grade.

PCGS 792, NGC 798, CAC 178. The most recent example sold in September 2021 for \$3,075. The current CAC CPG value is \$3,190 and the Collectors Universe value is listed at \$3,250. A wonderful example for a type or date set, either way, we will see strong bidding from gold bugs for this one!

\$2.50 1911 PCGS MS64 CAC

A sharply struck and nicely preserved near-GEM with a bold satiny frost that highlights the yellow-gold toning. A few stray marks, visible only with the aid of a strong glass, account for the grade and have no impact on the eye appeal.

PCGS 853, NGC 1154, CAC 230. The most recent example sold for \$1,860 in December 2021. PCGS lists a value of \$2,250 and the CAC CPG value is \$2,340. Scarce in GEM, this is a very pleasing coin for the collector.

PCGS# 7942 | EST: \$1,800+

LOT 377

\$2.50 1913 PCGS MS64 CAC

Very CHOICE and original, the surfaces are satiny and offer a honey-golden tone. Sharply impressed, the devices are sharp and the surfaces are exceptionally clean for the grade. The eye appeal is quite nice.

PCGS 931, NGC 970, CAC 251. The most recent example to sell realized \$2,625 in February 2022. The current CAC CPG value is listed at \$2,190 and the Collectors Universe value is \$2,000. Scarce finer, this is a very pleasing example for the collector.

PCGS# 7945 | EST: \$1,500+

LOT 378

\$2.50 1914 PCGS MS64 CAC

Only 240,000 quarter eagles were struck in 1914 at Philadelphia, and these are RARE in GEM, so for most collectors a high end MS64 is the best they can afford. Totally original, this VERY CHOICE example has a soft satiny mint frost and bold orange-golden tinged surfaces. The devices are sharply struck up and there are no serious marks or distracting signs of contact anywhere. The eye appeal is PQ!

PCGS 456, NGC 406, CAC 93. The last PCGS MS64 CAC sold for \$4,800 in the 2021 ANA auction. The current CAC CPG value is \$6,250 and the PCGS Price Guide value is \$5,000. We think this highly desirable 1914 quarter eagle will see strong bidding. Do not forget that a PCGS MS65 CAC sold for \$33,600! Good luck.

PCGS# 7946 | EST: \$4,200+

LOT 379

\$2.50 1928 PCGS MS65

A wonderful GEM quality 1928 quarter eagle. Well struck devices are crisply embossed into the planchet, the incuse details showing razor sharp definition. Warm peach-rose tinged golden surfaces have a warm frosty glow on both sides. There are no serious marks or ticks worthy of mention, and the eye appeal is great on this OGH encapsulated Indian Head quarter eagle.

PCGS 386, NGC 488. The current PCGS Price Guide value is \$3,000 and these have been selling in the \$1,400 to \$2,200 range. This one should bring on the higher side, as it is high end. RARE finer.

PCGS# 7952 | EST: \$1,800+

LOT 380

\$2.50 1909 PCGS PR64

An important offering, there are less than 100 known today of the original 139 struck. After the Matte Proofs of 1908 proved to be unpopular with collectors compared to the earlier Brilliant mirrored Proofs struck until 1907, the mint continued to change the process of producing Proofs. In 1909, a new finish, the Satin or Roman finish, was employed in 1909 and 1910. These were struck with specially prepared dies and planchets, just like in 1908, but were not treated after striking, leaving the surfaces with a satiny brilliance. Most survivors are in the PR63 and PR64 grades, PCGS has graded just five finer than the presently offered PR64.

The presently offered PR64 has a deep, rich orange-gold patina. The surfaces have a subtly pebbly texture. The incuse devices are sharply rendered and have needle sharp, precision definition. A strong glass reveals a short line in the reverse field and the remnants of an old fingerprint in the upper right field of the reverse. Housed in an older generation blue tag PCGS holder and fresh to the market.

Only 139 Proofs were struck. PCGS 24, NGC 17. The current PCGS Price Guide value is listed at \$25,500 and a similar looking example sold in July 2019 for \$20,400. Keep in mind a PR65 will cost double. This is a very RARE and important opportunity for the collector that cannot be taken for granted. Good luck.

The image displays two views of a 1878 United States Three Dollar Gold Piece. The left view is the obverse, featuring a profile of Liberty facing left, wearing a Phrygian cap. The inscription "UNITED STATES OF AMERICA" is visible around the border. The right view is the reverse, showing a central shield with the number "3" and the word "DOLLARS" below it, with the year "1878" at the bottom. \$3 1887 PCGS MS66+ CAC

A SUPERB example! WOW, everything about this GEM is amazing! The quality is truly off the charts high end! Only 6,000 \$3 gold pieces were struck, and those grading MS66+ and MS67 number in the single digits! This one is tied for second highest graded at PCGS, and there is but a single MS67 graded higher.

Monstrous luster radiates boldly off the surfaces, glowing with a sensational golden bloom all over. The shimmering brilliance accents medium orange-gold patina with tangerine and rose hues jumping off the surfaces when rotated in a light. The details are crisply impressed from an exacting blow from the dies. While careful inspection with a strong glass reveals nothing but the lightest tick or two, none of which has any impact on the stunning visual quality!

PCGS 10, NGC 4, CAC 2. There are 3 in MS66+ and just a single MS67 at PCGS. The most recent example to sell was the Pogue coin, which brought \$32,900 in our September 2021 Regency Auction and the current PCGS Price Guide value is \$35,000. The MS67 has never sold in auction, though it is valued at \$70,000. This is a fantastic SUPERB example and worthy of a world class collection of \$3 gold pieces.

\$3 1888 PCGS PR64 CAM

Ex D.L. Hansen Collection, as noted on the insert.

All Proof gold is rare, and even with a relatively high mintage, the 1888 Proof \$3, saw only 291 examples struck for collectors.

This example is truly CHOICE with a bold Cameo contrast, especially on the obverse. The mirrored fields show off a bold reflection and partial orange-peel texture. The devices are sharply struck, frosted and stand out nicely. The assigned grade is limited by some minor old contact marks that blend into the surrounding surfaces. The eye appeal is decent.

Only 291 Proofs were struck. PCGS 8, NGC 21. The most recent example sold in December 2021 for \$15,000. A wonderful type coin for the collector at an affordable grade. Demand for this coin will be strong. Good luck.

LOT 384

\$5 1802/1 PCGS MS64+ CAC

A SUPERIOR QUALITY, borderline GEM 1802/1 half eagle. Truly a sensational example, clearly among the FINEST KNOWN! WOW! Every half eagle dated 1802 is an overdate, and there are 8 different die marriages cataloged in the Bass-Dannreuther reference on early gold, this one being BD-8.

A glowing satiny mint frost shows off its original brilliance giving life to the rich gold surfaces. Struck with a precision that is not often seen on this issue, all of Liberty's hair detail and all the eagle's breast feathers are fully separated. In the old days before 3rd party grading this coin would have been called a full GEM---the surfaces are that clean, and free of any serious evidence of contact with other coins. Carefully and lovingly cared for since the day it came off the press during Thomas Jefferson's first term as President, and a great example of Robert Scot's classic design.

PCGS 21, NGC 12, CAC 4. There are just four graded MS64+ at PCGS. This coin sold back in our Regency Auction XXV for \$76,375 and the current Collectors Universe value is listed at \$85,000. There are a mere two coins graded higher at PCGS: the Jim O'Neal PCGS MS65 CAC that brought \$138,000 a decade ago and the Earle-Stack-Pogue PCGS MS66 that brought \$211,500 in September 2015. A marvelous coin for a sensational early gold type set or very advanced set of early gold by Red Book variety. We would not be shocked if this essentially GEM quality example brought a very strong bid. Good luck!

LOT 385

\$5 1806 ROUND 6, 7 X 6 STARS. NGC MS61

BD-6 is the only die pairing of the year to use the rounded top 6 punch in the date. The dies were prolific striking the majority of 1806 half eagles.

There is no wear to be found anywhere on this pleasing MS61 early five. Rich yellow golden patina graces both sides, highlighted by a thick mint frost and satiny luster. Well struck devices stand out. There are a few ancient lines that account for the grade, but none of them are really distracting to the eye. A decent Mint State early gold type coin for the collector.

PCGS 46, NGC 23. The most recent example sold in February 2020 for \$18,600 and the current Collectors Universe value is listed at \$17,000. Worthy of a fine gold type set, and will see spirited bidding.

PCGS# 8089 | EST: \$13,000+

LOT 386

\$5 1843-O LARGE LETTERS. NGC MS64+*

An important, conditionally RARE early New Orleans half eagle, this coin is tied for second FINEST at NGC, and tied with finest seen at PCGS. This is a truly AMAZING survivor. There were 101,075 half eagles struck at New Orleans in 1843, and it has been estimated in some numismatic sources that perhaps as many as 82,000 were of the Large Letters variety. David Akers's seminal research suggests that the mintages between the Large and Small Letters varieties were more evenly distributed. Doug Winter notes that this date is available in VF and XF grades, Uncirculated coins are VERY RARE. There are a small number in MS63 and MS64, lending credence to Doug Winter's assertion that a small hoard may have been dispersed at some time.

Sharply struck on both sides, this near-GEM example shows only the slightest hint of weakness at the eagle's neck feathers and Liberty's hair curls. The luster is bold, with a strong satin glow, accenting a touch of very subtle reflection in the obverse fields. Wonderful, totally original splashes of coppery-rust colored toning on both sides, gently hugging the peripheries, that imparts a great look; attesting to its unconserved originality.

Harry Bass owned one of the ex Ed Milas coins, graded MS64 (NGC); Milas owned another NGC MS64 coin that last sold in 2009. Eliasberg's coin was graded MS63/60. James A. Stack (Stack's, October 1994, lot 1104) was called Choice Brilliant Uncirculated. The Norweb Collection lacked an example. This near-GEM does not match any of the plates.

PCGS 1, NGC 4. The most recent auction comparable is the PCGS MS63+ CAC that sold for \$36,425 in our May 2018 Regency Auction. This coin is better than that coin. There has not been an NGC-graded MS64 coin sold in auction in over a decade (this is not that coin). The current Collectors Universe value is \$60,000. NGC has graded a single MS65 finer, a coin we have not seen at auction. We would not be surprised if this coin surpasses the \$46,750 record the James A. Stack coin brought 28 years ago. This is a stunning coin worthy of the FINEST collection of New Orleans gold or top tier set of \$5 Libs. Good luck!

LOT 387

\$5 1857-S PCGS MS65+ CAC S.S.C.A.

EX S.S. CENTRAL AMERICA, and housed in the oversized holder with a pinch of gold dust.

Legend Rare Coin Auctions is honored to offer this AMAZING 1857-S half eagle! This is the second FINEST example of the date known, and it is shocking that it sat for nearly 150 years on the floor of the Atlantic Ocean as part of this famous ship wreck. This highly lustrous GEM gleams with mint fresh brilliance on both sides accenting the high end quality surfaces. The strike is razor sharp, with fully defined devices seen throughout. A few tiny ticks are seen on both sides but the eye appeal is simply AMAZING.

Even after the recovery of the S.S. Central America, this date remains rare in Mint State. The mintage of 87,000 generally went into circulation and remained there until they were well worn. David Akers wrote the grade most likely to be seen is only VF or EF, and Walter Breen said the date was "prohibitively rare above EF". The S.S. Central America cargo was generally \$20 gold pieces and gold bars or ingots of various sizes and firms. The smaller denomination gold coins were likely not stored in the cargo hold, but in the pockets of passengers and crew. It is interesting to note that the FINEST KNOWN examples of this date, from MS64 to MS66 are all from the S.S. Central America! Indeed, prior to the discovery of these wonderful coins, the 57-S was nearly unheard of in any Mint State grade. The NGC MS61 coin from the Ed Milas Collection (Stack's, May 1995) was called "Possibly the Finest Known." Famed collections like Norweb and James A. Stack coins were cataloged raw and as being in the XF range. The Bass coin was ex Eliasberg and was graded MS61 by PCGS when sold in 2000.

PCGS 2, NGC 0, CAC 1. This is the ONLY MS65+ graded and there is just a single MS66 graded higher. The current Collectors Universe value is listed at \$150,000 but we would not be shocked if this monster GEM was to bring even more in this market. We wish every bidder good luck, and a hearty congratulations in advance to the winning bidder, you now own one of the greatest gold coins off the greatest shipwreck recovery in American history.

LOT 388**\$5 1866 MOTTO. PCGS AU58 CAC**

The surfaces are extremely clean and smooth to the naked eye. When using a strong glass you will only find the tiniest of scattered ticks. A bold luster can be detected. Both sides do have a super light sprinkle of pale orange gold original toning. This is NOT a dirty coin. It has an original deep gold color. Miss Liberty and the details are frosty and are sharply struck. The eye appeal is super nice!

PCGS 5, NGC 14, CAC 4. PCGS has graded only ONE coin in AU58+ (which sold for \$15,600 in April 2021) and just 4 coins total in any Mint State grade. The current Collectors Universe value is \$10,000. No question this is a legit rare date in AU58 and beyond!

LOT 389**\$5 1908 INDIAN. PCGS MS65 CAC**
SUPER FRESH, SUPER ORIGINAL,
and VERY HIGH END! WOW!

There is no question at all that is GEM is all there and then some! Deeply impressed incuse devices show off full definition. The surfaces, under intense scrutiny with a powerful loupe, display some minor marks from storage but they are mostly hidden and do not detract from the great eye appeal.

PCGS 245, NGC 109, CAC 59.

There is nothing hotter right now than PCGS/CAC gold! Indian Head fives, are very challenging in GEM, especially CAC approved and demand is through the roof. The most recent example brought \$15,000 in December 2021. The CAC CPG value is \$17,700 and the PCGS Price Guide is \$15,000. Very conditionally challenging any finer, there were enough saved at the time of issue as the first year of type, that the 1908 is the date often chosen to represent the type in a GEM type set. We anticipate very strong bidding here.

PCGS# 8510 | EST: \$10,000+

\$5 1909-D PCGS MS64 CAC

This is a very popular \$5 Indian date, and this example, housed in an older green tag holder, has a fantastic, near-GEM look. Rich orange gold patina envelopes the lustrous surfaces and enlivens the sharply struck devices. Some minor ancient contact marks are unobtrusive and account of the assigned grade. The eye appeal is quite pleasing.

PCGS# 8514 | EST: \$2,800+

\$5 1910 PCGS MS64 CAC

From an original mintage of 604,000, this date is common enough in grades up to MS64, but the survival rate in GEM grades is very small. This impressive near-GEM has a rich orange-gold patina evenly spread over the generally clean and lustrous surfaces. A few tiny traces of contact are seen, mostly in the dreaded right field above the eagle's shoulder. Sharply struck up, this old holdered MS64 is PQ, as evident by the CAC approval.

PCGS 273, NGC 309, CAC 57. There are 52 graded higher at PCGS, of which only 29 are MS65 or 65+ with NONE FINER. There are only 8 MS65 or 65+ examples that are CAC approved. The current PCGS Price Guide value is \$3,000 and the CAC CPG value is \$3,640. A PCGS/CAC MS65 will cost well into the five figures, as none have sold in over a decade! Good luck.

NOTES

LOT 392

\$5 1910-S PCGS MS64+ CAC

This is a really nice HIGH END COIN. It is clearly closer to MS 65 than MS64!

Typically, these come dull and crusty. A happy exception, on this borderline GEM, both sides enjoy a strong unbroken luster. The color is an original gold with orange highlights. Overall, the surfaces appear clean and smooth, only when using a strong glass can you see a few ticks and a small scrape (well hidden). Even the dreaded right field is way above average. There are NO spots or discolorations. All of the details are exceptionally struck (even for a 1910-S). The eye appeal is wonderful!

PCGS 23, NGC 18, CAC 8. PCGS has graded 4 in MS64+. The last piece to sell in auction realized \$49,938 in our May 2021 Regency Auction. The current Collectors Universe value is listed at \$60,000. We never see fresh looking GEM 1910-S half eagles offered. This piece has been off the market since 2017. There are just seven examples graded finer, the PCGS CAC MS65+ Legend paid a world record \$123,375 in June 2016, now locked away in the #1 all-time set-Half Dome (which Legend exclusively built). This piece will be the finest obtainable for years! True choice/GEM better \$5 Indians are extremely RARE and have been going nuts in auctions. Good luck!

PCGS 1253, NGC 890, CAC 113. The most recent example to sell brought \$1,800 in September 2021 and the current Collectors Universe value is \$2,250. In MS64, the Price Guide jumps to \$4,000.

LOT 394

\$5 1913 PCGS MS64 CAC

This coin is all there and then some with just a few tiny ticks that can be seen only with a strong glass. The luster is strong with a warm golden glow and rolling satin cartwheels. Deeply impressed incuse devices show full definition on both sides with all feather details fully delineated. The eye appeal of this near-GEM is very high-end and pleasing.

PCGS 650, NGC 406, CAC 115. The most recent PCGS graded example was not CAC and it brought \$2,675 in September 2021. We have not sold a PCGS/CAC example sold since October 2020. The current PCGS Price Guide value is listed at \$3,500 and the CAC CPG value is listed at \$3,750. Rare in GEM, this is a great looking coin that will fit nicely in a carefully selected gold type set or set of \$5 Indians. Either way demand will be strong and we will see spirited bidding competition.

PCGS# 8525 | EST: \$2,500+

LOT 395

\$10 1861-S PCGS AU53 CAC

As the Civil War was breaking out in the east, the San Francisco mint was producing coins on a limited basis for west coast commerce. Only 15,500 eagles were struck for circulation, and that is where virtually every example struck went, with PCGS CoinFacts estimating a total of 80 surviving in all grades. The ONLY coin that survives in Uncirculated grade is an NGC MS61.

This is a wholesome, lightly worn, original, essentially CHOICE AU example of this RARE date. A glass will be useful in locating some minor contact, which is appropriate for the amount of circulation on this coin. The devices show strong detail with just light friction on the high points. The warm gold patina in the protected areas and lighter honey wheat color in the centers is very attractive.

PCGS 11, NGC 15, CAC 3. The most recent PCGS-graded coin to sell was NOT CAC approved and sold for \$15,275 back in the 2017 ANA auction. The only CAC-approved example to sell was an NGC coin back in 2012. The current Collectors Universe value is listed at \$18,500 and we could see this coin selling for more. Fewer than 20, including no doubt duplicate submissions, have ever graded finer at PCGS, the finest an AU58+. Do not let this important Civil War date rarity slip away!

Boldly lustrous surfaces are have a strong mint brilliance on both sides with generous traces of semi-reflective flash. While we note some scattered contact and bag marks, but the surfaces are not at all hacked up. Old toning graces both sides, giving this lovely coin a "Euro" fresh look. The eye appeal is bold.

PCGS 105, NGC 86. The last non-CAC example sold for \$12,000 in October 2021 and the current PCGS Price Guide value is \$13,250. Only nine coins are graded finer at PCGS, so this pleasing coin will fit into any higher ranked set of CC \$10s.

LOT 397**\$10 1901 PCGS MS66+ CAC**

A condition census example of this date and a wonderfully preserved, borderline SUPERB GEM example. A bold frosty, satiny sheen radiates boldly on both sides of this sharply struck beauty. The surfaces are free of any serious distractions anywhere, and even with the aid of a strong glass, even the most minor tick or giggle is virtually invisible.

PCGS 60, NGC 824, CAC 14. There are just 7 in MS66+ at PCGS with a mere 4 finer. The only MS66+ CAC sold in December 2018 for \$13,200. Wonderfully original and boldly lustrous, this is a real GEM example of this first year of type.

Fully struck devices show off razor sharp definition and every detail is rendered to its finest. The brilliance ranges from velvety and satin like to rolling cartwheels, vividly accenting the lovely golden surfaces. We have looked this coin over and again, and cannot find any flaw worthy of mention, and are not really sure what CAC saw that precluded getting their coveted bean. The eye appeal is great!

PCGS 121, NGC 162. The most recent sold in February 2022 for \$13,200 and before that, one sold for \$15,000 in November 2021. The current Collectors Universe value is listed at \$27,000. Though saved in some quantity as the first year of issue, the 1907 No Motto \$10 is VERY RARE any finer than the currently offered MS66. Good luck.

**LOT 400****\$10 1908 MOTTO. PCGS MS64+ CAC**

Augustus St. Gaudens' original designs purposefully left off the motto IN GOD WE TRUST, as President Roosevelt felt that having the name of the deity on currency that could be used for immoral purposes, was inappropriate. It was not until 1908 when the motto was put on the Indian Head \$10s and St. Gaudens \$20s. This is a borderline GEM example that has the initial visual impact of a higher grade. Boldly lustrous with a brilliant golden sheen, the surfaces are generally clean overall, and the devices show off razor sharp definition to the details. The eye appeal is excellent.

PCGS 403, NGC 187, CAC 56. There are 31 in MS64+. We sold one in December 2019 for \$4,818, and the current PCGS Price Guide value is listed at \$5,000, and it jumps to \$12,500 in MS65. This near-GEM will see strong bidding and will likely find itself hammering in the spread. Good luck!

Despite a generally sizable mintage of 442,000, this date is remarkably scarce in MS64 or higher grades. In MS65 it is RARE and VERY RARE any finer.

This GEM 1913 \$10 is wholly original and very visually pleasing. Sharply impressed devices stand out boldly accented by a rich, glowing frosty brilliance. There are some teeny contact marks that account for the assigned grade, but they have minimal impact on the visual quality.

PCGS 88, NGC 87, CAC 21. We sold the most recent example for \$8,225 in October 2020. Both the PCGS Price Guide and the CAC CPG list a value of \$11,500 in MS65. \$20 1853 PCGS MS62

An important early Liberty double eagle, a date that is "quite rare and undervalued" in Mint State. Just a handful have been graded at PCGS finer, than this wonderful, essentially CHOICE example.

A deep, orange-gold patina is choice and original, accented by a brilliant and bold underlying luster. This coin has a classic "Euro-gold" look, seen on freshly imported gold coins that have been in overseas bank vaults for generations. The

devices are well struck with boldly defined details. Mildly abraded surfaces as typically seen there are only a few graded finer, and this coin ranks among the PCGS CoinFacts Condition Census.

PCGS 28, NGC 18. No doubt there is much duplication here, as evidenced by the fact that none have sold in nearly seven years--the last PCGS MS62 sold in September 2015! An NGC-graded MS62 sold in February 2021 for \$16,800 and the market is stronger today! The current PCGS Price Guide value is listed at \$21,000. Only a handful are graded finer at PCGS, the finest being a 63+. The ONLY MS63 graded by PCGS to ever sell in auction was sold over a decade ago, and would likely cost over \$50,000 were one to come up for auction today! Wonderfully original and in a great collector grade, this Type I double eagle has a fantastic, CHOICE AU look. Minor friction is seen in the fields and on the sharply struck devices, accounting for the assigned grade. A rich, "crusty" or "dirty" olive-gold patina is highlighted by a warm orange-gold underlying vibrance. Some trivial traces of contact from its brief stay in Gold Rush era commerce. The eye appeal is great for the grade, worthy of its CAC approval.

PCGS 237, NGC 251, CAC 27. The last PCGS/CAC example sold in March 2019--that is a full three years ago, so is that APR relevant in this market? The current Collectors Universe value is listed at \$4,000 and we think this coin will realize more when the hammer falls. Good luck.

\$20 1890-CC PCGS MS61

This is a popular date Carson City double eagle, a generally pleasing Mint State coin from this old wild west mint. These large gold coins bearing the CC mintmark evoke images from the classic western films of gun slingers, card games, saloons, etc.

The presently offered piece has just some very minor traces of contact, and some ancient, directional hairlines that account for the assigned grade. A bold satiny frost enlivens the surfaces. There is a planchet flaw, as struck, between the date and star 13 on the obverse that we also mention for the sake of accuracy, but overall the eye appeal is nice for a coin of this grade.

PCGS 131, NGC 95. We think there is some duplication on the Population Reports in MS61 and MS62, in hopes of getting a MS63 grade. The most recent PCGS MS61 sold in the 2022 FUN auction for \$11,700 and the current Collectors Universe value is listed at \$13,500. A high grade example of this first year of the low-relief Saint Gaudens design. RARE at this grade level, and VERY RARE any finer, as only 20 are graded higher at PCGS.

This example has a deep, rich, creamy golden color, brought out by a wonderful lustrous gleam. Well struck, save for a hint of flatness on Liberty's drapery and thigh. The surfaces are quite clean and pleasing; we see no serious marks or any discolorations of any kind. While not CAC approved, we think this coin has a great look for the grade and think the eye appeal is very nice.

\$20 1911-D PCGS MS66 CAC

Exceptional quality in every way! VERY RARE any finer, this is truly an amazingly well preserved and visually alluring Premium GEM 1911-D double eagle.

Impeccable surfaces are clean and free of distracting marks. Both sides offer a BLAZING golden mint luster over delicately textured (almost matte-like) fields. Two-toned orange-gold surfaces bloom with apricot-rose hues. The details are very sharply struck and the eye appeal is great.

PCGS 692, NGC 582, CAC 124. The most recent example sold in February 2022 for \$9,300 and the current PCGS Price Guide value is listed at \$8,500. We think this borderline SUPERB example will see very strong bidding from collectors from any number of interests. Good luck.

PCGS# 9158 | EST: \$7,500+

LOT 414

\$20 1908-D MOTTO. NGC MS65

An old holdered GEM. Bright and brilliant lemon-yellow gold surfaces gleam boldly all over. Sharply struck and pleasingly clean for the grade, the eye appeal is impressive and we are unsure what CAC saw that precluded approval, but to us the coin is attractive, and of real GEM quality.

PCGS 375, NGC 83. VERY RARE finer. The current Collectors Universe value is listed at \$6,500. This fresh, old holdered coin will delight any collector.

PCGS# 9148 | EST: \$4,000+

LOT 416**\$20 1914-S PCGS MS65 CAC**

These mint marked Saints have always proved popular among collectors, and this GEM is fantastic! This lovely coin is housed in an OGH and totally fresh to the market. Intensely lustrous surfaces are bold and brilliant, highlighting a rich, tangerine-gold tone that is just a delight to behold! Clean and free of distracting marks, this GEM will please even the pickiest of gold bugs!

PCGS 2342, NGC 1433, CAC 122. You cannot let the Pops fool you, the last PCGS MS65 CAC sold in our October 2017 Premier Session Internet Only Auction! The current PCGS Price Guide value is listed at \$4,250 and the CAC CPG value is listed at \$4,190. SCARCE any finer, this is a wonderful example for a GEM set or to just put back in these uncertain times. Demand is strong for CAC gold and we know this coin will see fierce bidding competition.

PCGS# 9166 | EST: \$3,500+

**LOT 417****\$20 1922 PCGS MS65+ CAC**

An incredibly eye appealing GEM example of this date, which is extremely RARE any finer. Not only is this coin all there from a technical standpoint, the eye appeal is great. We love the rich orange gold color that is enlivened by a bold, shimmering luster. Well struck on both sides, the surfaces show off a bold cleanliness that is just a couple of tiny ticks from an even loftier grade.

This coin is very interesting to look at up close. The obverse was struck from a shattered die with a number of long, thin die cracks, a feature that is not often seen on Saint Gaudens \$20s, and adds to the visual allure.

PCGS 1672, NGC 548, CAC 27. There are 60 graded MS65+ at PCGS with just a dozen graded higher. The most recent PCGS/CAC MS65+ sold in the 2020 FUN auction for \$13,800. The current PCGS Price Guide value is listed at \$12,500 and it jumps to \$45,000 in MS66. Bound for a world class set of Saints, we think our estimate will prove very conservative when the hammer falls. Good luck.

PCGS# 9173 | EST: \$10,000+

**LOT 418****\$20 1923-D PCGS MS65+**

A blindingly brilliant GEM 23-D double eagle. Intensely lustrous surfaces gleam boldly across the surfaces. The design elements are all crisply impressed and sharply rendered by an exacting blow from the dies. The surfaces show just a couple of tiny ticks, nothing too serious and nothing that would prevent this Gem "+" grade. We like the brilliant luster quite a bit and you will too!

PCGS 130, NGC 45. The most recent examples sold for \$2,880, back in December 2020. The current PCGS Price Guide value is listed at \$4,500. A great GEM to just "put away". Demand for GEM gold is strong and we know this one will see lots of action for this one.

PCGS# 9176 | EST: \$3,000+

LOT 419

\$20 1924 PCGS MS64 CAC

PCGS/CAC gold is the hottest thing on the market today and this beautiful MS64, housed in an old green tag holder, has a sensational, near-GEM look. Thickly lustrous and boasting wonderful original gold color, the eye appeal is superb.

PCGS and NGC have combined graded over 227,000 in MS64, while the CAC Population is 3,409. Both the PCGS and CAC CPG values are both listed at \$2,900. the most recent PCGS/CAC example sold for \$2,550 and this old holdered example should bring more. Good luck.

PCGS# 9177 | EST: \$2,400+

LOT 420

\$20 1924 PCGS MS65+ CAC

A beautiful GEM 1924 Saint, certainly worthy of its MS65+ grade and green CAC bean. Frothy, brilliant yellow gold luster shines on both sides of this well struck GEM. Totally original and very eye appealing.

PCGS 53959; NGC 37227, CAC 1906. There are 1260 in MS65+ at PCGS. The last PCGS/CAC example sold in the 2021 ANA auction, before the market really shot up. The current PCGS Price Guide value is listed at \$4,000 and in MS65 the CAC CPG value is \$3,780. Demand is very strong do not let this slip away.

PCGS# 9177 | EST: \$3,400+

LOT 421

\$20 1924 PCGS MS66 CAC

WOW! What an amazingly lustrous and colorful GEM. Premium quality all the way in every way! Sharply struck and boldly lustrous, the surfaces are awash in honey gold and tangerine-orange coloration that is sensational, brought out by a booming cartwheel luster. The surfaces are nearly flawless and the eye appeal is stunning.

PCGS 10250, NGC 5409, CAC 717. Its been nearly two years since we sold a PCGS/CAC MS66. Today the market is much stronger. The current CAC CPG value is \$5,880 and the PCGS Price Guide value is \$5,000. A great coin to put away into any golden holding.

PCGS# 9177 | EST: \$4,500+

LOT 422

\$20 1924 NGC MS66+ CAC

An uber original and high end GEM example for a carefully selected type set. Marvelous two-tone golden surfaces gleam with a rich lustrous brilliance. The devices are keenly struck up with razor sharp definition and the eye appeal is excellent with no spots or distracting marks.

PCGS 10579, NGC 5650, CAC 716. There are 240 graded MS66+ at NGC. The current Collectors Universe value is listed at \$7,500. The most recent NGC/CAC MS66+ sold in the 2022 FUN auction for \$5,640. NOTE an NGC MS67 CAC sold in November 2021 for \$37,200! This beautiful borderline SUPERB GEM has a great look and worthy of a fantastic collection!

PCGS# 9177 | EST: \$5,000+

LOT 423**\$20 1925 PCGS MS66+ CAC**

A gorgeous 1925 Saint! WOW! Tied for second FINEST graded by PCGS, there are fewer than 10 graded MS67 at PCGS! This coin is sensational!

A gorgeous mix of golden hues are brought out by a bold, lively mint luster that swirls all over in bold cartwheel brilliance. Sharply struck and essentially flawless, this is a HIGH END example. The eye appeal is great!

PCGS 1334, NGC 705, CAC 104. PCGS has graded 46 in MS66+ and just 9 finer. The most recent PCGS MS66+ CAC sold for \$15,600 in November 2021. The current PCGS Price seems low for CAC-approved examples, as even an NGC MS66+ CAC sold for \$11,400 in the 2022 FUN auction. Note that no PCGS MS67 CAC has sold in over a decade, and back then it brought \$30,000! Today that coin would bring \$40,000+. Seems like this MS66+ is a great value!

PCGS# 9180 | EST: \$10,000+

**LOT 424****\$20 1927 PCGS MS64+ CAC**

Obviously, the 1927 is not a rare date in this grade (PCGS has graded 2,302 in MS64+ alone), but this one stands out for its sensationally vibrant, flashy lustrous surfaces that gleam boldly across the surfaces. Sensational brilliance is nearly reflective in the obverse fields. Crisply defined devices are generally clean and free of serious marks. We think this coin has distinct claims to a full GEM grade and the eye appeal is seriously all there and then some!

PCGS 57291, NGC 55782, CAC 2205. PCGS has graded 2302 in 64+. The current Collectors Universe value is \$3,250. In today's market, PCGS/CAC gold is in seriously hot demand and we have no doubt that this coin will bring a very strong bid!

PCGS# 9186 | EST: \$2,400+

**LOT 425****\$20 1927 PCGS MS66+**

Majestic, and very high end, this GEM boasts a very impressive look! Sharply struck devices are enhanced by a very strong luster and beautiful gold coloration, especially on the obverse. The surfaces are free of any distracting marks and the eye appeal is wonderful.

PCGS 318, NGC 105. The most recent example sold in February 2022 for \$3,720 and before that, two sold around \$4,000. VERY RARE finer, PCGS has graded 34 in MS67 or finer, each of these bringing five figure prices. A coin perfect for placement in any holding of gold.

PCGS# 9186 | EST: \$3,600+

LOT 426

\$20 1927 PCGS MS66+ CAC

Another absolutely stunning and original borderline SUPERB example of this very popular 20th gold issue, and the penultimate collectible date.

Sensationally vibrant luster blazes boldly on both sides, accenting the orange-gold and rose-gold patina on both sides. The surfaces are bold and original, the devices sharply impressed, and the eye appeal is stunning.

PCGS 7055, NGC 2805, CAC 599.

PCGS has graded 318 in MS66+ (no doubt these figures include duplication of submissions in hopes of crossing NGC to PCGS or getting a 67 grade). There are fewer than three dozen graded higher. The current Collectors Universe value is listed at \$7,500 and the market today is much stronger than it was in September 2021 when the last PCGS/CAC example sold in auction. Note that any MS67 is a five figure coin, with PCGS/CAC examples realizing over \$30,000! What a great coin to put away, whether it is your collecting focus, or just looking to add some gold to your holdings; either way, demand is huge for a coin like this.

PCGS# 9186 | EST: \$6,000+

LOT 427

\$20 1927 PCGS MS66+ CAC

This glorious Saint is one of the hottest areas of the market today: PCGS/CAC GEM GOLD!

Vivacious surfaces show off a brilliant satiny luster with frosty, deeper orange accents throughout. The sharply struck devices stand out nicely against generally smooth, clean surfaces. Only a few tiny, trivial traces of contact keeps this GEM from the SUPERB category.

PCGS 7055, NGC 2805, CAC 599.

PCGS# 9186 | EST: \$6,000+

LOT 428**\$20 1928 PCGS MS66+ CAC**

A gorgeous, nearly SUPERB GEM quality example of the final "collectible" Saint. Every other date from 1929 onward is RARE to VERY RARE and unobtainable for most collectors. This PQ 1928 is gorgeous and is from one of the hottest areas of numismatics today, PCGS/CAC 20th century gold.

Deeper orange-gold surfaces have a warm, vibrant glow and bold luster. Sharply struck with full, crisp definition on both sides. The surfaces are smooth, clean and free of distracting marks of any kind. The eye appeal is off the charts.

PCGS 3579, NGC 1473, CAC 352. There are 273 in MS66+ at PCGS and very scarce finer. The most recent sold for \$9,000 in October 2021 and the current PCGS Price Guide value is listed at \$7,500. In today's market a PCGS MS67 CAC example would cost \$30,000+. Bound for a great holding of U.S. gold.

PCGS# 9189 | EST: \$6,000+

**LOT 429****\$20 1928 NGC MS67**

Vivid, vibrant, and brilliant, this MS67 1928 Saint has it all! What a great looking coin with a bold mint bloom and lustrous surfaces that gleam boldly all over. The devices are razor sharp in strike and the surfaces are remarkably clean; we can find some very minor contact with the aid of a strong glass, but they are invisible overall to the naked eye and have a negligible effect on the outstanding eye appeal.

PCGS 104, NGC 101. Only two have ever graded higher at NGC. The most recent NGC MS67 sold in November 2021 for \$16,800 and the current Collectors Universe value is listed at \$22,500. Worthy of any SUPERB gold holding or type set and it would not shock us if this beauty sold for a strong bid.

PCGS# 9189 | EST: \$14,000+

LOT 430**25C 1893 ISABELLA.****PCGS MS67+**

This is a VERY HIGH END and beautiful SUPERB GEM Isabella! Not only is this issue EXTREMELY RARE in this lofty state of preservation, but the eye appeal is off the charts amazing!

The surfaces are essentially FLAWLESS, even when using a strong glass we are unable to find a single mark of any kind that distracts the eye. Typically these come dark and dull, but this one is NOT typical! A strong satiny luster glows from the fields, enlivening the near monster color. Both sides have a deeper tangerine-rose gold in the centers and blending into an electric blue at the rims. Every detail is sharply impressed, fully defined, and showing no weakness anywhere. The eye appeal is sensational!

PCGS 13, NGC 2. It has been over two years since one sold and the market for top quality commemoratives is much stronger today than it was then. This is a near twin to the monster we sold in March 2018 for \$16,450 and while PCGS has graded seven finer, any MS68 will cost \$50,000 or more. This is a real prize for any classic commemorative collector.

PCGS# 9220 | EST: \$16,000+

LOT 431**50C 1935 BOONE. PCGS MS67+ CAC**

High end and luxuriously satiny. This Boone is tied for second FINEST graded at PCGS with just two finer, and ranks among the best survivors of this low (10,000) mintage classic commem. A thick, satiny frost glimmers and gleams boldly on both sides. An arc of earthy, orange-gold tone clings to the rims, melding into a lighter gold and finally a pearly silver. The eye appeal is excellent.

PCGS 90, NGC 46, CAC 30. There are 13 graded 67+ and just two in MS68 are graded finer by that service. The most recent example realized \$3,720 and the current PCGS Price Guide value is listed at \$3,500. Neither MS68 has ever sold in auction, but we suspect that if one did, it would bring five figures. Finally, after years of stagnating values, there are signs of life in the upper grades of this series, and we know this coin will see strong bidding. Bound for a great set!

PCGS# 9258 | EST: \$3,000+

LOT 432**50C 1893 COLUMBIAN. PCGS MS67+ CAC**

WOW! This is not just a high grade and beautifully preserved Columbian Expo half dollar, but it is also tied for FINEST graded by PCGS, making it an ideal coin for the #1 PCGS Registry Set of Classic Commemoratives.

The PRISTINE quality surfaces are emblazoned with a strong underlying brilliance that brings out the impressive toning on both sides.

The obverse displays a mix of blue and rose hues while the reverse has an original brilliant silver center, surrounded by a frame of delicate peripheral toning. The strike is as sharp as can be and the eye appeal is off the charts amazing.

PCGS 48, NGC 42, CAC 20. There are just seven in MS67+ and NONE FINER at PCGS. The only one to sell brought \$9,000 back in the 2020 FUN auction, and the commemorative market has become more robust over the last two years. The current Collectors Universe value is listed at \$12,000. With NONE FINER, we would not be shocked if this coin exceeded that level. Good luck.

PCGS# 9297 | EST: \$8,500+**LOT 433****50C 1922 GRANT, STAR. PCGS MS66**

Only 4,256 Grant half dollars with the small star in the field above GRANT, and is a KEY issue in the entire series. It is also among those in the popular Civil War themed commemoratives, and is in demand in all grades. Examples in MS66 or finer are quite scarce and this one is very pleasing. A dappled iridescent toning in pleasing pastel hues, lilac, lavender, rose, blue and gold are brought out by a glassy luster and the devices are sharply struck up. The eye appeal is very nice.

PCGS 45, NGC 55. There is a huge range of APRs, but this one brought \$6,463 six years ago. The current PCGS Price Guide value is listed at \$7,000. Just 16 are graded finer, and those sell for five figures. This is a neat piece poised for strong bidding and placement in a great set of commemoratives.

PCGS# 9307 | EST: \$5,000+**LOT 434****50C 1928 HAWAIIAN. PCGS MS66**

One of the KEYS to the Classic Commemorative half dollar series, the 1928 Hawaiian had a sub 10,000 mintage and is scarce and desirable in all grades, especially so in GEM grades. A glossy brilliant luster radiates, highlighting a pale gold tone that is so typical for the issue. Only a couple of tiny ticks are seen with the aid of a strong glass. The eye appeal is nice.

PCGS 135, NGC 74. The most recent example sold for \$4,080 in the 2021 ANA auction and the current PCGS Price Guide value is listed at \$4,750. RARE finer, MS66 is a popular grade for most collectors.

PCGS# 9309 | EST: \$3,500+

LOT 435

50C 1936 NORFOLK. PCGS MS68+ CAC

A genuine MOOSE! This coin is off the charts awesome in every way! Needless to say, not only is this coin oh so close to the TOP OF THE POP, but the eye appeal is majestic and regal. FLAWLESS, pristine surfaces show no issues of any kind, even with the aid of a strong glass. The frosted, satiny luster radiates boldly under concentric rings of old album toning that is a real delight to behold. The visual allure is stunning!

PCGS 236, NGC 137, CAC 92. PCGS has graded just 17 in MS68+. Go ahead and ignore the APRs and published levels, this coin is in a class all its own! Only three are graded finer, remarkably, in MS69. This coin is much prettier than the MS68+ that sold in June 2011 that holds the record for the issue. This is a world class Norfolk, worthy of the finest commemorative set!

PCGS# 9337 | EST: \$3,500+

LOT 436

50C 1926 OREGON. PCGS MS67+ CAC

A truly magnificent SUPERB GEM example of one of the most popular Classic Commemorative types. The intricate design details are fully and sharply impressed and stand out against the sensational iridescent toning. The eye appeal is exceptional for the type and grade.

PCGS 152, NGC 75, CAC 71. There are 26 graded MS67+ at PCGS and there are five graded higher. The most recent example to sell in a major auction realized \$2,160 in June 2020, well above the current PCGS Price Guide value of \$1,850. Nothing higher has ever sold in auction, and none are CAC approved. This one offers a lot for a collector to appreciate. Good luck.

PCGS# 9340 | EST: \$1,500+

LOT 437

50C 1926 SESQUICENTENNIAL. NGC MS66

The Sesquicentennial half dollar is among the poorest struck, lack luster types in the Classic Commemorative series. Rarely do they appear in higher grades and in MS66, this type is extremely elusive, and EXCESSIVELY RARE any finer. The present GEM MS66 is a happy exception to the typical example.

A bold satiny luster glows warmly in the fields. The surfaces are remarkably clean, free of all but the most microscopic ticks visible only with the aid of a strong glass. The devices are very sharp, with crisply defined details on both sides. A delicate iridescent pastel toning can be seen gently dusted across the surfaces attesting to the originality and high end eye appeal of the present offering. What a great opportunity for the advanced collector of these popular Classic Commemoratives.

PCGS 18, NGC 32. There is a wide spread between PCGS and NGC graded coins, but we think this one will certainly sell in the spread for sure. The most recent NGC MS66 sold for \$6,300 in February 2022 and a PCGS MS66 sold for \$19,200 in January 2022. The current Collectors Universe value is listed at \$19,000. NGC has graded just five coins finer. This coin is bound for a sensational set of early commemoratives. Take a good look at this PQ coin and bid accordingly.

PCGS# 9374 | EST: \$8,000+

LOT 438**50C 1936 TEXAS. PCGS MS67+ CAC**

Eye popping quality! We love this "old friend," a coin we offered back in our September 2019 Regency Auction, where it was cataloged in lot 536, as:

"Very eye appealing! We love the look of this SUPERB GEM. Satiny brilliant surfaces glow with a strong luster which is framed by a rich orange-gold tone that was imparted by long term storage in an old album. The devices are all sharply struck up with full definition, bringing out all the details of the intricate and busy reverse design. The eye appeal is exceptional and very high end."

PCGS 259, NGC 159, CAC 96. There are 37 in MS67+ at PCGS with a baker's dozen finer. This coin brought \$2,938 back in September 2019. Any 68 is a five-figure coin! Bound for a SUPERB set!

PCGS# 9386 | EST: \$2,500+

**LOT 439****\$1 1900 LAFAYETTE. PCGS MS66**

A premium grade GEM example of the ONLY silver dollar in the Classic Commemorative series. From a mintage of 36,026, this issue is quite scarce in GEM grades, and always in demand so fine.

The vibrantly lustrous surfaces radiate all over accenting the deep blue, rose, crimson, and lavender toning. Sharply struck. The surfaces have some minor traces of ticks that account for the grade. None of these are too serious, and have minimal impact on the eye appeal.

PCGS 89, NGC 65. The most recent example to sell in auction realized \$10,350 in December 2021. Prior to that, one sold for \$12,000 in June 2021. The current PCGS Price Guide value is listed at \$12,000. Just two dozen are graded finer, and they become quite pricey any finer. Good luck.

REGENCY AUCTION 51 INTERNET ONLY SESSION

Welcome to the first Regency Online Only Session.

From our founding, we have been very selective of the types of coins we offer in our Regency Auctions. Over the years, unfortunately, we have had to "reject" many collectible coins due to value or other constraints that we have in place to keep up our boutique style. Over the years, we have sought outlets to help our collectors sell their coins that do not meet our Regency Auction standards.

We welcome you now to the first Regency Online Only Session. The following pages offer 123 lots from various

consignors whose coins did not fit into the Regency Auction. Coins range in value and type: from about \$100 to \$2,000, from small cents, Jefferson nickels, toned dollars (including some really beautiful silver eagles), small gold, and commems. This session has a little something for everyone. All lots from this session will be available for lot viewing during the Central States convention.

The session will have a soft close beginning at 7:00 p.m. EST on Sunday, May 1, via the link on our website, www.legendauctions.com.

LOT 1001

1C 1861 PCGS MS65 CAC

A lovely, PQ and delightful Civil War era Indian cent GEM. Boldly lustrous and high end.

PCGS 279, NGC 139, CAC 72. The current CAC CPG value is listed at \$1,250 and the Collectors Universe value is listed at \$1,200. The most recent sold in March 2022 for \$1,050. Worthy of a GEM Indian cent collection.

PCGS# 2061 | EST: \$800+

LOT 1002

1C 1862 PCGS MS64 CAC

A truly flashy and brilliant Copper-nickel cent. Sharply struck and essentially of GEM quality, this is a freshly graded coin that has the look and claims to an even higher grade.

PCGS 778, NGC 556, CAC 72. The most recent sold in August 2021 for \$528. The current CAC CPG value is \$628 and the PCGS Price is \$475. A popular Civil War date.

PCGS# 2064 | EST: \$400+

LOT 1003

1C 1864 COPPER-NICKEL. PCGS MS64 CAC

Totally original and pleasing for the final issue of the thick, copper-nickel Indian Head cents. Lustrous and nicely toned, this well struck example is very fresh and pleasing to the eye.

PCGS 661, NGC 404, CAC 96. The most recent example brought \$950 in November 2021. The CAC CPG value is \$748 and the PCGS Price Guide is \$650. A pleasing coin like this will see spirited bidding.

PCGS# 2070 | EST: \$550+

LOT 1004

1C 1869 PCGS MS64 BN CAC

A near GEM example of this conditionally challenging date. Ample original orange-red coloration clings to the peripheries, especially on the obverse. Sharply struck and somewhat brilliant, the eye appeal is excellent.

PCGS 107, NGC 76, CAC 21. The most recent example sold in the 2021 ANA auction for \$1,020. The current PCGS Price Guide value is listed at \$1,600 and the CAC CPG value is \$1,180. Do not overlook this coin that rarely is seen finer in the BN category.

PCGS# 2094 | EST: \$800+

LOT 1005

1C 1893 PCGS MS66 BN CAC

A totally original and very pleasing toned GEM. Wonderfully colorful accents over lustrous brown patina. Sharply struck and high end.

PCGS 3, NGC 5, CAC 2. None have sold (the last NGC coin was nearly two decades ago). Collectors Universe value is \$600 and the CAC CPG value is \$715. Only a single MS67 BN has ever graded finer. While GEM coins in the RD category get all the attention, there is a following of dedicated collectors for beautifully toned Indian Head cents as well. Bidding will be intense.

PCGS# 2184 | EST: \$700+

LOT 1006

1C 1898 PCGS MS65 BN CAC

Gorgeously lustrous and with a wealth of deep, original RED color. Sharply struck and PQ for the grade.

PCGS 42, NGC 77, CAC 9. Worthy of a premium bid, the published levels have no bearing on a coin like this!

PCGS# 2199 | EST: \$300+

LOT 1007

1C 1997 PCGS MS68 RD

Clean, red surfaces with just a hint of orange hiding within. The sharply struck devices are well defined by the flawless fields.

PCGS 37, NGC 37. The PCGS Price Guide for this coin is \$700.

PCGS# 3145 | EST: \$500+

LOT 1008

1C 1970-S SMALL DATE. PCGS PR68 RD DCAM

Ex D.L. Hansen Collection.

A blazing DCAM example of this popular modern issue.

PCGS 32, NGC 13. The most recent sold for \$435 and the PCGS Price Guide value is listed at \$450. EXTREMELY RARE in PR69 RD DCAM (Pop 3).

PCGS# 93426 | EST: \$3500+

LOT 1009

2C 1869 PCGS PR64 RB

Flashy, red brown toned surfaces are enlivened by a bold underlying mirrored reflection. Sharply struck and delightful as a type coin. Housed in an older blue tag PCGS holder.

Only 600 Proofs were struck. PCGS 103, NGC 45. The most recent example sold in October 2021 for \$690 and the PCGS Price Guide value is listed at \$850.

PCGS# 3640 | EST: \$600+

LOT 1010

3CS 1852 PCGS MS65

An interesting pattern of toning adorns the obverse, with quadrants of toning in shades of silver and royal yellow. The reverse holds more of the latter, but maintains exemplary detail in the devices. There's quite a bit of visual appeal!

PCGS 226, NGC 191. The current PCGS Price Guide value for this coin is \$850, and recent comps are in the \$500-\$600 range. Housed in an OGH.

PCGS# 3666 | EST: \$500+

LOT 1011

3CS 1853 PCGS MS65 CAC

Royal yellow patina emboldens the sharply struck devices on both the obverse and reverse, with small amounts of the original silver luster peeking through in the center. Overall, a great looking example!

PCGS 131, NGC 71, CAC 28. The PCGS Price Guide is \$850, and the CAC CPG retail value of \$748 is quite conservative, as we had a similar example sell in March 2020 for \$1,234. We suspect that this example will sell very well too!

PCGS# 3667 | EST: \$850+

LOT 1012

5C 1882 PLANCHET CRACK @ 4:00. NGC MS65

A lovely dove-gray GEM struck on a cracked planchet at 4:00 on the obverse and 2:00 on the reverse. Very cool mint error in GEM grade.

The current Collectors Universe value for a non-error is \$550. This is a RARE type coin to find an error on, so interest should be intense.

PCGS# 3812 | EST: \$500+

LOT 1013

5C 1934-D PCGS MS65

A brilliant and well struck GEM example.

PCGS 500, NGC 116. The most recent example to sell brought \$300 and the month before, January 2022, one brought \$360. PCGS Price Guide is \$600. Scarce finer.

PCGS# 3973 | EST: \$300+

LOT 1014

5C 1934-D PCGS MS65 CAC

Flashy and brilliant, this is a well struck GEM with vivid nickel-silver surfaces.

PCGS 500, NGC 116, CAC 51. The most recent PCGS/CAC example brought \$870 in the 2021 ANA auction. The current PCGS Price Guide value is listed at \$600. Scarce finer.

PCGS# 3973 | EST: \$450+

LOT 1015

5C 1935-S PCGS MS66

Sharply struck and boldly lustrous, this is a real PQ GEM, a delight for the collector.

PCGS 590, NGC 206. The last one brought \$390 and the PCGS Price Guide value is \$450. Challenging any finer.

PCGS# 3976 | EST: \$300+

LOT 1016

5C 1935-S PCGS MS66

A truly PQ example with a bold luster and soft golden toning. Housed in an old green tag holder.

PCGS 590, NGC 206. The last one sold for \$390 and the PCGS Price Guide value is listed at \$450. Scarce finer.

PCGS# 3976 | EST: \$350+

LOT 1017

5C 1938-D BUFFALO. PCGS MS67

A SUPERB GEM housed in an old green tag holder. Lustrous and sharply struck, the eye appeal is great.

PCGS 2459, NGC 3360. The Collectors Universe value is listed at \$240. Scarce finer. Bid accordingly.

PCGS# 3984 | EST: \$150+

LOT 1018

5C 1938-S JEFFERSON. PCGS MS66 FS

Strong strike on the devices, particularly the steps, accentuated by the clean and frosty fields on both sides.

PCGS 82. The current PCGS Price Guide for this coin puts it at \$550.

PCGS# 84002 | EST: \$500+

LOT 1019
5C 1939-S REVERSE OF 1938. PCGS MS66 FS

Both sides carry a contrast along the center of the devices, hemmed by a frosty ring. The slightest amount of color tinges the edge, leaving a hint of lovely rose gold.

PCGS 41, NGC 18. The current PCGS Price Guide lists this coin at \$500.

PCGS# 84006 | EST: \$500+

LOT 1020
5C 1940-S PCGS MS66+ FS

Nicely defined devices are well struck, with good contrast from the frosty fields. Ringed patterns hold a small tint that bring the lightest amount of color to the surface, and along with it a nice visual appeal.

PCGS 290, NGC 43. The PCGS Price Guide lists this coin at \$200, a good estimation for a coin of this quality.

PCGS# 84009 | EST: \$150+

LOT 1021
5C 1941-S PCGS MS66 FS

The devices on this coin have a fantastic strike, with a slight amount of frost reaching over the surface from the fields. A silver luster enhances the appeal of this choice nickel.

PCGS 105, NGC 3. The PCGS Price Guide of \$175 is accurate, considering a recent sale in January 2022 for \$186.

PCGS# 84012 | EST: \$150+

LOT 1022
5C 1942-D PCGS MS66 FS

Such rosy luster! The devices are sharply struck, with virtually spotless fields and nice contrast. Great, if softly shown, eye appeal on this coin.

PCGS 777, NGC 46. The PCGS Price Guide value of \$100 is rather conservative for a coin like this.

PCGS# 84014 | EST: \$100+

LOT 1023
5C 1945-S PCGS MS67

Gorgeous toning on this nickel! Soft gold brushes the center of both the obverse and reverse, encircled by a ring of titanium and thin multicolor.

PCGS 241, NGC 2,173. The PCGS Price Guide of \$135 is certainly low for a toner like this, with a similar example having been sold in February of 2022 for \$169.

PCGS# 4027 | EST: \$100+

LOT 1024
5C 1945-S PCGS MS67+

The devices are sharply struck, and the fields immaculate. Both sides of this coin are covered in a striking mixture of golds, pinks and greens, enhancing the visual appeal dramatically.

PCGS 31, NGC 45. The PCGS Price Guide lists this as \$300.

PCGS# 4027 | EST: \$180+

LOT 1025

5C 1949-D PCGS MS66 FS

Silver luster with small tones within adorn this coin, with well struck devices aptly highlighted with good contrast.

PCGS 127, NGC 1. The PCGS Price Guide of \$150 is accurate, considering the recent prices achieved being quite similar.

PCGS# 84038 | EST: \$120+

LOT 1026

5C 1949-D NGC MS67

The fields of this coin are extremely clean, with good contrast between them and the well-defined devices. A slight patina is seen, particularly on the reverse, to give a bit of texture to it.

PCGS 25, NGC 131. Collectors Universe values this coin at \$700, NGC comps are in the \$132-\$360 range.

PCGS# ???? | EST: \$150+

LOT 1027

5C 1952-D PCGS MS66 FS

Greatly presented devices are emboldened by a softer contrast, as well as a light silver luster along the fields.

PCGS 61. The PCGS Price Guide value of \$400 is slightly conservative considering recent sales have ranged from \$408 to \$780.

PCGS# 84047 | EST: \$400+

LOT 1028

5C 1955 NGC MS66 5FS

Well struck and well preserved, this is among the top 20 graded by NGC in the 5 FS designation, and they have never graded a single 6 FS. Delightful peach/rose iridescent toning graces both sides.

PCGS 19, NGC 17. The most recent NGC MS66 5FS sold in July 2021 for \$504. The current Collectors Universe value is listed at \$1,650.

PCGS# 84056 | EST: \$500+

LOT 1029

5C 1956 PCGS MS66+FS

The obverse houses an array of oranges and purples within the devices and their edges, with an outer hue of steely blue. The reverse, primarily defined by its gold-tinged center, maintains the blue along the edges, with a touch of purple accenting it. Fantastic eye appeal under a glass!

PCGS 32, NGC 0. The PCGS Price Guide value of \$725 and the APRs are \$312-\$425.

PCGS# 84059 | EST: \$350+

LOT 1030

5C 1957-D NGC MS66 5FS QA

The surfaces are devoid of any marks, with sharply struck devices and frosty fields. The slightest hue of toning surface.

PCGS 52, NGC 65. The Collector's Universe price is \$600 and NGC coins last sold four years ago. More recently PCGS coins were selling \$400+.

PCGS# 84062 | EST: \$200+

LOT 1031

5C 1958 NGC MS66 5FS

A pleasing and well struck PQ GEM. Highly lustrous with a hint of gold at the periphery the eye appeal is great. NGC has graded just 19 in MS66 5 FS, none with 6 FS.

PCGS 13, NGC 19. The last NGC MS66 5FS sold two years ago for \$660. Clearly if this GEM was PCGS, it would be worth more, as the last MS66 FS PCGS sold for \$3,120. The NGC Price Guide value is \$1,100.

PCGS# 84063 | EST: \$600+

LOT 1032

5C 1959 PCGS MS66 FS

Great luster on this coin, exemplifying contrast within the clear fields and well-struck devices. A lightly frosted periphery adds texture to the coin.

PCGS 98, NGC 2. The PCGS Price Guide value of \$350 is a bit lower than a recent sale from August of 2021, realizing \$432.

PCGS# 84065 | EST: \$220+

LOT 1033

5C 1961 NGC MS66+ 5FS

Oh so close to having the full six steps and being worth many many multiples! VERY RARE with a full strike as seen here! This is the SINGLE FINEST with 5 full steps at NGC. This is a sharply struck and boldly lustrous example. Wonderfully preserved with few minor ticks seen only with the aid of a strong glass.

PCGS 0, NGC 3. The NGC Price Guide value is listed at \$5,000 and the only MS66 5FS sold back in 2007 for \$2,300. If this coin was a PCGS MS66 FS, it would be worth \$20,000. Who knows what this one will bring. Only time will tell. A highlight of the offering here.

PCGS# 84069 | EST: \$1,200+

LOT 1034

5C 1963 PCGS MS67

POP 8/2 finer, this is a lustrous SUPERB Jefferson nickel that is well struck, with about 4 of the steps fully defined on the reverse. The eye appeal is nice.

PCGS 8, NGC 66. The last PCGS MS67 sold in November 2017 for \$900 and we sold a 67+ for \$3,408 in March 2019. The PCGS Price Guide value is \$1,100.

PCGS# 4073 | EST: \$750+

LOT 1035

10C 1894 PCGS MS63

Ex D.L. Hansen Collection, as noted on the insert. The obverse is toned with mauve, the reverse is teal and tangerine.

PCGS 42, NGC 29. The most recent sold for \$500 and the current PCGS Price is \$500. An affordable CHOICE BU example for the type or date collector.

PCGS# 4803 | EST: \$400+

LOT 1036

10C 1938-D PCGS MS66+ CAC

Well struck (close but not quite full bands) lustrous and nicely toned.

PCGS 116, NGC 136, CAC 2. There are 2 in MS66+. Only one to sell brought \$154. Scarce finer.

PCGS# 5012 | EST: \$100+

LOT 1037

10C 1938 NGC PF65 GOLD CAC

Housed in an old fatty NGC holder, this reflective GEM is totally original and conservatively graded.

PCGS 958, NGC 531, CAC GOLD 9. The Collectors Universe value in PR66 is \$400 and the CAC CPG in that grade is \$411. We think this original GEM will sell around that range.

PCGS# 5073 | EST: \$260+

LOT 1038

10C 1939 PCGS PR66 CAC

Totally original old iridescent hues over blazing reflective surfaces.

PCGS 1101, NGC 875, CAC 189. The current CAC CPG value is \$336.

PCGS# 5074 | EST: \$275+

LOT 1039

10C 1940 PCGS PR67 CAC

This is a truly SPECTACULAR Proof 1940 dime, a twin to the one we sold in February 2021. Vibrant colors ranging from deep egg-plant-violet fades and blends into shades of blue, green, orange, and gold, before yielding to a splash of blazing mirrored iridescent toned silver.

PCGS 412, NGC 407, CAC 212. The one cited above brought \$3,643 on an estimate of \$450 to \$500. We expect this SUPERB GEM to bring a very strong bid!

PCGS# 5075 | EST: \$450+

LOT 1040

10C 1947-S PCGS MS67+

A beautifully toned SUPERB GEM.

PCGS 31, NGC 31. The Collectors Universe value is listed at \$300.

PCGS# 5087 | EST: \$180+

LOT 1041

10C 1953-S PCGS MS67 FT

A darker ring along the bottom of the fields of the obverse is contrasted by the vibrant orange across the left field, as well as the sharp devices. The reverse, while not nearly as colorful, maintains a smaller amount of the orange along the periphery and holds a textured surface.

PCGS 32, NGC 64. With a PCGS Price Guide value of \$300, recent sales have reflected that accordingly.

PCGS# 85105 | EST: \$300+

LOT 1042

10C 1955-D PCGS MS67

A lustrous top half of the obverse is brushed with multicolored toning along the bottom, exemplifying the rigid dichotomy of color. The reverse has a bold silver luster, despite lacking tones.

PCGS 57, NGC 207. A PCGS Price Guide value of \$120 is relatively in line with sales, but this coin certainly shouldn't be overlooked.

PCGS# 5110 | EST: \$100+

LOT 1043
10C 1956-D NGC MS67 FT

A collection of reds and oranges can be seen across the obverse, with well-struck devices popping. The reverse is well defined, with a robust texture.

PCGS 28, NGC 67. A Collectors Universe Price Guide value of \$225 is accurate, though there are a small base to gauge sales on.

PCGS# 85113 | EST: \$125+

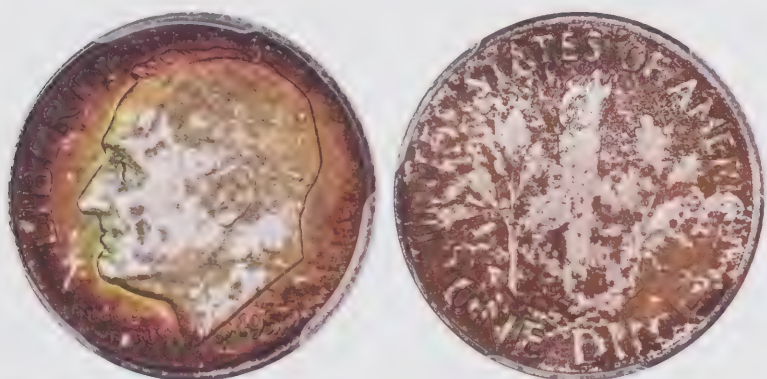

LOT 1044
10C 1957-D PCGS MS67 FT

A light ring of sunset oranges wraps around the periphery of the fields obverse, with a lustrous center keeping its bold silver. The devices of the reverse are well struck with an airbrush toning slightly.

PCGS 45, NGC 97. The PCGS Price Guide value of \$200 fits well within the most recent sale, realizing \$189 in January of 2021.

PCGS# 85115 | EST: \$180+

LOT 1045
10C 1957-D PCGS MS67 FT

Deceptively dark toning on both sides hides arrays of multicolored hues that surround the well struck devices. Under a glass, this coin shines.

PCGS 45, NGC 97. The PCGS Price Guide value of \$200 is accurate, considering the most recent sale of \$189.

PCGS# 85115 | EST: \$180+

LOT 1046
10C 1958-D NGC MS68 FT

Incredible quality! Beautifully toned surfaces show off multicolored, original Mint Set color that is draped over virtually flawless surfaces. Rich luster glows through the rich patina, accenting the varied hues. Sharply struck up devices are bold and give this coin its SUPERB FT designation.

PCGS 4, NGC 18. The current Collectors Universe value is listed at \$4,150 and the most recent MS68 FT to sell in auction was a PCGS-graded coin in November 2021 for \$3,600, while the last NGC-graded example sold nearly two years ago for \$1,020. A great coin for the advanced Roosevelt dime collector.

PCGS# 85117 | EST: \$1,000+

LOT 1047
10C 1960 NGC MS67 FT

A dappled toned SUPERB GEM with pleasing color on the obverse and untuned on the reverse. Sharply struck and well preserved. RARE finer.

PCGS 40, NGC 36. The most recent examples to sell were PCGS, no NGC-graded example has sold in nearly four years. The current Collectors Universe value is listed at \$415.

PCGS# 85120 | EST: \$150+

LOT 1048
10C 1961-D PCGS MS67+

A robust, silver luster is hemmed by a slight multicolor toning on both sides, which allows the fields to show their defined image.

PCGS 9, NGC 9. There is no record of any having been sold prior, with a PCGS Price Guide value of \$375. UNIQUE FINER, and an NGC MS68+ sold for \$1,456 in October 2021.

PCGS# 5123 | EST: \$250+

LOT 1049

10C 1962-D PCGS MS67FT

Golden sunset hues adorn this nickel, with a selection of violets and rainbows brushing the periphery to match. The reverse is tamer in comparison to the obverse, yet still holds the muted tones you see so vividly before it. The eye appeal is fantastic!

PCGS 73, NGC 87. The PCGS Price Guide value of \$150 should be easily passed on this great toner!

PCGS# 85125 | EST: \$120+

LOT 1051

10C 1964-D PCGS MS67+

Spatters of multicolored toning can be seen across the obverse, with a large amount of orange undertones throughout the fields. The reverse, while untoned, is sharply struck and carries a bold luster.

PCGS 24, NGC 21. A PCGS Price Guide value of \$300 is within reason considering the prices realized in sale, though we suspect it may bring more.

PCGS# 5129 | EST: \$150+

LOT 1053

25C 1924-D PCGS MS65 CAC

Rich, satiny luster glows on both sides. Nicely, though not quite fully struck up. Silver brilliance enhances the antique dove-pewter tones. The obverse shows some extensive and interesting die cracks.

PCGS 603, NGC 445, CAC 96. The most recent brought \$552 in January 2022. The PCGS Price Guide value is \$600 and the CAC CPG is \$565. Totally original and fresh to market, this coin will certainly delight.

PCGS# 5748 | EST: \$450+

LOT 1050

10C 1964-D NGC MS67*

A SUPERB GEM, beautifully toned on the obverse and truly deserving of the NGC "*" designation. This beauty will sell for a very strong bid when this lot closes.

PCGS 159, NGC 274. Ignore the APRs and the Price Guides, this one will certainly bring a premium!

PCGS# 5129 | EST: \$100+

LOT 1052

10C 1976 PCGS MS67

Sharp devices are brushed by titanium tones, with fields that are touched by a light golden haze. The surfaces are as clean as can be, with no visible markings.

PCGS 22, NGC 32. Currently valued at \$415 by the PCGS Price Guide, and very seldom sold. It should easily reach that, looking as good as it does!

PCGS# 5149 | EST: \$150+

LOT 1054

25C 1932-S PCGS MS64

Only 408,000 were struck of this KEY Washington quarter. Soft iridescent pearly hues are dusted over the surfaces of this lustrous near-GEM. Quite scarce in MS65 and RARE finer.

PCGS 1240, NGC 607. The current PCGS Price Guide value is \$800 in line with the \$690 to \$930 recent PCGS examples have sold for.

PCGS# 5792 | EST: \$700+

LOT 1055

25C 1950-D PCGS MS67

Understated shades of pastels are lightly brushed across the obverse, with sharp detail on the devices providing excellent contrast. The reverse is well struck, with a small amount of color bleeding through over the periphery. The tones on this coin really brighten up under a glass!

PCGS 90, NGC 213. The current PCGS Price Guide value of \$600 is right on the money considering the recent sales within that range.

PCGS# 5842 | EST: \$320+

LOT 1057

25C 1950-S PCGS MS66

A beautifully toned GEM. Just a few tiny ticks are noted.

LOT 1064

50C 1822 PCGS AU58

O-109. A lustrous, CHOICE AU with delicate old album toning at the peripheries. Pleasing eye appeal overall, a great type coin.

PCGS 134, NGC 68. The most recent examples sold in the \$1,140 to \$1,899 range and the current Collectors Universe value is listed at \$1,650. We could see this highly lustrous example bringing a strong bid.

PCGS# 6129 | EST: \$1,000+

LOT 1065

50C 1829 PCGS AU58

An exceptionally brilliant and nearly untuned "GEM" AU O-105. Sharply struck and fully lustrous, with accents of PL flash, we have no doubt in the old days, this coin would have been called CHOICE BRILLIANT UNCIRCULATED. The eye appeal is sensational.

PCGS 277, NGC 190, CAC 53. The current PCGS Price Guide value is listed at \$1,200 and we would not be surprised if this coin brought close to that when bidding closes. It is that high end.

PCGS# 6154 | EST: \$800+

LOT 1066

50C 1865 PCGS PR62

Low mintage Civil War dated Proof, only 500 were struck. Flashy reflective mirrors are watery and covered by a rich orange-gold patina. The eye appeal is nice for the grade. Housed in an older PCGS holder.

PCGS 17, NGC 15. This brought \$1,080 in February 2022 and the PCGS Price Guide value is \$1,300. Amazing that even in this modest grade, this date is so affordable.

PCGS# 6419 | EST: \$900+

LOT 1067
50C 1895 PCGS PR61

LOT 1077

\$1 1879 PCGS MS65 CAC

The obverse is more subtle with the toning more pastel in intensity, with blue and gold shades really brought out by a vibrant luster. The reverse is deeper, with teal, violet, and blue tones really dominating, before melding to magenta, rose, and tangerine hues. The eye appeal is spectacular, we rate the color overall as an 8+.

PCGS 1341, NGC 717, CAC 142. While the PCGS Price Guide value for this GEM grade is \$650, this beautifully toned example will sell for a very strong premium over and above the book values.

PCGS# 7084 | EST: \$700+

LOT 1074

50C 1958-D PCGS MS67 FBL CAC

A truly beautiful SUPERB GEM example of this popular Franklin date. For some reason the 58-Ds tended to tone more beautifully than many other dates, and this one with its sunset oriented pastel tones has a fantastic look. High end quality surfaces and a bold luster compliment the toning and sharply struck devices, creating a gorgeous specimen for the collector.

PCGS 116, NGC 60, CAC 85. The most recent example sold for \$1,050 and the CAC CPG value is \$1,380. We expect this coin to be a highlight of the internet session when bidding closes.

PCGS# 86675 | EST: \$800+

LOT 1076

\$1 1878-S NGC MS65

A beautifully TONED GEM. The obverse is awash in blue and deeper rose hues. Lustrous and well struck.

PCGS 5129, NGC 4677. The current Collectors Universe value is listed at \$485 and this colorful example should bring more than the recent NGC APRs.

PCGS# 7082 | EST: \$350+

LOT 1078

\$1 1880-S PCGS MS65 CAC

Flashy, semi-reflective cartwheel luster. Gently toned, deeper at the rims. Sharply struck.

PCGS and NGC have graded more than 75,000 in MS65 combined, only 1069 are CAC. The CAC CPG value is listed at \$292 and the PCGS Price Guide is \$250.

PCGS# 7118 | EST: \$220+

LOT 1079

\$1 1880-S PCGS MS66 CAC

A classic double sided toner, clearly formed from long term storage in an old cardboard album. Deeper blues at the rims, mix with a dappled orange-gold. The luster is bold and accents the surfaces beautifully!

PCGS 11854, NGC 12536, CAC 1317. The current CAC CPG value is listed at \$429 and we think this beauty will bring more! Good luck.

PCGS# 7118 | EST: \$400+

LOT 1080

\$1 1881-CC PCGS MS63 DMPL CAC

Vivid, flashy, deep mirrors contrast to the frosty sharply struck devices. Boldly lustrous the eye appeal is SUPERB for the assigned grade.

PCGS 359, NGC 127, CAC 27. The most recent example sold in February 2022 for \$1,276 and the CAC CPG value is listed at \$1,260. A really neat coin for the price point.

PCGS# 97127 | EST: \$1,000+

LOT 1081

\$1 1881-S PCGS MS63 CAC

Beautifully toned and a borderline monster color Morgan, the colors rate a 9 on our 10-point scale with magenta-violet and orange-gold tones dominant. The eye appeal is great for a 63.

PCGS# 7130 | EST: \$500+

LOT 1082

\$1 1881-S PCGS MS64

A lovely VERY CHOICE and lustrous 81-S splashed with speckled and dappled iridescent toning with splashes of tangerine and lemon yellow. The color is lovely.

PCGS# 7130 | EST: \$250+

LOT 1083

\$1 1881-S PCGS MS64

An emerald toned beauty, this is a vivacious near-GEM with a coloration that rates an 8.5 on our 10-point scale.. This colorfully toned beauty is worthy of a very strong bid indeed.

PCGS# 7130 | EST: \$500+

LOT 1084

\$1 1881-S PCGS MS65 CAC

Lustrous, well struck, and delicately toned on both sides. CAC approved for quality.

PCGS and NGC have graded over 115,000 in MS65, only 1763 are CAC approved. The current Collectors Universe value is \$250 and the CAC CPG is \$292.

PCGS# 7130 | EST: \$225+

LOT 1085

\$1 1881-S PCGS MS65 CAC

Flashy vibrant cartwheel luster accents the deep crimson and violet "terminal" toning. Rare and desirable for their darker but beautiful hues. Worthy of a very strong bid!

PCGS# 7130 | EST: \$500+

LOT 1086

\$1 1881-S PCGS MS66+

A beautiful reverse toner, a near SUPERB coin that has color that rates an 8.5+ on our 10-point scale. Only a light mark on the eagle's breast keeps it from a CAC approval.

PCGS 740, NGC 522. The Collectors Universe value is \$550 and this one's magnificent color will easily help it bring more!

PCGS# 7130 | EST: \$500+

LOT 1087

\$1 1882-S PCGS MS64. LOT OF 3.

Three lovely near-GEM examples housed in older blue tag holders. Untoned and well struck. The Collectors Universe value is \$155 each.

PCGS# 7140 | EST: \$350+

LOT 1088

\$1 1883-CC PCGS MS66

A lovely toned example of this popular Carson City issue. A delicate pastel toning covers the obverse and the quality is excellent. We are not sure why CAC did not bean this GEM.

PCGS 2623, NGC 1043. The current PCGS Price Guide value is listed at \$1,300 and the most recent PCGS-graded example sold for \$990. Bid accordingly.

PCGS# 7144 | EST: \$900+

LOT 1089

\$1 1885-O PCGS MS64+ CAC

Intensely brilliant, semi-reflective fields contrast with thickly frosted and very well struck devices. VERY HIGH END for the grade. Will see very strong bidding!

PCGS# 7162 | EST: \$150+

LOT 1090

\$1 1886 PCGS MS62 CAC

The obverse of this dollar is covered with a deep pine green, accented by plum and violet along the devices. The reverse, while uncolored, maintains a clear aesthetic that is touched with the slightest hints of sunset orange along the perimeter of the fields.

PCGS 9443, NGC 8871, CAC 58. A current PCGS Price Guide of \$76 suggests a modest price, but the striking visuals of this coin should bring strong interest.

PCGS# 7166 | EST: \$300+

LOT 1091

\$1 1886 PCGS MS64 CAC

A very pleasing delicate mauve, teal, and rose hued near-GEM. Sharply struck and highly lustrous. A delightful coin for the budget minded collector.

PCGS# 7166 | EST: \$250+

LOT 1092

\$1 1887 PCGS MS65

Lovely iridescent pastel rainbow hues on the obverse are enlivened by a bold luster. The color is quite nice, rating an 8.5+ on our color scale. Some minor marks on the cheek do not distract. Worthy of a premium bid.

PCGS# 7172 | EST: \$400+

LOT 1093

\$1 1896 PCGS MS66+ CAC

Blast white and frosty, the satiny brilliant surfaces enhance the eye appeal of this sharply struck, borderline SUPERB GEM!

PCGS 2617, NGC 1188, CAC 513. There are 545 in MS66+, scarce finer. The Collectors Universe value is \$700 and the last APR is \$720 in February 2022. Bid accordingly.

PCGS# 7240 | EST: \$600+

LOT 1094

\$1 1898 PCGS MS66 CAC

Vivacious satiny luster is brilliant and accents the pearly-silver centers and framed by a blue and orange-gold rim tone. Sharply struck and very eye appealing.

PCGS 904, NGC 498, CAC 229. The current PCGS Price Guide value is listed at \$650 and the CAC CPG value is \$679.

PCGS# 7252 | EST: \$500+

LOT 1095

\$1 1986-S PCGS PR68 DCAM

A beautiful start to a small run of toned Proof American Silver Eagles. The obverse is blue and violet, the reverse is rich gold, vividly brought out by the bold mirrors.

There is a large online community of collectors of toned ASEs and this will make a great start to a beautifully toned set.

PCGS# 9802 | EST: \$200+

LOT 1096

\$1 1987 PCGS MS68

Beautiful rainbow album toning frames both sides of this American Silver Eagle. The eye appeal is great! Toned examples have become a very popular area for collectors in recent times, and they tend to bring strong premiums.

PCGS# 9808 | EST: \$150+

LOT 1097

\$1 1987-S PCGS PR67 DCAM

Flashy mirrors beam through a delightful blend of rainbow toning over the icy sleek surfaces. The eye appeal is amazing.

PCGS# 9809 | EST: \$200+

LOT 1098

\$1 1989-S PCGS PR68 DCAM

Essentially a twin to the 87-S above, this is a gorgeously toned beauty with teal and deep pink. The reverse is only partially toned, offering much original brilliant silver.

PCGS# 9827 | EST: \$200+

LOT 1099

\$1 1990-S PCGS PR68 DCAM

A magnificent example, with BLAZING neon colors gracing the obverse, enlivened by a sensational mirrored brilliance. WOW!

PCGS 2073, NGC 2308, CAC 267. The PCGS Price Guide value is \$1,250 and the CAC CPG is \$1,260. Never a bad time to add some PCGS/CAC gold to your holdings.

PCGS# 8398 | EST: \$1,000+

LOT 1117

\$5 1910 PCGS MS62 CAC

Essentially CHOICE. A fantastic looking and totally FRESH \$5 Indian with a great luster and bold strike. Somewhat conservatively graded in our opinion, though we make no guarantees it will upgrade, it has only been to PCGS once when we sent it in.

PCGS 2020, NGC 2192, CAC 49. There has not been a CAC-approved MS62 sold in nearly five years. The current PCGS Price Guide is \$1,500. Do not overlook this attractive coin!

PCGS# 8517 | EST: \$1,000+

LOT 1118

50C 1937-D BOONE. PCGS MS65 GOLD CAC

Frosty and totally original, this old holdered GEM is conservatively graded and looks better than most MS66s we have seen, CAC certainly agrees, awarding a coveted GOLD sticker. Satiny silver with just a hint of gold at the reverse rim. The eye appeal is great. Only 2,506 were struck.

PCGS 308, NGC 227, CAC GOLD 2. There is not a huge spread from MS65 to MS66+ in the PCGS Price Guide (\$425 to \$550), but it jumps to \$950 in MS67. Take a look at this PQ OGH GEM and bid accordingly.

PCGS# 9271 | EST: \$500+
